Online Only

Bids must be placed online by 11:59pm EST on Oct 30th. Results will be available on Nov 2nd.

Printed information is subject to change up to the auction start time.

Facebook.com/TaxSaleInfo

There are two ways to bid for the no-reserve auctions:

**ONLINE VIA OUR WEBSITE
PROXY/ABSENTEE BID**

(Absentee bids are for those who cannot attend in-person or bid online)

For **registered users**, our website features:

- **Photos** and detailed descriptions of properties (where available)
- **Faster check-in/out** with pre-registration online
- **GPS/GIS** location of the property
- **Maps** of the property vicinity (where available)
- **Google Earth links** to satellite images of the area, and street views of the property and neighborhood (where available)
- **Save properties** to your personalized “favorites” list

We only have about 90 days to review several thousand parcels. We begin about May 1, and add data as we get to each parcel. Please be patient and **check back often as the auction date approaches** for updates. Parcels are sold "as is" based on the assessed legal description only. All other information in this salebook or listed on our website, though reliable to the best of our knowledge, is provided as unverified reference and is not guaranteed to be accurate. You should verify this information with your own research and investigation prior to bidding.

**SAVE TIME AT THE AUCTION
PRE-REGISTER TODAY AT [TAX-SALE.INFO](https://tax-sale.info)**

Visiting and viewing property BEFORE auction:

The auction list being furnished is of property that **MAY** be offered. *Many parcels on early lists do not actually proceed to the auction for a variety of reasons.* PLEASE FOLLOW PROPERTIES YOU ARE INTERESTED IN ON THE WEBSITE. They may be removed from the list, which is updated *daily* on the website if the status is changed. If you do not use the internet, please verify current status with the Treasurer's office regularly.

You are NOT AUTHORIZED to enter any buildings, even if they are unlocked or open to access. Entering into a tax auction property to "see it" is **breaking and entering. It is a criminal offense.** Please limit your review to looking through the windows and other external inspection. We will post exterior and interior photos, and provide other commentary as available.

Entering properties (even vacant land) can be dangerous because of condition. **You assume all liability for injuries and other damage** if you go onto these lands.

Properties may be OCCUPIED or "being watched" by former owners or neighbors sympathetic with former owners. Occupants are often UNKNOWN and could potentially be volatile, unstable or "anti- government" persons. Even vacant land presents potential for conflict.

Some properties still contain the **personal property** of former owners (vehicles, furnishings, appliances etc). These items are **NOT SOLD** at our auction. We are only selling the **REAL ESTATE (land)** and whatever is **attached** to it (land, buildings and fixtures).

- **You are NOT AUTHORIZED to remove ANY "personal" property, "scrap" metal or fixtures from auction parcels. This is THEFT AND WILL BE PROSECUTED.** We often ask neighbors to watch property for theft and vandalism and report this to local police. ***You have been warned...***
- **PROPERTY IS SOLD "AS IS" IN EVERY RESPECT.** Please check zoning, building code violation records, property boundaries, condition of buildings and all local records.
- **THERE ARE NO REFUNDS AND NO SALE CANCELLATIONS AT BUYERS OPTION.**
- **INFORMATION OFFERED ON THE WEBSITE OR IN THE SALE BOOK IS DEEMED RELIABLE BUT IS NOT GUARANTEED.** We suggest reviewing the records of the local ASSESSORS office to be sure that what we are selling is what you think it is. ***We sell by the LEGAL DESCRIPTION ONLY.***
- **YOU SHOULD CONSIDER OBTAINING PROFESSIONAL ASSISTANCE** from land surveyors, property inspection companies or others if you have questions about property attributes.

PLEASE REMEMBER that property lists can change up to the day-of-auction.

Online bidding

- **The full purchase price must be paid in full WITHIN 5 BUSINESS DAYS OF THE SALE.**
Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
- You must also **return the signed and notarized receipt and buyer's affidavit** that is attached to the winning bid email within **5 BUSINESS DAYS OF THE SALE.**
- Online and absentee bidding require a **\$1,000 pre-authorization hold** on a Visa, MasterCard, or Discover credit card or a \$1,000 certified funds deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.
 - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

Absentee bidding

If you do not have internet access, **you can submit an absentee bid by Email or Fax, or by calling 1-800-259-7470.** You will also need to pre-authorize a \$1000 deposit on a major credit card. *our card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).* *If you do not have a credit card, please call us to make alternate arrangements.*

Rules and Regulations

1. Registration

Registration will begin 30 minutes before the stated start time unless otherwise noted. No bids will be accepted unless the bidder has registered and received a pre-numbered bid card. A Driver's license, passport, or other state issued I.D. must be presented in order to receive a bid card.

2. Properties Offered

A. Overview

"Foreclosing Governmental Unit" ("FGU") is a term used by the Michigan tax foreclosure statute and is typically the office of the County Treasurer in the county where the offered property is located. However, in some instances the FGU is the State of Michigan Department of Treasury.

Unless otherwise noted, the "Seller" is the County Treasurer, acting as the "FGU".

The attached list of parcels has been approved for sale at public auction and each is identified by a sale unit number. The Seller reserves the right to pull parcels from the sale at any time prior to the auction.

According to state statutes, **ALL PRIOR** liens (other than certain DEQ liens and other limited exceptions), encumbrances and taxes **are cancelled** by Circuit Court Order. The FGU has attempted to include in the minimum bid, liens that have accrued since foreclosure, such as nuisance or water bills; **all other outstanding bills since foreclosure are the responsibility of the buyer**. These properties are subject to any state, county, or local zoning or building ordinances. The FGU does not guarantee the usability or access to any of these lands.

B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to DO HIS OR HER OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The FGU makes no warranty, guaranty or representation concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the FGU. Some structures may be occupied and occupants should not be disturbed.

C. Reservations

At the sole option of the FGU, a reverter clause may be included in any deed issued to a winning bidder which prohibits the future severing of mineral rights (if any) and/or splitting/subdividing any purchased property into smaller parcels which do not meet local zoning rules or otherwise comply with applicable regulations relating to the splitting of property. If such a reverter clause is included, a violation thereof will result the property reverting to the FGU without refund.

Pursuant to state statutes, where the State of Michigan Department of Treasury is acting as FGU, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the State may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the State does not reserve mineral rights as described above, the State may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

3. Bidding

A. Overview

Generally, each sale unit will be offered separately and in the order appearing on the attached list. Sales are typically conducted both online and live on-site, simultaneously. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid by either method. Typically, the auctioneer will make available a list of parcels prior-to-sale and will provide an opportunity for on-site bidders to designate "parcels of interest" prior to the start of the sale. The auctioneer may skip over those parcels upon which no party has placed an online bid or designated as a parcel of interest prior to the start of the sale. **Parcels that do not have online bids and that have not been designated as parcels of interest prior to the start of the sale and in the manner prescribed by the auctioneer are not guaranteed to be offered.** The auctioneer, in their sole discretion, may offer a second request round of unsold parcels after the first round of bidding has been completed at the minimum bid sale only. Such second request round will be available to those online and on-site bidders as may be in attendance at that time.

B. Starting Bid Price

The starting bid prices are shown on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the FGU or auctioneer.

However, any person who held an interest in a property offered for sale at the time a judgment of foreclosure was entered against such property **must pay at least minimum bid** for such property even if purchased at a no-minimum auction.

C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

Floor bidders MUST bid in the same increments as online and absentee bidders. **We will not accept irregular bid increments** in fairness to online and absentee bidders.

D. Eligible Bidders

Any person who meets the following requirements may register as a bidder and receive a pre-numbered bid card:

- The person does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the FGU from participation in the public sale.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

E. Absentee Bidding

Absentee bids will be accepted in increments up to the amount that you pre-approve. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470. An absentee bid form is also available on www.tax-sale.info. Additionally, absentee bids may be submitted up until one hour before the sale if submitted online.

F. Online Bidding

On-line bidding will be available on the day of the auction at www.tax-sale.info.

G. Bids are Binding

An oral bid accepted at public auction is a legal and binding contract to purchase. No sealed bids will be accepted and the FGU reserves the right to reject any or all bids.

H. Limitations on Bidding

The FGU and auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group or bidders for any reason.

I. Attempts to Bypass These Rules and Regulations

The FGU and auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

4. Terms of Sale

A. Payment

- **Live On-Site Bidders**
 - **The full purchase price must be paid in full on the day of the sale, within half an hour of the end of the Auction.** No purchases can be made on a time-payment plan.
 - **NO CASH** will be accepted.
 - If the total purchase price is **less than \$1,000.00**, full payment may be made by certified check, personal check, money order, Visa, MasterCard, or Discover.
 - If the total purchase price is **greater than \$1,000.00**, a portion of the total purchase price must be paid by **certified funds** as follows:
 - If the total purchase price is **greater than \$1,000.00 but less than \$50,000.00**, **the first \$1,000.00 must be paid in certified funds.**
 - If the total purchase price is **\$50,000.00 or greater**, **the first \$5,000.00 must be paid in certified funds.**
 - **Any remaining balance** beyond the required certified funds may be paid by certified check, personal check, money order, Visa, MasterCard, or Discover.
- **Online & Absentee Bidders**
 - **The full purchase price must be paid in full WITHIN 5 DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
 - Online and absentee bidding require a \$1,000 pre-authorization on a Visa, MasterCard, or Discover credit card or a \$1,000 deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. **Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.**

B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

C. Dishonored Payment

A buyer whose payment is dishonored for any reason will forfeit any purchase price paid as follows:

- A buyer whose total purchase price was less than \$1,000.00 will forfeit any portion of the total purchase price tendered and not dishonored including any credit card chargebacks which are successfully reversed by Seller.
- A buyer whose total purchase price was greater than \$1,000.00 will forfeit that portion of their total purchase price which was required to be tendered in certified funds as required by part 4A above.

Furthermore, the FGU may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.

Any buyer who fails to consummate a purchase will be banned from bidding at all future land auctions. The venue for litigation or arbitration resulting from any disputes or matters involving or arising out of bidding or purchases, whether online or on-site, shall be fixed as Kalamazoo County in the State of Michigan.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4I of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4I, in the local tax collection unit in which the purchased property is located.
- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The FGU **will not issue a deed** and the sale will be canceled if the buyer did not meet the above requirements at the time their bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the FGU is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will **forfeit the first \$350 paid** on each parcel and any buyer's premium paid as liquidated damages for breach of contract by the buyer. Furthermore, the FGU may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

E. Sale to Entities

In order to ensure that individuals do not utilize legal entities to circumvent the sale and ownership restrictions contained in MCL 211.78m(2), the FGU will only sell property to legal entities under certain circumstances. Any buyer desiring to deed a purchased property to a legal entity must disclose the name and address of all officers, shareholders, partners, members, or other parties, regardless of title, who own any portion of that entity. However, such disclosure will not be required if one or more of the following exceptions are applicable:

- The Entity held a prior recorded interest in each purchased property.
- The Entity is a division, agency, or instrumentality of federal, state, or local government.
- The Entity is a Homeowners Association, Condo Association, or other such organization that exercises control over each purchased property.
- The Entity is a publicly traded company listed on a national securities exchange.
- The Entity is a nonprofit corporation and is qualified as tax exempt under IRC §501.

At the time payment is tendered after the auction, any buyer desiring to deed a purchased property to a legal entity will be required to execute an affidavit affirming, **under penalty of perjury**, that the entity is exempt from disclosure under one of the five exceptions listed above, or in the event that no exception is applicable, the names and addresses of all parties owning any portion of that legal entity.

F. Cancellation Policy

The FGU reserves the right **TO CANCEL ANY SALE, AT ANY TIME, FOR ANY REASON** prior to the issuance of the deed.

G. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, **a penalty of \$5/day (maximum \$200) applies**. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases upon payment. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as received by the FGU through tax foreclosure**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The FGU makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the FGU**. The purchaser may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

7. Special Assessments

Special assessment installments through the most recent tax year are included in the starting bids. Seller has attempted to identify those parcels subject to special assessments with a note on the parcel detail page. Parcels sold are subject to property taxes for the entire current tax year, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

8. Possession of Property

A. Possession Pending Deed Delivery

It is recommend that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the Foreclosing Governmental Unit exercises their right to cancel the sale. Until the buyer receives a deed, no activities should be conducted on the site other than:

I. Securing the Property

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property**. Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property**.

II. Assessing Potential Contamination

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at http://www.michigan.gov/deq/0,4561,7-135-3311_4109_4212---,00.html

B. Occupied Property

Buyers will be responsible for all procedures and legal requirements for conducting evictions. Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance.

9. Conditions

The purchaser accepts the premises in its present "as is" condition, and releases the Foreclosing Governmental Unit and employees and agents from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the Foreclosing Governmental Unit recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

10. Deeds

A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the FGU and deeds will be executed and recorded as required by law. The FGU will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.

B. Restrictive Covenants

Some counties sell properties with deed covenants that will attach to the property. These parcels will be noted online, along with the terms being required. **Please carefully review the information for each specific parcel to make sure you understand the terms of sale.**

11. Property Taxes & Other Fees

All property taxes and associated fees that have accrued on or after April 1 in the year that a property is auctioned must be paid **at the time of checkout** after the auction along with the final bid price, buyer's premium, and deed recording fee.

Furthermore, please understand that the **buyer is responsible for all other fees and liens that accrue against a property on or after April 1 in the year that a property is auctioned.** These items are not prorated. They include, but are not limited to municipal utility or ordinance fees, and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses **are not collected at the auction** and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

12. Other

A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the FGU, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. Seller makes no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

Mobile Homes may be titled separately and considered personal property. It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

B. Mineral Rights

You will receive any and all title that the FGU obtains via their tax foreclosure through a quit-claim deed. If the owner of the surface rights to the property also owned the mineral rights, those will become part of your title interest. However this will be subject to the rights of any outstanding leaseholders of oil, gas, mineral or storage rights. You would be obligated to honor the balance of any remaining lease (with automatic renewals if so written). However if the mineral rights have been severed (split from the surface rights) and are owned by a third party, they have not been foreclosed by the FGU and are not included in the mineral rights conveyed to you. In either instance, the leaseholder still has the right to explore for and/or extract minerals under the terms of any outstanding agreement. **Antrim county properties exclude all mineral rights.**

C. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at www.tax-sale.info ("**Additional Terms**"). If such Additional Terms apply, they will be listed under the heading "Additional Terms and Conditions" on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. In some cases, the auctioneer is required to relate certain information orally on the day of sale when it is not possible to include such information in the printed sale booklets or in these Rules and Regulations ("**Oral Terms**"). In such a situation, the auctioneer will clearly state that they are relating an additional condition of sale which either has not been previously printed or which modifies some portion of these Rules and Regulations. If the auctioneer makes such a specific announcement, the Oral Terms shall take precedence over these Rules and Regulations where applicable. Finally, additional conditions are included on the printed auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, Oral Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Oral Terms, Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change at any time and should be reviewed frequently.

NOTE: Please review the terms at the top of each online catalog and the addendum pages in the printable sale books for county-specific purchase terms. Failure to follow the specific rules posted for each county could result in a cancellation of the sale and the retention of part or all of the purchase proceeds by the FGU.

They are generally unbuildable swamp lots and have no value to anyone other than an adjacent land owner. This bundle of parcels will be sold with a DEED RESTRICTION and is subject to the requirement of a CASH PERFORMANCE BOND in the amount of \$100,000.00, both at the unilateral discretion of the seller. The deed restriction shall stipulate that the parcels cannot be sold, traded, gifted or otherwise conveyed; or offered for sale or conveyance, either individually or in any combination, until a residential structure is built and an occupancy permit is issued for that parcel. A violation of the restriction shall cause the title to the parcel(s) to revert to the seller without compensation to the bidder or any purchaser from the bidder. In the event a bid is placed on the parcels, no deed shall be issued, and the sale shall be CANCELLED unless the bidder provides a CASH PERFORMANCE BOND or equivalent, accruing to the benefit of the Treasurer, to secure the payment of the property taxes on the parcels for the next 15 years. The form, amount, issuer and other variables of the bond or its equivalent shall be approved by the seller PRIOR TO (not on) THE DATE OF SALE. If such a cash performance bond is not timely submitted and/or approved by the seller, the bid will be CANCELLED and no deed or refund will be issued.</p> <p><i>(2 of 5)</i> Parcel ID: 043-085-000-086-00; Legal Description: THUNDER BAY VILLAGE SUB LOT #86 Comments: VACANT APPROX 0.25 ACRES</p> <p><i>(3 of 5)</i> Parcel ID: 043-095-000-099-00; Legal Description: THUNDER BAY VILLAGE SUB NO 2 LOT NO 99 Comments: VACANT APPROX 0.23 ACRES</p> <p><i>(4 of 5)</i> Parcel ID: 043-095-000-169-00; Legal Description: THUNDER BAY VILLAGE SUB NO 2 LOT NO 169 & 170 Comments: VACANT APPROX 0.42 ACRES</p> <p><i>(5 of 5)</i> Parcel ID: 043-109-000-575-00; Legal Description: THUNDER BAY VILLAGE # 5 LOT 575 Comments: VACANT APPROX 0.61 ACRES Summer Tax Due: \$40.33</p>	<p>109 DEER CT;</p> <p>105 DEER CT;</p> <p>324 LAKE WINYAH RD;</p> <p>221 LAKE WINYAH RD;</p> <p>104 WABEEK CT</p>	\$500.00

453	Parcel ID: 05-45-010-006-00; Legal Description: LOT 5; BLK B; PLAT OF THE VILLAGE OF MANCELONA Comments: This sale includes a classic downtown double storefront building that has been used as a bar and grill in recent years (Mancelona Tavern, Bucks). There has been some poorly executed modernization done here, and there are still remnants of the classic storefront under that vinyl siding. It looks like a weathered brick façade that is hidden, and there are two recessed entryways that have been enclosed. Inside, the building is old and creaky, but generally solid. The original wood ceilings are above a late century drop ceiling of low grade. The basement had dirt floors that have partially been covered with wood. Electrical service is modern, but not of high quality workmanship. This classic downtowner could be restored with the right owner. It holds many potential uses. This sale is real estate only. We do not own the furnishings. There is no liquor license included. Just the building and land here, folks. Summer Tax Due: \$2,203.61	115 W STATE ST MANCELONA	\$100.00
454	Parcel ID: 05-45-130-015-00; Legal Description: LOT 22 PLAT OF LYBARKER'S 2ND ADD TO THE VILL OF MANCELONA. Comments: You'll want to consider this one a vacant lot with debris to be removed. We're not sure what happened here, but it appears that someone may have been trying to connect two buildings together. There is a nice stone porch, a new power service, some newer framing and then it all just kind of ... stopped. Nice city lot in Mancelona. Municipal utilities and natural gas. Walking distance to downtown. Additional Disclosures: 50 (see key for full text) Summer Tax Due: \$311.53	307 S MAPLE ST MANCELONA	\$100.00

800	<p>This lot is a "bundle" comprised of 30 parcels</p> <p><i>(1 of 30)</i> Parcel ID: 010-005-300-180-04; Legal Description: E 40.9 FT OF N 105.6 FT OF S 1056 FT OF W 412.5 FT OF LOT 5, SECT. 5 T14N R5E Comments: ATTN: No online bidding for this lot. The parcels in this sale unit are grouped, ("bundled") as permitted by MCL 211.78m. Many of these include structures which contain lead based paint. Some may contain asbestos. Many are in various stages of disrepair or collapse and are considered dangerous buildings and attractive nuisance. Some may be occupied by tenants-holding-over under law. These parcels are not being offered individually. They must be purchased as a single bundle at or above the minimum bid price, if any is stated. Pursuant to MCL 211.78 (1), the Foreclosing Governmental Unit (FGU) has determined that the most efficient and expeditious method to return many of these parcels to productive use, is to require their immediate demolition, remediation, rehabilitation or repurposing if sold at auction. Many of these parcels constitute blight, a public nuisance and abatement is considered necessary. Before their sale to ANY purchaser at auction, it is the intent of the FGU that any such purchaser shall demonstrate their financial ability and willingness to perform those actions necessary, in the public interest and welfare, to bring the properties into compliance with local codes and ordinances. Therefore, it is a further requirement of sale of the bundled properties that a purchaser must demolish, remediate, rehabilitate or repurpose these properties as follows: 1) ALL STRUCTURES must be secured and made un-enterable within 15 days of sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued. 2) Any visible refuse, garbage, trash or other cast off shall be removed from lands within 15 days of the sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued.. 3) The conditions required in (1) and (2) above shall be maintained against further entry or blight for a period of 12 months following the execution of a deed. 4) Those properties in the bundle that are beyond reasonable repair or economic vitality to repair must be demolished at the sole expense of the purchaser. The cost of such work shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. All such demolition must be performed within 6 months of deeding, by a licensed, insured demolition contractor acceptable to the code official of the local unit of government where the property is located. All proper permits for demolition and the removal and disposal of volatile debris (asbestos, contaminants etc) must be obtained. 5) Those properties in the bundle which appear to either the purchaser, FGU or the code enforcement official of the local unit of government to be potentially contaminated, shall be the subject of a Baseline Environmental Assessment (BEA) at the sole expense of the purchaser. The cost of such BEA(s) shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. The BEA(s) shall be conducted by an insured environmental consultant licensed in the State of Michigan within 45 days of purchase, and shall be fully complete and filed with the proper authorities within 90 days of purchase. The level of the BEA to be conducted shall be determined by the findings of the initial phase(s) of the BEA at each parcel subject to such study. Where contamination is evident, the purchaser shall indemnify the FGU with a separate performance bond (issued on the same terms as others herein required) in an amount equal to the full cost of remediation of the contamination at each such site, and for a period of twenty (20) years, unless remediation is undertaken and completed during that time period. If the site is remediated to a level satisfactory to state officials charged with such determinations, the requirement for a performance bond shall be removed for that site. 6) Those properties in the bundle which can be rehabilitated or repurposed shall be brought into compliance with all construction, occupancy, zoning and other use codes of the local unit of government within 12 months. Construction and/or mechanical permits must be obtained prior to performing such work. Occupancy permits must be obtained by the expiration of that term. All construction and rehabilitation work at these properties shall be carried out by contractors that are licensed and insured, and acceptable to the code enforcement officer of the local unit of government. The cost of such work shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. In pursuance of those requirements and their costs and timelines, the FGU is requiring the posting of a performance bond in the amount of \$450,000.00. The performance bond shall be made out in favor of the Office of the Bay County Treasurer (acting as the Foreclosing Governmental Unit). Evidence of the issuance and full payment for such bond shall be presented to the FGU within fifteen (15) days of the acceptance of the purchasers bid at auction. In the event evidence of issuance and full payment is not tendered within fifteen (15) days of sale, the sale shall be cancelled outright, and the purchaser considered non-responsive to a necessary condition of the sale. No receipt for the sale shall be issued, and the bidder shall not be entitled to enter upon such premises, until such bond is issued and deemed sufficient by the FGU. Such bond shall be issued by an underwriter licensed to do business in the State of Michigan, who is not the subject of any pending disciplinary action by the State of Michigan or any department, bureau or commission thereof. It shall be payable, in full amount, to the FGU in the event of either whole or partial non-performance of the terms above written for its entire duration. It shall run as effective and be fully pre-paid, for the entire term of twenty-four (24) months. Any overage or refund shall be payable to the purchaser upon earlier termination of the bond because of full performance hereunder. This 24 month time period is not applicable to those performance bonds required for contaminated parcels noted in (5) above. The original of such bond(s) shall be held by an escrow agent satisfactory to the FGU, fully prepaid, at the expense of the purchaser. In the event any purchaser is a corporate or other entity, the principals of such entity must also execute full-recourse personal guarantees that assure payment of the amount(s) due under performance bonds in the event they are not honored for any reason. The inside is wet, moldy and stinky. It appears to have perhaps had past use as some sort of commercial operation like maybe a restaurant, and more recently perhaps low grade residential. There are two units here. The front has a half dozen tiny rooms of about 5x12 in size (tanning beds ?) and the rear was perhaps a studio apartment or owners quarters. The building is essentially solid, but will need a gutting and resurfacing as well as a new roof. NOTE: There will be a future special assessment on this property from the City of Sault Ste Marie. \$3523.08 will be collected in 10 annual installments. Summer Tax Due: \$849.82	1528 4TH AVE SAULT SAINTE MARIE MI 49783	\$100.00

1909	Parcel ID: 012-302-001-00; Legal Description: SEC 29 T41N R21W. LOTS 1&2&3 BLK 2 PLAT OF RAPID RIVER. Comments: This is an older home in Rapid River that has been converted to a duplex. The lower floor was secure and we were unable to access it without leaving it wide open, so it's a chef's surprise. But based on what we saw in the upper unit, it's cluttered and dirty, but straight and solid. The home appears to be in need of a new roof, but it's tough to get a good look at it because it is surrounded by trees and brush. The upper floor of this one has a door that has been busted up, and it is inhabited by feral cats (and a couple dead ones). There is a large, 2 car garage on the alley. It also is trash filled. There is an auto in here that we have no title to. It is not included in this sale. We would summarize here by saying that this one needs to be cleaned out (and aired out), deep cleaned and resurfaced. The structure seems solid enough. It just needs attention. We have a difficult time getting in and around this one because of the debris. Summer Tax Due: \$263.18	7861 Cleveland Street, Rapid River	\$100.00

Comments: We looked for access to this parcel and did not find any. It is one acre, 165 (east-west) by 264' (north-south) and is between LL Road and 23.75 Lane. There may be a physical road into this area at the curve on 23.75, but it's private land and gated. So we could not get in. Some research may demonstrate an easement for access if this one interests you, but it has no public road frontage. It now contains just two solitary, antiquated SatTV dishes. Would make an excellent spot for a vacation place, or you could install a communication center to talk to the aliens on the dishes. This is at the northern edge of the Nahma central district and there are severaql attractions within walking distance. Summer Tax Due: \$23.39	8171 River GG Street, Nahma.	\$100.00

1916	<p>Parcel ID: 014-121-001-00; Legal Description: SEC 18 T39N R22W. LOT 1 BLK 1 OF PLAT OF VILLAGE OF WELLS & ADJACENT ALLEY. Comments: Note: Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$20,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. At the NE corner of the intersection of Third Street and Third Avenue in Wells. This structure is in pretty tough condition. The garage (we think it's a garage) on the north side has collapsed. The two entry doors to the home are either blocked from the inside, or the frames are bowing to the degree that if we enter, we won't be able to resecure them. So we did not enter this one. The core structure here "looks" straight. The roof is not bad. But it has been open to the elements (lots of broken windows and holes) and we assume there are critters living here. There is some soot/discoloration at points that infer there may have been a fire here. It will be difficult to assess the condition of this one until it has been emptied out. There is debris inside the building and all over the yard. This one is a grab bag. Nice corner lot in wells. Natural gas here. Comments: NOTE: The city of Gladstone will require purchaser to upgrade the electrical service box and mast to meet code requirements prior to connecting electrical service to this home. Older 1.5 story home on a quiet residential street in Gladstone. Exterior is asphalt shingle sided. Has a decent looking roof that did not appear to leak. The inside is a bit messy, but not stinky. Looks like it has been vacant perhaps a year to 18 months. Generally solid and straight, with a few creaky floors mostly upstairs. 2 bedrooms, 1.5 baths. With some updating, this could be a pretty nice place. How water heat. No obvious signs of freeze damage to the plumbing. Fenced yard with alley service. 2000	Parcel ID: 002-005-008-20; Legal Description: SEC 5 T39N R30W A STRIP OF LAND 100.00 FT WIDE ACROSS THE NW X NE, NE X NE BEING THE FORMER WISC MICH RR R/W 50.00 FT IN WIDTH ON EACH SIDE OF C/L OF SURVEYED AND LOCATED LINE. Comments: This parcel was a Wisconsin & Michigan railroad right-of-way. It may have been abandoned, but that is unclear. It runs east to west, and across the entire NE 1/4 of Section 5. That would start (on the east) at the end of Dawn South Lake Road, and run west to the centerline of the Section. Curiously, the tracks are still in place here, and these have usually been harvested by the railway prior to abandonment. So you may wish to confirm the location of the line and question any party with a contractual right (or easement) to use it before disturbing the infrastructure. There is substantial value to the steel track and the gravel bed. Whether you would have a right to remove and sell them is a question you will want to be sure of the answer to prior to bidding. If this is only land ownership and you don't have ownership of the actual track material, you could end up in deep poo-poo if you tried to remove them. Please make sure what you're bidding on here, folks. Additional Disclosures: 30 (see key for full text) Summer Tax Due: \$325.91	Railroad right-of-way	\$100.00

It is 130 feet (north-south) x 350 feet (east-west). Technically, this parcel fronts on Coolidge Avenue, but this section of the road was never built. So you should check to see if the street here was ever officially "vacated" (abandon) by the city, or if the right to use this as a public roadway (driveway) still exists. Level, open lands. Comments: One story home in Channing. it is straight and solid, and the roof is in fair condition. Aluminum siding. Two outbuildings. Space heater. Sits on a crawlspace that has standing water in it that will need to be pumped out. The floor plan has been chopped up to introduce a stairway that leads to an attic space that apparently was being planned for use as a sleeping area (?) or storage space. These issues have not transmitted themselves to the interior, but given time, they will. You'll want to take a good look at the foundation on this prior to bidding. This home has one small (childs) bedroom down, and a single room upstairs. It is a bit grubby, and appears to not have been regularly occupied in possibly 15+ years. There are visible indicators of frozen plumbing. The toilet is in multiple pieces The roof here is older, but does not leak. This is NOT a sale of "land", but instead the right to build the 16 duplex buildings that are required by the Master Deed, which you can find recorded at the County Register of Deeds office in Iron Mountain. If you'd like to have a look at the structure required by the Master Deed, there are already 5 duplex units built here that are examples. This project sits along the banks of the Menominee River, with Wisconsin right across the way. The seller reserve the right to create a deed restriction, prohibiting the "splitting" of these unbuilt units for resale prior to the physical construction and issuance of certificates of occupancy for each two unit duplex building. This would permit a successor developer the opportunity to build one at a time, but would discourage speculators from trying to "flip" condos that do not even exist. They will have a deed restriction that they CANNOT BE EITHER OFFERED FOR SALE, OR RESOLD INDIVIDUALLY OR IN ANY COMBINATION, UNLESS AND UNTIL CONSTRUCTED AND AN OCCUPANCY PERMIT ISSUED FOR EACH UNIT or title will revert to the Dickinson County Treasurer without compensation. This permits a developer to built one unit at a time if they choose. This bundle is eight proposed units, and being sold as one auction parcel bundle. If you're intent on bidding on this bundle, please be certain that you understand the ramifications of a reverter clause when used as a deed restriction. Again, these units cannot be split or sold before the physical construction is complete. If you have a sincere interest in this project, please consult with the office of the County Treasurer or the auction house prior to bidding. It has a second floor residence and a full basement, which is damp. The building is generally solid but has the expected bows and weaves in the floors that come with age. There is some mold in the building that we imagine is a result of the sump pump being inoperable because the power is off. (5 of 19) **Parcel ID:** 51-07-501-600; **Legal Description:** SEC. 10 T47N R46W LOT 2, BLK 6; HOLLANDS ADD. **Comments:** Parcel is off the NW corner or the intersection of Alquist Street and Park Street. We can't be certain if it actually fronts on the road ... you may want to check this with local records to be certain.

(6 of 19) **Parcel ID:** 51-09-001-900; **Legal Description:** SEC. 00 T00N R00W MAP NO. PQ-20 MCDONALD ADDITION TO WEST BESSEMER; LOT 10, BLK 9. **Comments:** Small vacant lot. On Third Street near the intersection with Hematite.

(7 of 19) **Parcel ID:** 52-15-478-150; **Legal Description:** LOT 7 & E 1/2 OF LOT 8 BLOCK 6 SUPERIOR GARDEN ADD **Comments:** A great little 1.5 story home. The attached one car garage is in pretty rough shape and features open air design. It probably just needs to be torn off. It's shot. Inside, this is a pleasant home with hardwood floors worth refinishing. However there is a substantial slope in the floor toward the center of the home, and some large (up to 1/2") cracks are visible in walls and corners, especially the stairway leading to the three upstairs bedrooms. Clearly, something is amiss underneath this one and should be immediately corrected. However the access to the basement is (you guessed it) buried in the rubble out in the garage. So this one is Chef's surprise ... it could be as simple as jacking up and stabilizing it, or as complicated as a structural failure. We can't be certain. This could be a cute little place. But it will take some clean up to get there. **Additional Disclosures:** 22 (see key for full text)

An excellent opportunity to build new, or to add to a neighboring yard ! Parcel is to the left at the end of the pavement, beginning 280 feet west of Larch Street.

Comments: At the NE corner of the intersection of Beddell and Maki, just south of Wakefield. Older home of frame construction. The roof is pretty old and there is visible deterioration to the eaves and soffits. Someone has gone to the effort of raising this one and putting a block foundation under it, but that too is already buckled inward and caving in. Inside the building is Spartan and needs a complete strip out and rehab. There is a garage on the parcel ... in name only. It has caved in some time ago and is probably only good for bonfires now. Comments: Newer single wide mobile home on a lot at Watersmeet. Has detached 2 car garage for your toys ! The Lac Vieux Desert casino is just a mile or so up the road for your entertainment pleasure. Unfortunately, this one is the victim of frozen plumbing. The floors are heaved and buckled all through the unit, and mold is beginning to form. It is a classic example of what happens to pressboard floors when they get wet. This mobile home may be beyond saving. It is possible that you could pull the entire floor and subfloor out of it and redo, but if the substructure is engineered (laminated chipboard) and if that has been soaked as well, it might be a real crap shoot (local pun intended) depending on how long the water ran before being shut off. The garage here is solid and worth keeping. You might find it most expedient to pull this mobile off and simply replace it. You'll already have water, sewer, electric and a garage ready to go. Each time, there is a little more done, but never quite finished. If you buy it, we hope you'll keep it ... Older frame structure has been stripped for a remodel that is not yet complete. Much of the demo phase of the rehab is done and the junk has been hauled off. There is some framing completed toward the end goal, but not much is complete mechanically. We suspect it needs a new roof. What is there is weathered, but we did not see any active leaking. Access to the basement is from outside in the rear. No furnace or water heater. It has been used in the past as state office space, but easily lends itself to reformation into retail, food service or a multitude of other commercial uses. We believe it is only about 30 years old. Roughly 15 car parking lot at the front. The building is about 150 feet long and 70 feet deep. Inside, there are a couple dozen office sized rooms along a corridor that circles around the building (see diagram in photos). There is also a corner space that was rented out in the past to a sporting goods store. Building notes indicate that the walls inside are sound reducing panels. We believe they can be removed with minimal effort. The building has a substantial single phase, 600 amp power service and is wired for telco and cat5 paths. Two gas and power services. Barrier free design. HVAC is rooftop units. Would make an excellent governmental, corporate or shared rental facility. We noticed mold starting on the walls of one interior room. We presume this is mostly from being closed up without ventilation. We saw no signs of roof leaks or any other source for that to occur.</p> <p>Summer Tax Due: \$7,053.65</p>	100 W CLOVERLAND DR IRONWOOD	\$200.00

It is straight and solid, but needs cosmetic help (and a new back door). The boiler is missing, and there is an old forced air furnace sitting in the living room (?). This home has hardwood floors in very restorable condition. The original plaster has been textured over with swirled treatment. The mechanicals here could all use updating. The roof here has been leaking for a looooooong time. We didn't spend much effort trying to get a good look at the second floor, because some of it is now on the first floor. The roof joists at the rear of the building have rotted and collapsed, and the second floor below it is much the same. This building could be restored, but you would have to do substantial replacement of ceiling and floor joists. The exterior walls look okay from a cursory walk-around, but you may wish to investigate this in detail before bidding. If it wasn't historic we'd call it a dozer bait knockdown candidate. It was occupied by a renter at the time of our visit in early June. We did not get a chance to view the interior because of occupancy, but we assume it to be merchantable. The exterior siding is in need or a coat of paint. The roof is older and checked. If it's not leaking now, it probably will before long. Would be a good candidate for a rehabber ! With a resurfacing and deep cleaning, this house will be ready to re-occupy. Basement has a sauna and half bath ! The foundation and chimney have been covered with a faux stone treatment. A small area of it on the west side has pulled away ... however this is mostly a cosmetic finish and not the actual foundation ... Nice original trim and floors. Newer roof. 2707	Parcel ID: 041-549-005-00; Legal Description: PLAT OF ALPHA LOTS 5, 6 & 7 BLK 9. Comments: The core of this one is an ancient one story log home. Someone has begun the process of putting it into a larger form, but there is much left to do. We'd describe this one as "primitive" in its current form. It's stinky and needs to be cleaned out to assess its potential. Summer Tax Due: \$214.18	611 SECOND STREET ALPHA	\$100.00
2709	Parcel ID: 041-588-015-00; Legal Description: 1ST ADD TO PLAT OF ALPHA LOT 15 BLK 8. Comments: Parcel sits "at the point" where 2nd Street meets S Main Street in Alpha. It's too small to build anything useful on. But maybe you could buy it, have a bronze statue of you made, and turn it into a park. Or use it for lawn bowling. Or plant flowers on it. The possibilities are endless ! Additional Disclosures: 9 (see key for full text) Summer Tax Due: \$9.38		\$100.00
2710	Parcel ID: 042-740-014-00; Legal Description: PLAT OF SPIES LOCATION TO VILLAGE OF MINERAL HILLS (NOW CITY OF IRON RIVER) LOT 14 Comments: This one just needs to come down. 50' x 155' lot on Grant Street, contains an old frame structure that is all torn up. The garage out back is decent and worth saving, but this building in front is rotten and failing. Has had no garage for a fortnight, and the inside is molded. The garage here is a modern, 2 car unit with steel siding and roof. It's roughly 24x28 in size. Cement floor. We did not see a power service to the garage. Summer Tax Due: \$519.20	Grant Street. Virgil Location	\$100.00

2712	<p>This lot is a "bundle" comprised of 5 parcels</p> <p><i>(1 of 5)</i> Parcel ID: 051-162-011-00; Legal Description: SEC 1 T42N R35W PLAT OF CASPIAN LOTS 11 AND 12 BLK 2. Comments: This is a bundle of 5 properties being sold together as one auction lot. A performance bond in the amount of \$20,000.00 to ensure demolition of structures is required in order to purchase this lot. Evidence of the posting of a CASH PERFORMANCE BOND or equivalent surety, shall be presented to the Seller or its designee for acceptance within 5 days of the auction. The seller has the unilateral right to accept, reject or require modification to the proposed instrument. If an acceptable bond or surety is not presented within the period, the sale shall be canceled for non-performance without refund. The purchaser has NO RIGHT TO POSSESSION or entry upon the property until the issuance and recording of the deed. There are two structures here under a common storefront facade. The east building is an old wood frame two story traditional retail walk up. Probably 100 years old or more. The west addition is a mid century concrete block one story structure. Both have sketchy looking old roofs that have been patched, coated and mostly ignored. Surprisingly, the leakage inside is almost nil. But we'd get a new roof on this one before the nastiness creeps inside. The interior has been joined and carved up into more than a dozen office type rooms. Most of the building has paneling and drop ceilings. This property has potential. Do you have a use for it ? It appears the last use was a resale-secondhand store and residence. There is a large tree that has fallen to the rear. Near miss. Almost had some major roof damage.</p> <p><i>(2 of 5)</i> Parcel ID: 051-202-006-00; Legal Description: SEC 1 T42N R35W 1ST ADD TO PLAT OF CASPIAN LOTS 6 & 7 BLK 2. Comments: Home is situated on a double (60'x120') lot near Caspian's "main drag". The exterior is faux brick asphalt. And the roof is older, but seems pretty serviceable for the near term. The inside is straight and solid. Someone has harvested just about every light fixture, so you'll need to replace all of those. The kitchen and bath could both use a freshening up, but they're adequate. Nice landscape that could be trimmed up and made to look sharp. The front porch here is cantilevered, and it may be missing some sort of structural support at the corners. You will want to take a good look at that. This one could be made back into someones Home Sweet Home without a tremendous investment.</p> <p><i>(3 of 5)</i> Parcel ID: 051-204-016-00; Legal Description: SEC 1 T42N R35W 1ST ADD TO PLAT OF CASPIAN LOT 16 BLK 4. Comments: This is a sharp little bungalow style home in Caspian that has a horrid foundation. Some cracks are evident at the front left corner of the house, but the backside is where you really see the damage. An effort was made to put some plywood over it, but most of the back foundation is shifting into the basement. This is a sharp little house, but it really, really really needs to either be lifted onto a new foundation, OR simply moved to a new lot nearby. There are nice hardwood floors here, buckling from a combination of the foundation issues and the dampness that permits to enter. 2-3 bedrooms and one bath here. This one is worth saving. Are you up to the task ? Additional Disclosures: 34 (see key for full text)</p> <p><i>(4 of 5)</i> Parcel ID: 051-229-001-00; Legal Description: SEC 1 T42N R35W KONWINSKI ADDITION LOTS 1, 2 & 3 BLK 9. Comments: The house here is roached. The wooden sill plates and foundation are rotten to the point that even the termites moved out. The value here is in the really great 90'x120' corner lot at the NE corner of W Caspian and W 2nd Streets. If you're looking for a great place to build new, this could be it ! All municipal utilities and natural gas here ! Sold as a bundle with the home right next door. Comments: Someone started rehabbing this home, even though the foundation here is shot. Has a partial roof that is very new higher grade architectural style shingles. Seems the equivalent of putting lipstick on a pig ... doesn't it ? There may be something beyond just a foundation issue here as well, as we noticed that the driveway paving is itself cracking and rolling under the house. So there could very well be something unstable under the surface here beyond the extent of the foundation walls. The land to the west is a hillside ... and this could be the result of decades of washout. There is also a one car garage here. It may have potential use to an adjacent property owner. 2718	<p>Parcel ID: 052-100-115-00; Legal Description: VILLAGE OF CRYSTAL FALLS LOT 115</p> <p>Comments: This is an older frame structure in Crystal Falls that needs a good deal of work. It was originally a single family home, then (not especially well) converted to a duplex. The foundation is covered, but we suspect it is a wood pier footing system and failing. The roof is old and sketchy looking. There is an exterior entrance to the second floor apartment that is showing signs of decay. Inside, the main floor walls and ceiling are covered in soot, suggesting that there has been a fire in here, or a really hazardous heating system was used. It could probably be deep cleaned (we didn't see any fire damage beyond the soot) but the house overall is of poor condition, needs a complete resurfacing inside and out, and it may or may not warrant the investment. 2720	<p>Parcel ID: 054-126-012-00; Legal Description: PLAT OF VILLAGE (NOW CITY) OF IRON RIVER LOT 12 BLK 26. Comments: Note: See Photos for condemnation letter from the city of Iron River. Narrow 30x120 lot with alley service. Contains a two story home and garage in weathered condition. The home is dated, but is generally straight and solid. We would encourage a good look at the roof. It's not leaking "yet", but it looks pretty shady and that probably isn't far off. The electrical panel is all chopped up and the wiring is going to need an overhaul. The basement is a one room cellar, with a rear entrance. It is moist and the furnace and water heater are deteriorating because of being located here. It should be sealed better, or those units moved. The foundation was not easy to assess as it is covered in most places, and we noticed some deflection in the floors. The main floor walls have been plastered with a rough texture that would be much improved with new sheet rock. Or you could just leave it the way it is. The second floor has two bedrooms and a very oddly arranged bath tub set up that could best be described as "cobbled". It is enclosed in a glass walled trim piece that clearly had some other original purpose. Overall, this is a pretty basic structure that could be used as it is with some basic repairs. But it has greater potential with some cosmetic upgrades. In either instance, it's going to need a roof and mechanicals replaced in order to serve the purpose for any substantial period of time.</p> <p>Summer Tax Due: \$241.35</p>	120 W BOYINGTON IRON RIVER	\$100.00
2721	<p>Parcel ID: 054-137-007-00; Legal Description: PLAT OF ADDITION OF VILLAGE (NOW CITY) OF IRON RIVER LOTS 7 & 8, BLK 37 Comments: Note: See Photos for condemnation letter from the city of Iron River. This is a very solid older 2 story home in Iron River. It has been converted into a 2 unit rental property with a cheezy front exterior stairway, and it appears that is has been vacant for some time. We saw items inside dated from the 1990's if that is an indication. The roof looks sketchy, but we found no active leaks. It is old shingle on the west side and much newer steel on the east. The siding is in dire need of paint, but overall really is not all that bad with a few spots that should be repairable. We saw numerous places in the eaves and soffits that need attention, but not horrid condition overall. Inside, everything is dated and worn. The plaster is generally solid and merchantable, but the whole place could use a resurfacing and sprucing up, inside and out. The mechanicals are ancient and will all need updating. The furnace and water heater are probably shot, and the electric is an old and shady looking 60A fuse panel. This is a sturdy old place that would be a wonderful restoration project for the rehabber looking for a large single family home. Worn and used two story home. Has been multi-family in recent times. The inside looks better than the outside, but not by much. The entire place would benefit from a resurfacing. The roof has been replaced in fairly recent years, however it is easily 3 or 4 layers of shingle without a proper tear-off and the shingle is blowing off and can be seen missing and laying around the yard. Guess they didn't use the 6 inch roofing nails ... The electric service panel is installed in an open exterior porch which clearly would never pass an inspection. The mechanicals here in general are jerry-rigged and should probably be replaced entirely. This one has potential, but it will require a substantial investment of time and money to bring it around. 2724	Parcel ID: 054-403-002-00; Legal Description: FIRST PARK ADD TO VILL OF IRON RIVER LOTS 2 & 3, BLK 3 Comments: Note: See Photos for condemnation letter from the city of Iron River. This could be a cute little place in the right hands. It needs a new roof immediately. There are a couple of minor leaks that have not caused much damage "yet", but another year or two will not be good for this home. The eaves and roof decking likely will need some attention during that process. We saw a couple of cracks in the foundation and some loose components that could use your attention. They do not seem to have impacted the structure "yet", but they will if left unattended. Inside the home is grubby and could use a deep cleaning. There are a few spots where the ceiling will need repair, and we would resurface it and install new floor coverings. It appears the home has been vacant for about 10 years. The mechanicals here are newer, but it has an older electrical service that we would upgrade. 2 bedrooms, one bath. Wood floors that may shine with a refinish. Someone started a complete rehab here, removing most of the lath and plaster prepping it for new wiring and plumbing and then they quit. The front portion of the roof still needs to be redone. The electric service is incomplete. The vinyl siding is about 90%. The existing mechanicals are either "gone" or ancient, needing replacement. On the bright side, most of the debris from the gutting has been removed, which makes finishing it a lot more efficient. Many of the windows have been boarded from the inside. We assume they were removed with the intention of being upgraded during the gut out, and they boarded instead of finishing that part of the project. Much of the elbow grease has already been done here. Now it's yours to finish ! It appears to be generally straight and very solid. A worthy rehab candidate. 3917	This lot is a "bundle" comprised of 2 parcels (1 of 2) Parcel ID: 32-221-705-05; Legal Description: VILLAGE OF BEAR LAKE W 44FT OF LOT 3, W 66FT OF LOT 4, ALSO N 1FT OF W 66FT OF LOT 5 BLK C Comments: There are two buildings on this parcel, which is located at the intersection of Lynn and Lake Streets in Bear Lake. Bear Lake is unzoned, and commercial use of this land would be permitted. The large brick building on the corner was probably quite the building in its day, but it has deteriorated to the degree that any attempt at restoring it would be an exercise in fiscal futility. The roof joist system has advanced decay and several components have failed. There is a faux mansard roof over the top of the original decking, and both have now failed. Inside, there is much advanced decay, with rotten wood everywhere. Buckled floors. unsafe in numerous places. Quite simply, the value here is in the land, which is on US 31 in the village at a very high visibility location. There is also a small home to the rear that is in better shape than the front building, but still economically beyond realistic rehabilitation. It has no functioning plumbing and has been chopped up by someone harvesting its various parts. In short, these two are dozer bait. The value here is in the land. Demolition of these structures will be REQUIRED as a condition of sale, and no deed will be issued without posting a cash performance bond in the amount of \$100,000 to assure this takes place. If the bond is not posted to the satisfaction of the seller, the sale will be canceled without refund, and no deed will be issued. Additional Disclosures: 64; 36 (see key for full text) (2 of 2) Parcel ID: 32-221-705-07; Legal Description: VILLAGE OF BEAR LAKE PT LOT 5 COM 29.5FT, N OF SW COR, N 28.5FT, E 66FT, S 28.5FT, W 66FT TO POB. BLK C Comments: This is an older, wood frame, 2 story retail building in Bear Lake. It would require a complete rehab of mechanical systems and resurfacing inside to make it functional again. It appears to be structurally solid, but will require investment to use for anything much beyond cold storage. The roof appeared to be generally sound and it is vinyl sided. 3919	Parcel ID: 32-221-716-09; Legal Description: VILLAGE OF BEAR LAKE S 40FT LOT 15 BLOCK H Comments: Older 2 story home in Bear Lake. Roof has been leaking for a looooooong time, and it has all been funneled inside where it is now festering. Its so wet in here that even the mold moved out. This one is roached and should be demolished. There IS however an upside to this one, in the form of a shop building to the rear of the property. Bear Lake village is not zoned, so this building has the potential for commercial use. It was previously a print shop, however the site needs grading as it is clear that it has seen its fair share of water breaching the front door and soaking the floors inside. The shop space has a separate electric service. Demo the house, and the front yard could become parking. The home is a goner, but the shop space warrants your attention. 3928	<p>Parcel ID: 51-748-710-11; Legal Description: FREELAND E 1/2 OF LOT 6 BLOCK 6</p> <p>Comments: This one has been through several attempts at modernization. We've sold it a couple times before, and each purchaser makes a few changes before we see it again. It is presently laid out to be a duplex, but she is really, really rough. There is much deferred maintenance here. Soffits and eaves are missing boards and there is a lot of decay. The power service line has been dropped, so this will require that electric service be bought to code prior to it being restored. This could probably be saved if someone was truly intent on it, but it is likely beyond reasonable economic logic to do so.</p> <p>Summer Tax Due: \$317.11</p>	180 SEVENTH ST MANISTEE	\$100.00

4300	<p>Parcel ID: 003-150-039-00; Legal Description: . SEC 5 T22N R5W LOTS 39 & 40 BERT MERRITT'S FIRST ADD. Comments: Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$25,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. Nestled among pine tress, on a neighborhood street in Merritt, this home features 3 bedrooms, 1 bath, and half bath off the master. The galley kitchen includes a stainless steal dishwasher, and single pane windows overlooking the property backing up to standing water swamp, although beautiful, makes the ground soil soft. Hill in backyard may indicate a raised septic system, although may not function. Garage converted to living space boasts a sliding glass door that opens up to a fire pit in the back yard! Flooded crawl space with standing water, looks to be causing issues with foundation and wall structures. Modular home or ranch with floors sinking in from kitchen to living room. Home looks to to have older 3 tab, improperly laid, shingles with major leaks and aluminum siding. 4513	Parcel ID: 004-270-000-024-00; Legal Description: T31N R4E SEC 4 LOT 24 NORTH SHORE DR ASSESSORS PLAT Comments: This parcel is roughly 2/3 acre in size. About 100' wide and 300' deep. It is situated offroad, between a parcel at 21320 North Shore Road (which contains a home) and a vacant parcel to the north on County Road 459. There is no apparent improved access to this parcel from North Shore Drive, but we did find a two track that comes in to the property north and east of here from CR 459. The two track becomes too narrow for a vehicle several hundred feet before it reaches our sale parcel so we did not pursue it further, but you can likely walk in. There IS a 10' wide deeded easement alongside (to the west) of the home on North Shore Drive, but the easement has never been cleared. The property is rolling and wooded, and would offer a dry, buildable spot. Additional Disclosures: 8 (see key for full text) Summer Tax Due: \$159.46	(Behind) 21320 North Shore Drive	\$100.00

Comments: Triple lot bundle in located on Mackinac Avenue, north and west of the intersection with Center Street. Comments: NOTE: The purchaser will be required to furnish a personal guarantee and cash performance bond in the amount of \$100,000.00 to assure ability to perform any required clean up or repairs that may be necessary after purchase. Evidence of the posting of a CASH PERFORMANCE BOND or equivalent surety, shall be presented to the Seller or its designee for acceptance within 5 days of the auction. The seller has the unilateral right to accept, reject or require modification to the proposed instrument. If an acceptable bond or surety is not presented within the period, the sale shall be canceled for non-performance without refund. The purchaser has NO RIGHT TO POSSESSION or entry upon the property until the issuance and recording of the deed. Older 2 story home. This is a stalled rehab project that is incomplete. It appears that this was used as a duplex, and the conversion effort was amateur. There is a lot still to be done here, but the "bones" appear to be straight and solid. The side porch on the main floor has a bad roof, but it has not seriously impacted the rest of the structure "yet". The mechanicals here are incomplete and dated, tho there is a newer natural gas forced air furnace on the main level. This house is generally straight and solid, it's just in need of a complete strip out and re-do. Are you up for the challenge ? Additional Disclosures: 50 (see key for full text)</p> <p>(2 of 5) Parcel ID: 051-402-006-00; Legal Description: LOT 6 BLK 2 OF RIVERSIDE ADD TO CITY OF MANISTIQUE. Comments: This one still contains substantial personal property belonging to the last owner. We did not have the opportunity to view it in detail. It is an older frame structure with newer steel roof. This building is subject to demolition if a grant, which has been applied for, is funded. Please keep in mind that the seller reserves the right to demolish this structure. If it is your intention to purchase it for rehabilitation, we'd suggest that you discuss this with the treasurers office BEFORE bidding. Additional Disclosures: 21; 64; 33 (see key for full text)</p> <p>(3 of 5) Parcel ID: 051-405-004-00; Legal Description: LOT 4 BLK 5 OF RIVERSIDE ADD TO CITY OF MANISTIQUE EXC A STRIP 10' WIDE OFF S SIDE. Comments: Older 1.5 story home in Manistique on a 56' x 171.5' deep lot on Delta Avenue. The home is grubby and cosmetically challenged, but generally straight and sound. There are two bedrooms and a third storage type room that could be a child bedroom but has no window to meet egress code. The roof is older, but we saw no evidence of leaks. Has a newer furnace and water heater, but the electric service is as old as George Burns. This would be a good project for someone that is interested in an interior and exterior resurfacing project with "good bones". Insulated walls. Could use new siding and roof, tho what is here is serviceable. We did not see an entrance to the crawlspace.</p> <p>(4 of 5) Parcel ID: 051-406-002-00; Legal Description: LOT 2 BLK 6 OF RIVERSIDE ADD. Comments: Home needs an interior and exterior rehab and resurface. The roof and foundation here are both sketchy, but neither have transmitted those weaknesses to the interior, "yet". There is a lot of rot in the eaves and soffits that has probably crept inward to the roof system. The hardwood floor is buckled, a sign of either moisture or frequently of frozen plumbing. It is missing its front porch, and the second floor is only partially completed. This home is on a list of those to potentially be demolished with grant funds that have been applied for. The seller reserves the right to demo this home whether or not it is sold. If you have interest in purchasing this home for rehab, we STRONGLY suggest that you contact the office of the County Treasurer in Manistique prior to bidding to work out details and spare it from the wrecking ball. Comments: This one has been a frequent flyer several times over the years. This time we've put it on a special list of properties to be demolished, assuming the grant application is funded. The home is boarded and needs everything. A foundation, roof, all the mechanicals (has a newer electric service, but the innards are incomplete) ... inside ... outside it needs everything. It probably needs a bulldozer the most of all. If you have interest in rehabbing this property, please remember that the seller is reserving the right to demolish it whether or not the grant is funded. So please contact the County Treasurers office BEFORE you bid if you have a hankering to make Weston Avenue your new address. The value here is probably in the 65x175 foot lot. The home sits on a sloping hillside and much of it's block/potentially crawl foundation is exposed. Home is 2 bedrooms and two porch additions off the side that look to have been converted to extra rooms. Home has no bathrooms as they are in disarray. Most of the home is in disarray, but it has some very neat aspects that could be worked with like original doors, high baseboards, and vaulted ceilings. Home looks to have had a rear sun porch addition built with hinged shed doors, allowing for storage underneath walk out area. Staircase is not up to code, lots of plaster damage, peeling lead based paint, sagging floors, and door off of kitchen opens to a cliff, just a drop. Home needs to be completely remodeled. Home is barely visible and only accessible from the alley through the thick brush. To access the front door, you have to trusspass through neighboring lot. Neighboring home to the back of property looks to be well kept. This home is located a short walking distance from downtown Cadillac. Home was also updated with aluminum trim and older 2 tab shingles. Older electric supply looks to have had it's meter removed. windows look to be single pane wood. Foliage starting to over grow home. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. The site of a former gym location, this building may be slighted to be torn down by Wexford county. Original part of building looks to have been built around the start of the 20th century, then later an added back addition updated in the 70's Manzar style metal roof, and T111 siding. Later the large windows, still with original headers, were downsized with brick. These may still have the potential to be reopened to original size. Some sections of cinder block building have stair step cracks and shifting walls. Building looks to have been on fire at one point. However, it was renovated afterwards. Water leaks in the flat room are causing decay in the interior and flooding in the basement located under the older section of the building. The newer addition looks to have been built on a slab foundation. Building was last fitted as a gym with private tanning rooms, his and her locker rooms with showers, and concession stand. Additional Disclosures Key

5: One or more buildings on this parcel has a roof which is either leaking to the interior or appears close to failure. Failing roofs often indicate substantial structural decay inside the building. You should investigate the integrity of this structure(s) prior to bidding.

6: This property is **occupied**. Please respect the privacy of current occupants and limit any inspection to what can be **safely observed from the road**. Some occupants may be upset or angry and may meet contact with aggression or violence. **Please use discretion and caution when researching this or other occupied properties**. Furthermore, although this property has been foreclosed for unpaid taxes, occupants have certain rights under Michigan law and must be formally evicted if unwilling to leave voluntarily. You may wish to consult a licensed attorney for more information.

7: This parcel does not front on a public or privately deeded improved road. Often times there are easements in the recorded chain-of-title that provide legal access to such parcels but other times there are not. You should thoroughly research this parcel's access rights prior to bidding. It can require expensive, complicated, and time consuming legal proceedings to secure legal access to landlocked parcels that do not have easements for ingress and egress.

8: The roads which are shown on plat or tax maps for this parcel do not appear to exist or may be located in a different location than shown on such maps. While a legal right to build such roads may remain, this construction would likely be very expensive. However, in some instances these unimproved roads have been vacated or abandoned by action of the local government and no such right to construct the roads remains. Issues surrounding unimproved roads can be complicated and expensive to resolve. You should investigate the existence of any roads and the ability to access this parcel thoroughly before bidding.

9: This parcel is too small to be practically useful under most circumstances. Many times such parcels are the result of survey or property transfer errors which create small orphaned slivers of land. These parcels are frequently too small to allow construction or any other practical use. They often have no road frontage or legal means of access. These parcels can often lead to **adverse claims or encroachments by neighboring land owners** which can be complicated legal issues to resolve. Please investigate this parcel thoroughly prior to bidding.

10: This parcel has surface water, soil, or vegetation conditions indicating that it may include wetland habitat. Such habitat may comprise all or part of the parcel's area. However, it is possible that this parcel contains buildable areas as well. There are many environmental and building regulations related to wetlands which you should consult before bidding on this parcel. The Michigan Department of Environment, Great Lakes, and Energy maintains a Wetland Map Viewer which provides easy access to wetland data and can be found [here](#). It is your responsibility to determine if this parcel is suitable for your desired use.

11: This parcel includes structures which have been damaged by fire. It is up to the auction purchaser to determine if this property can be restored to a safe condition and to comply with all relevant local regulations and building codes. Please research thoroughly prior to bidding.

12: This parcel may contain buried storage tanks from previous use as a gas station or similar enterprise. Our analysis is based **solely on visual inspection** of the property surface as further detailed in the lot description. The State of Michigan may require a new owner to remove any remaining tanks and remediate environmental concerns at their sole expense. Additional information about underground storage tanks is available from the State of Michigan [here](#). The Michigan Department of Environment, Great Lakes, and Energy also maintains an interactive mapping tool which tracks known environmental contamination sites and can be accessed [here](#). Please note that this tool only reflects sites which are currently known to the state and may not definitely indicate the absence of buried tanks on this parcel. You should conduct careful and thorough research prior to bidding on this parcel.

13: A visual inspection of this parcel indicates **potential environmental contamination**. Visual indicators can include things like used tires, dirty soils, or chemically intensive former uses such as dry cleaning. Prospective bidders should carefully research the condition of this property prior to bidding. You may want to contact the Michigan Department of Environment, Great Lakes, and Energy (EGLE) or other relevant state agencies for additional guidance. EGLE maintains an interactive mapping tool which tracks known environmental contamination sites and can be accessed [here](#). Please note that this tool only reflects sites which are currently known to the state and may not definitely indicate the absence of contamination on this parcel. Purchasers are strongly advised to obtain a **Baseline Environmental Assessment (BEA)**. Some basic information about BEAs can be found [here](#). All sales are made as/is where/is without any representations or warranties. It is the sole responsibility of the purchaser to identify and appropriately handle any environmental contamination that may exist. Please do all necessary research before the auction.

15: This lot is part of a condominium development. A condominium is a form of land ownership which is divided up into individual "units." Owners are required to be part of the applicable condominium association (COA) which includes rules and regulations related to the use and ownership of each unit. Additional restrictions will be spelled out in the development's **master deed**. Condominiums also **include association fees** which can be significant. Some condominium units delegate things like exterior maintenance and repair to the COA whereas the owner remains responsible for the unit's interior. However, there are many varieties of condominiums including residential and commercial interior space, condo subdivision lots, condo boat slips, condo campsites and others. Prospective bidders should **carefully review and understand the master deed, COA rules and regulations, and investigate association fees prior to bidding**.

16: This parcel is likely subject to ASSOCIATION FEES which are assessed to cover maintenance and other costs associated with the development in which the parcel is located. Interested parties should verify the existence and extent of association fees and costs prior to bidding.

17: Mobile homes (and some modular homes) can be separately titled and considered personal property. In these

instances, there may be third parties that have the legal right to remove that mobile home from the parcel whether or not it has been assessed as part of the property in the past. We make no representations or warranties as to whether such mobile or modular homes are included with the real property offered for sale. It is the buyer's responsibility to conduct their own research as to the state of title. As a preliminary step, it may be useful to determine if an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in [MCL 125.2330i](#). You may wish to consult a licensed attorney or title company to assist in this research.

18: The building on this property appears to have been used for multi-family occupancy in the past based upon indicators such as multiple mailboxes, entrances, numbering, layout, or other such factors. Modifications to the property may NOT have been legally made and may NOT conform to local zoning. Prospective bidders should verify with local officials that multi-family use is permitted under existing zoning. In many areas, once a multi-family use has been discontinued, it cannot be reinstated unless in conformance with local zoning and code.

21: This parcel appears to contain "personal property" that may be of value. Property tax foreclosure affects **only "real property."** In general, real property includes the land and those things physically attached to it. ***This sale includes only such real property.*** However, some parcels also contain personal property such as cars, furniture, clothing, and other things which aren't physically attached to the land. Such ***personal property is not included as part of this sale.*** It is strongly suggested that the purchaser of this parcel contact the former owner and provide them the opportunity to remove this personal property before disposing of it. Minimum reasonable steps could include sending a letter by certified and first class mail to the former owner at their last known address. However, it is the responsibility of the winning bidder to determine what personal property is present on the parcel and the appropriate measures for handling such personal property.

22: This parcel has substantial structural issues caused by poor design, insufficient maintenance, or both. Such buildings may be subject to condemnation orders which we were unable to locate during our inspection. All such buildings should be brought into compliance with local building regulations prior to use. We ***strongly*** recommend that you contact the local building code official and consider consulting a competent structural engineer to assess the condition of this property before bidding.

23: This parcel is located within a municipality which monitors property maintenance and condition. You may be assessed fees and fines if you fail to mow the grass or do not otherwise properly maintain the property after purchase. One advantage to these parcels is that they typically have infrastructure nearby (water, sewer, power). However, you should confirm the availability of such utilities as well as the connection costs prior to bidding. It is your responsibility to determine whether a parcel is suitable for your desired purpose.

26: This parcel appears to be located within a flood plain based upon our visual inspection. However, this has not been verified through additional research. You should be aware of the possibility for flooding and should consult available groundwater and flood data prior to bidding.

30: This parcel may be subject to utility, road, driveway right-of-way, or other easements which could allow third parties access to the property. Easements are not extinguished by tax foreclosure and foreclosed parcels are sold subject to these preexisting rights, if any. You should conduct your own investigation into the existence of any such easements prior to bidding.

31: This parcel has been posted as "Condemned" by the local building authority. Properties are generally condemned when they are deemed substandard, unsafe, or otherwise unfit for use and habitation. Condemned property ***must*** be rehabilitated to meet local building codes ***prior to use or occupancy.*** A building is not automatically slated for demolition when condemned. However, this does not necessarily mean that demolition will not also be pursued by the local unit. Please check with the local building official before bidding to determine the specific status and requirements for this property.

32: This building contains evidence of ***mold.*** Mold is an indication of excess moisture which can come from a variety of sources including high ground water, improper sealing of foundation walls, damaged roofs, and other conditions which can be expensive to correct. Mold can pose significant health risks and, if extensive, may require a complete renovation which could exceed the value of the building. Please conduct your own research and bid accordingly.

33: The interior of this property was not viewed during our inspection. Buildings which are dangerous, occupied, boarded, condemned, or otherwise difficult to enter are inspected from the exterior/curbside only. You are NOT authorized to enter these or any other buildings offered for sale. You should limit your inspection to that which can be made safely from the building's exterior.

34: The foundation of one or more buildings located on this parcel appears to be failing. Correcting foundation issues can be very expensive and issues are often more complex than they initially appear. You should research this issue thoroughly prior to bidding on this parcel.

35: This property contains physical indications that one or more water lines have frozen, ruptured, and leaked for a significant period of time prior to being shut off. Such indications can include damage to ceilings and floors and visibly damaged pipes and fixtures. Damage from freeze bursts can be substantial including significant harm to structural components such as framing and foundations.

36: This parcel includes a structure which should be considered ***DANGEROUS.*** This building has suffered structural damage which creates substantial risk of harm from falling through damaged areas or collapse from above. It may also contain extensive debris which could fall or collapse, rusty nails, broken glass, and other hazards. ***You are not permitted to enter this or any other structure offered at tax sale. You should limit your inspection only to what can be safely observed from the building's exterior.*** Trespassers are subject to prosecution.

38: This parcel contains visible evidence of a potential boundary issue. Such evidence can include oddly located "survey" stakes, fence lines, or other markers. In some instances, we may hear of boundary line conflicts from neighbors or other

such parties. This information can be second or third-hand. Any potential boundary issues have not been verified by survey or otherwise researched. This property is being sold "as is/where is" by quit claim deed based upon the **assessed legal description only**. Interested parties should investigate the true location of all boundaries prior to bidding.

39: This parcel appears that it may be subject to encroachments or may encroach on neighboring property. This assessment is based upon our visual inspection. Not everyone is a surveyor and sometimes buildings, roads, septic systems, wells, or other improvements are built across property lines and may lie partially or wholly upon neighboring parcels. Please consider a survey and conduct thorough research before bidding on this parcel. All property is sold "as-is, where-is" without warranty based upon the assessed legal description.

41: This parcel has surface water, soil, or vegetation conditions indicating that it may include wetland habitat. Such habitat may comprise all or part of the parcel's area. However, it is possible that this parcel contains buildable areas as well. There are many environmental and building regulations related to wetlands which you should consult before bidding on this parcel. The Michigan Department of Environment, Great Lakes, and Energy maintains a Wetland Map Viewer which provides easy access to wetland data and can be found [here](#). It is your responsibility to determine if this parcel is suitable for your desired use.

42: Our review of this parcel indicates that the noted State Equalized Value (SEV) does not appear to reflect the current value of the property. This is often due to buildings or other improvements being demolished or fire damaged or other similar items included in the SEV being removed from the property. It can also be due to market changes in the area in which the property is located. It should be further noted that the SEV/assessed value of the parcel as noted in this listing may be several years old. You should consult a local real estate professional or appraiser to help you assess the current market value of this property before bidding and **should not base your valuation on the stated SEV**.

43: Our visual inspection indicated that electrical service was not available on or near this parcel. The nearest electric service appeared to be a considerable distance (hundreds or perhaps thousands of feet) from the property. As such, electrifying this parcel could be costly. Please conduct your own research prior to bidding.

44: This property appears as if it may be a side-yard parcel. Frequently homes are located on one parcel and the associated back or side-yard is located on a separate adjacent parcel. These side-yards are sometimes foreclosed while the home is not. This can create unfortunate situations where fenced boundaries, septic tanks, out buildings, garages, and other improvements that were previously associated with the home next door are sold on their own. Such parcels may have value to the adjacent owners but often have little to no value on their own. You should investigate this parcel carefully and understand what you are purchasing before you bid.

46: One or more structures was boarded when we conducted our assessment of this parcel. Properties may be boarded for a variety of reasons. For example, properties are often boarded to prevent trespassers from harvesting copper plumbing, wiring, and other fixtures. Buildings may also be boarded by fire or other officials when they present a safety hazard. We generally do not enter boarded structures and limit our observations to the building's exterior. Likewise, you should limit any inspection of this property to its exterior **only**. You are not permitted to remove any boarding to view building interiors under any circumstances. Public property records or polite inquiries to neighbors may reveal additional information about a property's history.

47: This property has been subject to vandalism by former occupants or other parties. Typical damage includes broken windows, holes in walls, broken doors and doorjambs, and other damage which can add to the cost of repair and rehabilitation. You should conduct your own research prior to bidding on this parcel.

48: This parcel appears to have been subject to harvesting of electrical, plumbing, mechanical systems, or other building components. Buildings are sometimes targeted by criminals that steal or "harvest" items such as copper plumbing, wiring, furnaces, water heaters, fixtures, hardwood flooring, etc. This building should be considered incomplete due to such harvesting and may require substantial investment to reequip.

49: This parcel appears to have challenging terrain. Challenging terrain can include steep hillsides, ravines, gullies, or similar topographical features as well as little to no buildable area. Such parcels often have no practical use. You should investigate this parcel's terrain and suitability for your desired purpose prior to bidding.

50: The previous owner of this parcel undertook a construction or rehabilitation project which has not been completed. We have attempted to describe the degree to which the project has been finished, but the building should be be considered incomplete nonetheless. The local building code enforcement official may be able to offer additional insight as to why the project was never completed.

52: This parcel is what we refer to as a 33'/66'. We frequently see foreclosed parcels that are either 33 or 66 feet wide. These parcels are often a result of existing or former road rights of way. A common road right of way is 66 feet wide. Half of that is 33 feet. There are two common scenarios that we see. **Scenario 1:** A land owner splits a tract of land and creates a common easement parcel for access. They might then quit paying taxes on the parcel with road frontage knowing that the easement would remain even after foreclosure. Such easements are generally either 33 or 66 feet wide. **Scenario 2:** Rural land generally runs to the *center* of any public road on which it fronts whereas subdivided land usually runs to the *edge* of the road right-of-way. Sometimes during surveys or other splits, half of the right-of-way (usually 33 feet) can become orphaned, effectively turning to no-man's-land. Potential bidders should be aware that 33 and 66 foot wide parcels are **very likely to include easements**. That means that there are people who have a *right to use the property* even though they do not own the land. It is unlawful to cut off access over a 33 or 66 foot parcel where an easement already exists. Even if an easement doesn't already exist, courts will frequently create such an easement to prevent a neighboring parcel from becoming landlocked. Potential bidders should consider that this parcel likely has little value and cannot be used to landlock a neighboring parcel when there is no other path for ingress and egress.

62: This parcel appears to include an area where a mobile home was previously located. Such mobile home pads will frequently include well/water and septic/sewer connections as well as power hookups. However, local zoning regulations

may prohibit placing a new mobile home on this site despite the fact that one was previously located here. Please check local zoning regulations carefully prior to bidding. We make no representations or warranties as to the suitability of this parcel for any purpose.

63: Pet and/or wild animal waste was observed within this property. Potential bidders should consider that urine stains/odors can be difficult to remove from porous surfaces such as wood floors or underlayment.

64: The structure(s) on this parcel have been slated for **demolition** by the local unit of government prior to sale. As such, it is being presented here as a vacant lot. You should confirm the status of this parcel as well as the allocation of the cost of demolition prior to bidding.

66: This property is unsanitary and poses a potential health hazard because of raw food garbage, backed up sewer lines, or other similar waste. Such conditions can attract rodents, wild animals, and other vermin. You should bid accordingly and be prepared to mitigate the situation immediately upon purchase.

68: This parcel is part of a site condominium development. A condominium "unit" is a form of land ownership which is similar to a traditional subdivision "lot" but is also different in some important respects. Each condominium development is laid out in a document called the **master deed** which outlines the extent and nature of each condominium unit. The master deed also contains rules and restrictions related to construction and permitted use. Construction requirements can include everything from the size or design of buildings to color and orientation on the site. Condominium developments also include "common elements" like streets and sidewalks which are shared across all units. Some developments include amenities like golf courses, clubhouses, beaches, pools, and parks whereas others include only basic infrastructure like roads and sidewalks. Site condominiums also **include association fees** which can be significant. Prospective bidders should **carefully review and understand the master deed and investigate association fees prior to bidding**.
