There are two ways to bid in our auctions:

ONLINE AT WWW.TAX-SALE.INFO

-or-

ABSENTEE BID

(For those who have *no* computer access. Please call for assistance)

For **registered users**, our website features:

- **Photos** and detailed descriptions of properties (where available)
- **GPS/GIS** location of the property
- **Maps** of the property vicinity (where available)
- **Google Maps links** to satellite images of the area and street views of the property and neighborhood (where available)
- **Save properties** to your personalized “favorites” list
- **Personalized Auction Feed** with live updates on parcels in which you have placed a bid(s)

We have a short window to review several thousand parcels prior to listing them on our website. We began inspecting properties in May and release catalogs county by county as they become available. Please be patient and **check back often** for updates. Parcels are sold "as is" based on the assessed legal description only. All other information in this salebook or listed on our website, though reliable to the best of our knowledge, is provided as unverified reference and is not guaranteed to be accurate. You should verify this information with your own research and investigation prior to bidding.

Visiting and viewing property BEFORE auction:

The auction list furnished in this salebook contains property that *may* be offered. Please keep checking the catalog on our website as the auction date approaches as some parcels may be removed from the list for a variety of reasons.

You are NOT AUTHORIZED to enter any buildings, even if they are unlocked or open to access. Entering a tax auction property to “see it” is considered breaking and entering (a criminal offense). Please limit your review to looking through the windows and other external inspections. We will post exterior and interior photos on the website and provide other commentary whenever possible.

Entering properties (even vacant land) can be dangerous due to unknown conditions of structures and land. **You assume all liability for injuries and other damage** if you choose to visit these lands.

Properties may be occupied or “being watched” by former owners or neighbors sympathetic with former owners. Occupants are often unknown and could potentially be volatile, unstable or “anti- government” persons. Even vacant land presents potential for conflict.

Some properties still contain the personal property of former owners (including vehicles, furnishings, appliances etc). These items are not sold at our auctions. We are only selling the real estate (land) and whatever is attached to it (buildings and other permanent fixtures).

- **You are not authorized to remove ANY “personal” property, “scrap” metal or fixtures from auction parcels. This is considered theft and will be prosecuted.** We often ask neighbors to watch property for theft and vandalism and report this to local police.
- **Property is sold “as-is” in every respect.** Please check zoning, building code violation records, property boundaries, condition of buildings and all local records available to the public.
- **There are no refunds and no sale cancellation at the buyer’s request.**
- **Information offered on the website or in the salebook is deemed reliable but is not guaranteed.** We suggest reviewing the records of the local assessor’s office to be sure that what we are selling is what you think it is. **We sell by the legal description only.**
- **You should consider obtaining professional assistance** from land surveyors, property inspection companies or others if you have questions about property attributes.

PLEASE REMEMBER that property lists can change up to the day-of-auction.

Paying for your Auction Purchases

- **The full purchase price must be paid in full within 5 business days of the sale.** No purchases can be made on a time-payment plan.
- No cash or personal checks will be accepted.
- All payments must be made with a **Credit/Debit Card, Wire Transfer, or by certified (cashier's) check.**
- Your sale is not complete until we've received both your payment and your notarized receipt and buyer's affidavit paperwork. This is also due 5 business days from the date of the sale.
- When mailing in your paperwork (especially with a certified check), please use a trackable service like Priority Mail, FedEx, or UPS to ensure timely, verified delivery.

Bidding Authorization

- Online and absentee bidding requires a **\$1,000 pre-authorization hold** on a Visa, MasterCard, or Discover credit card before any bids will be accepted. Alternatively, bidders can mail in a \$1,000 certified funds deposit if a credit card is unavailable. A buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.
 - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

Absentee bidding

- If you do not have internet access, **you can submit an absentee bid by calling us.** You will still need to pre-authorize a \$1000 deposit on a major credit card (or mail in a \$1000 certified check deposit). Contact us at 1-800-259-7470 for more information.
 - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

Rules and Regulations

1. Registration

You must create an online user account at www.tax-sale.info in order to bid at an auction. You should create such an account no less than 48 hours prior to the auction in which you wish to participate to ensure that your account is active and authorized in time to bid. Before any bids will be accepted, you must also provide a deposit by authorizing a \$1000 pre-authorization on a Visa, MasterCard, or Discover credit card or by tendering \$1,000 in certified funds to the Auctioneer.

2. Properties Offered

A. Overview

"Foreclosing Governmental Unit" ("FGU") is a term used by the Michigan tax foreclosure statute and is typically the office of the County Treasurer in the county where the offered property is located. However, in some instances the FGU is the State of Michigan Department of Treasury.

Unless otherwise noted, the "Seller" is the County Treasurer, acting as the "FGU". The Auctioneer is Title Check, LLC acting as the authorized agent of the Seller/FGU.

The attached list of parcels has been approved for sale at public auction and each is identified by a sale unit number. The Seller reserves the right to pull parcels from the sale at any time prior to the auction.

According to state statutes, **ALL PRIOR** liens (other than certain DEQ liens and other limited exceptions), encumbrances and taxes **are cancelled** by Circuit Court Order. The FGU has attempted to include in the minimum bid, liens that have accrued since foreclosure, such as nuisance or water bills; **all other outstanding bills since foreclosure are the responsibility of the buyer**. These properties are subject to any state, county, or local zoning or building ordinances. The FGU does not guarantee the usability or access to any of these lands.

B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to do THEIR OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The FGU and the Auctioneer make no warranty, guaranty, or representation of any kind concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition regarding any parcel offered for sale.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the FGU. Some structures may be occupied and occupants should not be disturbed.

C. Reservations

At the sole option of the FGU, a reverter clause may be included in any deed issued to a winning bidder which prohibits the future severing of mineral rights (if any) and/or splitting/subdividing any purchased property into smaller parcels which do not meet local zoning rules or otherwise comply with applicable regulations relating to the splitting of property. If such a reverter clause is included, a violation thereof will result the property reverting to the FGU without refund.

Pursuant to state statutes, where the State of Michigan Department of Treasury is acting as Seller/FGU, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the State may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the State does not reserve mineral rights as described above, the State may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

3. Bidding

A. Overview

Live Bidding Auctions:

First round minimum bid auctions, unless otherwise specifically noted, include live bidding. Bidding at live bidding auctions is divided into two phases:

i. Advance Bidding

Advance Bidding begins **thirty days before the posted auction start time**. During Advance Bidding, you can place and modify bids in any way that you see fit. You can increase, decrease, or delete bids entirely during Advance Bidding. You will be able to see your maximum bid but will not be able to see the current high bid price or what other users have bid during this time. Advance bidding **ends at the designated start time which is listed for the applicable auction** and the Active Bidding phase then begins.

ii. Active Bidding

Active Bidding begins **at the designated start time which is listed for the applicable auction and continues until the designated end time**. Active Bidding is the interactive phase of the auction process. During active Bidding, you will be able to see the current high bid price and whether or not you are the high bidder. You will also be able to see whether you have been outbid. During active Bidding you can place new bids or increase bids **but cannot delete or decrease your bid amount**. When making a bid during Active Bidding, you are committing to pay up to your maximum bid amount so bid carefully and accordingly. Active Bidding **concludes at the designated end time which is listed for the applicable auction. All bidding ends promptly at the listed end time for the applicable auction**. Bidding *is not* extended beyond the listed end time regardless of bidding activity.

All bids placed during Advance and Active bidding are maximum bids. The auction system will automatically bid on your behalf up to your maximum bid amount as applicable based upon competition from other bidders. Bidding activity can be very high during the final minutes of the auction. Entering your maximum bid and allowing the system to bid up to that maximum, as opposed to manually bidding one increment at a time, helps ensure that you aren't outbid in the final moments of the sale simply because you were unable to manually enter an additional bid before time expires.

After the listed end time passes, the sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid.

Sealed Bid Auctions:

Second round no-minimum sales, unless otherwise specifically noted, are conducted by sealed bid. Bidding at sealed bid auctions opens approximately thirty days before the final bidding deadline. While bidding is open, you can place and modify bids in any way that you see fit. You can increase, decrease, or delete bids entirely during this time. **Your best and final bid must be entered prior to the posted final bidding deadline at which point bidding CLOSES and all bids are locked**. You can see your own bids while bidding is open but the current high bid price is not visible. **Once the posted bidding deadline passes, final winning bids are calculated and awarded by the award date posted for the auction in question**. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid. All bids placed at sealed bid auctions are maximum bids. The auction system will automatically bid on your behalf up to your maximum bid amount at the time final winning bids are calculated as applicable based upon competition from other bidders.

B. Starting Bid Price

The starting bid prices are shown on the online lot description page for each sale unit as well as on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the FGU.

However, any person who held an interest in a property offered for sale at the time a judgment of foreclosure was entered against such property **must pay at least minimum bid** for such property even if purchased at a no-minimum auction.

C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

D. Eligible Bidders

Any person who meets the following requirements may register as a bidder:

- The person does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the FGU from participation in the public sale and is not acting on behalf of another who has been banned or excluded.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

E. Absentee Bidding

Prospective bidders who do not have internet access or who are otherwise unable to bid on their own may bid by Absentee bid. Absentee bidders must meet all eligibility and other requirements of these Rules and Regulations. Absentee bids will be accepted in increments up to the amount pre-approved by the absentee bidder. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470.

F. Auction Location

Auctions are conducted online through www.tax-sale.info. An auction may be conducted in-person with simultaneous online bidding as determined by the FGU.

G. Bids are Binding

A bid accepted at public auction through www.tax-sale.info is a legal and binding contract to purchase. The FGU reserves the right to reject any or all bids.

H. Limitations on Bidding

The FGU and Auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group of bidders for any reason.

I. Attempts to Bypass These Rules and Regulations

The FGU and Auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

4. Terms of Sale

A. Payment

- **The full purchase price must be paid in full WITHIN 5 BUSINESS DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
- If a buyer fails to consummate a purchase for any reason, their sale will be cancelled and the buyer will be assessed liquidated damages in the amount of \$1000 for breach of contract. Seller may collect this liquidated damages assessment from any funds tendered by buyer prior to cancellation and may collect any remaining unpaid liquidated damages assessment using the deposit described in paragraph 1 above.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. ***Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.***

B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

C. Dishonored Payment

A buyer whose payment is dishonored for any reason will have their sale cancelled and will be assessed liquidated damages in the amount of \$1000. Seller may retain any portion of the purchase price which was tendered and not dishonored up to \$1000 to apply toward such liquidated damages assessment. Seller may collect any remaining unpaid liquidated damages assessment using the deposit described in paragraph 1 above.

Furthermore, the FGU may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.

Any buyer who fails to consummate a purchase for any reason will be banned from bidding at all future land auctions.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/ in the local tax collection unit in which the purchased property is located.

- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.
- iv. The party has not been banned or otherwise excluded by the FGU from participation in the public sale and is not owned or controlled by a person or entity that has been banned or excluded.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The FGU **will not issue a deed** and the sale will be canceled if the buyer or any party that the buyer seeks to list on the deed does not meet the eligibility requirements outlined in this section at the time the buyer's bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the FGU is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will be banned from participating at all future land auctions and the **buyer will be assessed liquidated damages in the amount of \$1000**. Seller may collect this liquidated damages assessment from any funds tendered by buyer prior to cancellation and may collect any remaining unpaid liquidated damages assessment using the deposit described in paragraph 1 above. Furthermore, the FGU may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

E. Sale to Entities

In order to ensure that individuals do not utilize legal entities to circumvent the sale and ownership restrictions contained in MCL 211.78m(2), the FGU will only sell property to legal entities under certain circumstances. Any buyer desiring to deed a purchased property to a legal entity must disclose the name and address of all officers, shareholders, partners, members, or other parties, regardless of title, who own any portion of that entity. However, such disclosure will not be required if one or more of the following exceptions are applicable:

- The Entity held a prior recorded interest in each purchased property.
- The Entity is a division, agency, or instrumentality of federal, state, or local government.
- The Entity is a Homeowners Association, Condo Association, or other such organization that exercises control over each purchased property.
- The Entity is a publicly traded company listed on a national securities exchange.
- The Entity is a nonprofit corporation and is qualified as tax exempt under IRC §501.

At the time payment is tendered after the auction, any buyer desiring to deed a purchased property to a legal entity will be required to execute an affidavit affirming, **under penalty of perjury**, that the entity is exempt from disclosure under one of the five exceptions listed above, or in the event that no exception is applicable, the names and addresses of all parties owning any portion of that legal entity.

F. Cancellation Policy

Prior to the issuance of a deed, the FGU has the right, in its sole discretion, to cancel any sale for any of the following reasons: transfer of the property at issue is stayed or enjoined by a court of competent jurisdiction; any of the reasons outlined in MCL 211.78m(9); the property at issue becomes the subject of litigation; a defect is discovered in the underlying foreclosure or sale procedures relating to the property at issue; any other reason authorized under these Rules and Regulations.

G. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, a **penalty of \$5/day (maximum \$200) applies**. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases during the checkout process. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as received by the FGU through tax foreclosure**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The FGU makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the FGU**. The buyer may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

7. Special Assessments

Special assessment installments through the most recent prior tax year are included in the starting bids. Seller has attempted to identify those parcels subject to special assessments with a note on the parcel detail page. Parcels sold are subject to property taxes for the entire current tax year, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

8. Possession of Property

A. Possession Pending Deed Delivery

It is recommended that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the Foreclosing Governmental Unit exercises their right to cancel the sale. Until the buyer pays for all purchases in full and receives a deed, no activities should be conducted

on the site other than:

I. Securing the Property

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property.** Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property.**

II. Assessing Potential Contamination

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at <https://www.michigan.gov/egle/about/organization/remediation-and-redevelopment/baseline-environmental-assessments>

B. Occupied Property

Buyers will be responsible for all procedures and legal requirements for conducting evictions. Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance. Buyers may not commence eviction proceedings until a deed to the applicable occupied property has been issued by the FGU.

9. Additional Conditions

The buyer accepts the premises in its present "as is" condition, and releases the Foreclosing Governmental Unit and employees and agents including the Auctioneer from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the Foreclosing Governmental Unit recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

10. Deeds

A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the FGU and deeds will be executed and recorded as required by law. The FGU will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.

B. Restrictive Covenants

Some counties sell properties with deed covenants that will attach to the property. These parcels will be noted online, along with the terms being required. **Please carefully review the information for each specific parcel to make sure you understand the terms of sale.**

11. Property Taxes & Other Fees

All property taxes and associated fees that have accrued on or after April 1 in the year that a property is auctioned must be paid **at the time of checkout** after the auction along with the final bid price, buyer's premium, and deed recording fee.

Furthermore, please understand that the **buyer is responsible for all other fees and liens that accrue against a property on or after April 1 in the year that a property is auctioned.** These items are not prorated. They include, but are not limited to, municipal utility or ordinance fees, and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses **are not collected at the auction** and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

12. Other

A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the FGU, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. The FGU and Auctioneer make no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

Mobile Homes may be titled separately and considered *personal property*. It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

B. Mineral Rights

You will receive any and all title that the FGU obtains via their tax foreclosure through a quit-claim deed. If the owner of the surface rights to the property also owned the mineral rights, those will become part of your title interest. However, this will be subject to the rights of any outstanding leaseholders of oil, gas, mineral or storage rights. You would be obligated to honor the balance of any remaining lease (with automatic renewals if so written). However, if the mineral rights have been severed (split from the surface rights) and are owned by a third party, they have not been foreclosed by the FGU and are not included in the mineral rights conveyed to you. In either instance, the leaseholder still has the right to explore for and/or extract minerals under the terms of any outstanding agreement.

C. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at www.tax-sale.info ("**Additional Terms**"). If such Additional Terms apply, they will be listed on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. Finally, additional conditions are included on the auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change and should be reviewed frequently.

NOTE: Please review the terms at the top of each online catalog and the addendum pages in the sale books for county-specific purchase terms. Failure to follow the specific rules posted for each county could result in cancellation of sale and/or the assessment of liquidated damages as provided by these Rules and Regulations.

These parcels have extremely high water tables, and will not support onsite septic systems and have other physical issues making them generally unbuildable. Past experience indicates that these parcels have a very high rate of tax default re-reversion if sold to speculators, so they are being conditionally offered ONLY to parties that already own adjacent lands and who are current to Winter 2018 in the payment of their property taxes on all parcels in the auction group (4 counties). Bids will only be accepted from purchasers that meet that qualification as the condition of sale, and only the parcel adjacent to their current holding(s) will be conveyed. If you are an adjacent property owner and wish to have one of these parcels removed from the bundle for bidding, please advise the auction house or the office of the Alpena County Treasurer at least FIVE BUSINESS DAYS prior to the sale so that the parcel may be scheduled for individual bidding. Any bids placed by parties not so qualified will be canceled, no deed issued, and their purchase price FORFEITED as penalty for misrepresentation of material fact. It is on the corner of Lindburg Dr and 63rd Place and is mostly grassy with a handful of trees on the West portion. This is an interesting house. The best way I can describe it is that they started with the basement and instead of building the next floor they just put a roof on it. You need to walk down some steps in order to get to the front door. There is a doorway on the outside that leads to the attic area. There is a lot of debris on the outside of the property (including glass use caution). Block foundation looks sound. The ceiling has been ripped down in most of the rooms revealing the wood rafters/struts. There looks to be some localized roof issues. This could be YOUR junkyard! Comes complete with standing water containing tires, chemical drums, fuel tanks, rubbish, mobile homes and everything else imaginable. Curiously, this is NOT listed on the DEQ/DNRs list of contaminated sites (yet). It's even fenced in with barbed wire so that no one steals any of it! The good news is that it's only 3 acres. Does this qualify as "waterfront?" We seriously advise anyone considering a bid to have a baseline environmental assessment done immediately upon purchase to prevent yourself some major issues later on. Comments: Powdermill Creek Resort and Conference Center is, (in theory), a nightly lodging provider in the Big Powderhorn Mountain ski area. In its more recent incarnation, it has been mostly a transient housing and monthly rental debacle mixed with full-time residency. Not much "resort" traffic here in some time. In the original design, this was a mini-resort of 50ish hotel type rooms and mini-townhouses, with several bars, food service operations and an indoor pool, in close proximity (but independent of) the nearby Big Powderhorn Mountain ski operations. The pool, bars and food service have not been open for business in many years on a regular basis. There is no liquor license currently associated with this property, and most of the rooms that are included in this offering are vacant and need work. There are roughly 54 residential units in this property, and we are offering 25 PLUS the "core" unit which comprises the bar, food service and recreational areas of the building as a single package. We are offering 15 main floor units, 7 second floor (cathedral ceiling) units, and the "core" food and beverage units. For general reference, please see : https://powdermillresort.blogspot.com/ Be aware that there is a dedicated community that</p>	N 11330 POWDERHORN RD 125 BESSEMER; N 11330 POWDERHORN RD 117 BESSEMER; N 11330 POWDERHORN RD 128 BESSEMER; N 11330 POWDERHORN RD 124 BESSEMER; N 11330 POWDERHORN RD	\$2,600.00

<p>individually own the remaining units here, many of whom have been doggedly pursuing POA duties and goals for many years. In addition to association fees for maintenance of the property, these units are also subject to a SPECIAL ASSESSMENT for a water/sewer district improvement. AS A CONDITION OF SALE, the seller is requiring the purchaser to pay the entire balance of the special assessment (\$21,142.40) for all units being sold IN FULL prior to issuing a deed. This amount is included in the tax amount listed on this lot. This is an exciting opportunity for an experienced and well financed developer to acquire a great ski lodging opportunity at a bargain price. We've had this one a couple of times before when it was occupied. This time it's vacant, and it's condemned. We're told by locals that there is high water table here, and the USGS topo maps certainly reinforce that by indicating there is swamp right out back. The Presque Isle River is just a couple hundred feet to the east. The condemnation is probably from a combination of a bad roof and we assume that the septic system here probably is waterlogged part of the year and needs redesign. Curiously, there is very little interior damage from the roof. The house seems fairly straight and solid other than weak floors in the back porch entry. It does have potential if one were to re-roof it (which will require some replacement of eave materials as well) and a new septic most likely. It IS condemned, so contact the village code enforcement people (probably the county building inspector) and make sure you know what you're dealing with before bidding. Two bedrooms on the main floor. 2 more upstairs with 2 walk-thru rooms and a large common area/playroom/study at the rear. Formal dining room. Roof is not old, but has missing shingle. It's not overtly leaking, but that should be fixed. The issue here is the foundation, it has caved into the basement under the left side of the front porch, and there are two other spots along the west wall that have substantial deflection and cracking. The entire east foundation wall has been replaced with concrete block already, and that appears to be holding its own. The siding is weatherbeaten and a fresh vinyl surface would help a great deal. Gambrel style roof that appears to be in older, but generally good condition. There is an exterior porch that has been enclosed (not good workmanship) that could be cute if restored. Inside, she's a dirty girl. It's a combination hoarder/pet abused home. Its got a lot of charm and architectural authenticity, but first you have to empty out all the crud and give it a good cleaning. It appears that it's got nice wood floors and trim (unpainted) and the ceilings and floors are in great overall condition. No heaving or dips noticed in floors. It all just really really dirty and layered in trash and animal feces. The basement was not accessible because of rubbish in the way, but we could not see any flood issues down there, just more garbage. The electric service is down and will need to be restored. The presence of radiators suggests a boiler. We did not see a gas meter, so we assume its an older fuel oil unit and probably not in great condition. Comments: Please call for more info. Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$50,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. PLEASE NOTE: There are two driveways here. The one that is most visible (gravel) is NOT on this property. Please don't use it. The driveway for this property is to the LEFT of the gravel drive, and is grassy. This is an older trailer with a BAD SEPTIC and the last occupants were evicted and the property condemned for that reason. You cannot occupy it until you put a new one in. Check with the Houghton County Health Department to determine how and IF you can do that. The west property boundary is about SIX INCHES from the hitch on that trailer. None of the other buildings or things are on this property. Just the mobile and old white abandoned car. Property is 208' x 208' in size. Mobile roofover full of junk and some raw garbage. Use your imagination ... you'll be pretty close. Comments: Someone got the demo phase of rehab done here. And then they just stopped. Aaaaaaand now it's all over the yard. Wanna help us clean it up? This house is structurally solid, but it's just a terrible mess. Finish the stripping, resurface and upgrade the mechanicals, add a few new windows and it can be yours at a great price. This house is fairly small ... about 15 feet wide x 30 feet. Foundation appears serviceable. Has a gaping hole in the side where they removed windows to pitch stuff onto the lawn (no dumpster?). Furnace is older but probably still serviceable. Ancient electrical needs an upgrade. They started plumbing with some Pex, but it's very amateur and you'll wanna redo it. Roof is mid life and should be good for a bit. The curb appeal is not good here, but this one actually has potential. Additional Disclosures: 50 (see key for full text)</p> <p><i>(4 of 4)</i> Parcel ID: 045-123-008-00; Legal Description: LOT 8 BLK 23 1ST ADD TO SOUTH RANGE. Comments: Suspected meth lab. Someone was "cooking" in the basement and things got out of control. House went BOOM. Now it has soot and contaminant all over, and will need to be emptied out and then certified clean before you can start rehabilitation. The roof here is in DIRE need of replacement, especially on the left rear. It's causing issues in the kitchen area already and will spread. This was (and could again be) a classic cape cod with some nice architectural detail worth preserving. Three bedrooms, one down two up. Lots of busted (blown out) windows. Collapsed garage. Debris. No extra charge. Summer Tax Due: \$2,884.38</p>	<p>5311 HIGHWAY M28 KENTON;</p> <p>516 FIFTH ST CALUMET;</p> <p>307 SENECA ST COPPER CITY;</p> <p>20 FOURTH ST SOUTH RANGE</p>	\$400.00
2718	<p>Parcel ID: 006-360-032-00; Legal Description: SEC 25 T55N R34W LOT 32 ASSESSOR'S PLAT OF LOWER PEWABIC. Comments: Parcel is on a gravel county road. There is a small pile of rubble on or near this lot (can't be sure) that may have been a structure ... but it's not any more! Brushy, level dry lands. There is power near here but it's not right at the roadfrontage ... so there may be some cost to extend it here. Summer Tax Due: \$67.38</p>	SOUTH ST HANCOCK	\$100.00

2722	<p>This lot is a "bundle" comprised of 2 parcels</p> <p><i>(1 of 2)</i> Parcel ID: 009-165-001-00; Legal Description: LOT 1 BLK 15 TAMARACK CITY. Comments: Note: Purchase of this lot requires a performance bond of \$25,000 to ensure demolition of the collapsing smaller building. This sale includes two parcels of land. One is vacant (access/parking) and the other has two buildings on it. One is a nearly move-in ready home, and the other was probably commercial at one time and needs to be demolished. The home is clean, straight and could be one of the most "ready to use" homes in the Houghton County sale this year. It is a modified 4-square design featuring three bedrooms and a bath up, and a full basement with interior and exterior entrances. It has great attic access for extra storage or development. The furnace and water heater are merchantable, though the water heater has odd damage to the jacket which we have not seen before and does not appear to be freeze damage. This home has been well maintained for many years and has little to be done other than decor change as an option. The roof is older but serviceable. The basement walls could stand a coat of thorseal, but they're solid. Building number two, on the other hand, needs to come down. The rear portion has collapsed, access to the second floor is treacherous, and we did not examine it closely because it's just simply a basket case and needs to go. It is separately described. There is also a full, vacant lot to the west that serves as access and parking for the home. This tax parcel ID and SEV is for the vacant lot. The PID# and SEV for the two buildings is the next description. Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$25,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. Comments: This is the description for the second building in this grouping. We didn't go through the inside of this one (the law of diminishing returns applies here). The rear addition to this building has collapsed and has been that way for a while. The main two story part of the structure has a roof that is older than your grandmother and has been leaking since last century. The damage here is substantial and fatal. This should be a vacant lot. Comments: This is a recreational parcel and will not support a building or septic system. It is marshland property. 1/2 acre more or less right at the point where Otter Lake meets the mouth of the Sturgeon River. Maps indicate a road here ... but we've been there before and you'll get stuck if you try it :) It would make a nice walk-in primitive campspot depending on the time of year and water table that season. Comments: 100' x 100' parcel located in an area that once housed mine workers from the long closed Superior Mine in Portage Township. There were roads and homes here 100 years ago. Long since overgrown. Might be fascinating metal detector hobbyist area. But you'll have to walk in. Not much here anymore. No mineral rights. Surface only. 2729	<p>Parcel ID: 014-432-010-00; Legal Description: LOTS 10 & 12 BLK 2 PLAT OF NORTH GROVER. Comments: Older frame construction with faux brick siding. Stone foundation. The rear porch has collapsed into its foundation, but it's independent of the main structure and could be removed. Inside it's generally straight, but really grubby and full of junk. Probably a good solid 30 yard dumpster worth between inside and out (and the basement). The kitchen floor has a hole in it and the basement stairway is treacherous. With a resurfacing and new mechanicals and windows, this could be restored. Has a newer steel roof. There is leak damage inside ... but we assume that is old damage from before the roof was replaced. The electrical and plumbing here are both garbage and will need an overhaul.</p> <p>Summer Tax Due: \$405.19</p>	26948 W 22ND ST HUBBELL	\$100.00
2730	<p>Parcel ID: 041-104-005-20; Legal Description: W 33' OF LOT 5 BLK D & W 2' OF S 32' OF E 85' OF LOT 5 BLK D VILL OF CALUMET SURFACE ONLY. Comments: This home is in need of a roof sooner rather than later ... and the rear porch and garage should be removed, but it is structurally straight and generally solid. The issue here is the SMELL. Several theorize that it's "dog poop" scent, but our experience blends dog poop, raw sewage and food garbage into the mix for this one. It will probably require a professional fumigation/cleaning (ie: ServiceMaster etc) to really efficiently manage it. We assume it'll be really ripe by August. We would consider this a shell in need of a total rehab because of the odor and general surface conditions indoors. 3017	<p>Parcel ID: 052-100-088-00; Legal Description: LOT 88 VILLAGE OF CRYSTAL FALLS LOT 88 Comments: This building housed the local newspaper from the 1880s until it's closure in 1996. It still contains linotype and offset presses from that era. Since then the building appears to have been used for storage and snowmobile repair. The roof here has been leaking for some time, and as such the county is requiring the purchaser to demolish this property after purchase. Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$100,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. Comments: Well built small 2 bedroom home with detached 2 car garage in Crystal Falls. The biggest issue with this one is a water damage from a frozen plumbing incident in the bathroom upstairs. It'll need new flooring in the living room area and some drywall work. The front portion of the house is quite old, with the floor joists actually being logs. It has a more modern one story addition on the rear that is the kitchen. Everything here is pretty solid Roof is older but not leaking. 100A electrical service. The roof is oooooold and in need of a replacement sooner rather than later. It is not leaking, yet. But it's gonna for sure before long. The siding also could use some attention, and it appears the walls have been insulated in the past. Nice wood floors, two bedrooms on the main floor plus a walk-up second level that offers storage or more sleeping space (low ceilings though). One car detached garage. Old 60A electric service has been dropped by the utility company. This one won't take a lot to make visually appealing. Really nice lot in a quiet neighborhood. Modern furnace and water heater. This home is a project-in-progress. The exterior is mostly done, but the interior has been stripped to the shell and that's where it stalled. No plumbing, not much wiring (service dropped by UPPCO), no stairway to the second floor. The other major factor at play here is the foundation. There is noticeable deflection on the west wall (under the deck) with two horizontal stress cracks in the basement, and there is a buttress wall in the basement against the east wall that itself has failed. This foundation is not in immediate danger of collapse, but it will be at some point. The home probably needs to be raised or stress taken off the foundation while it is replaced. The structure itself is straight and solid. Additional Disclosures: 34; 50 (see key for full text) Summer Tax Due: \$886.27</p>	426 JASPER ST IRON RIVER	\$100.00

Also the N 1/2 of vacated alley lying S of above described property. Comments: The parcels in this sale unit are grouped, ("bundled") as permitted by MCL 211.78m. Many of these include structures which contain lead based paint. Some may contain asbestos. Many are in various stages of disrepair or collapse and are considered dangerous buildings and attractive nuisance. Some may be occupied by tenants-holding-over under law. These parcels are not being offered individually. They must be purchased as a single bundle at or above the minimum bid price, if any is stated. Pursuant to MCL 211.78 (1), the Foreclosing Governmental Unit (FGU) has determined that the most efficient and expeditious method to return many of these parcels to productive use, is to require their immediate demolition, remediation, rehabilitation or repurposing if sold at auction. Many of these parcels constitute blight, a public nuisance and abatement is considered necessary. Before their sale to ANY purchaser at auction, it is the intent of the FGU that any such purchaser shall demonstrate their financial ability and willingness to perform those actions necessary, in the public interest and welfare, to bring the properties into compliance with local codes and ordinances. Therefore, it is a further requirement of sale of the bundled properties that a purchaser must demolish, remediate, rehabilitate or repurpose these properties as follows: 1) ALL STRUCTURES must be secured and made un-enterable within 15 days of sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued. 2) Any visible refuse, garbage, trash or other cast off shall be removed from lands within 15 days of the sale at auction, at the purchasers sole expense, or the sale shall be cancelled and no refund or deed issued.. 3) The conditions required in (1) and (2) above shall be maintained against further entry or blight for a period of 12 months following the execution of a deed. 4) Those properties in the bundle that are beyond reasonable repair or economic vitality to repair must be demolished at the sole expense of the purchaser. original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. All such demolition must be performed within 6 months of deeding, by a licensed, insured demolition contractor acceptable to the code official of the local unit of government where the property is located. All proper permits for demolition and the removal and disposal of volatile debris (asbestos, contaminants etc) must be obtained. 5) Those properties in the bundle which appear to either the purchaser, FGU or the code enforcement official of the local unit of government to be potentially contaminated, shall be the subject of a Baseline Environmental Assessment (BEA) at the sole expense of the purchaser. The cost of such BEA(s) shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. The BEA(s) shall be conducted by an insured environmental consultant licensed in the State of Michigan within 45 days of purchase, and shall be fully complete and filed with the proper authorities within 90 days of purchase. The level of the BEA to be conducted shall be determined by the findings of the initial phase(s) of the BEA at each parcel subject to such study. Where contamination is evident, the purchaser shall indemnify the FGU with a separate performance bond (issued on the same terms as others herein required) in an amount equal to the full cost of remediation of the contamination at each such site, and for a period of twenty (20) years, unless remediation is undertaken and completed during that time period. If the site is remediated to a level satisfactory to state officials charged with such determinations, the requirement for a performance bond shall be removed for that site. 6) Those properties in the bundle which can be rehabilitated or repurposed shall be brought into compliance with all construction, occupancy, zoning and other use codes of the local unit of government within 12 months. Construction and/or mechanical permits must be obtained prior to performing such work. Occupancy permits must be obtained by the expiration of that term. All construction and rehabilitation work at these properties shall be carried out by contractors that are licensed and insured, and acceptable to the code enforcement officer of the local unit of government. The cost of such work shall be at the sole expense of the original purchaser and shall not be assigned, delegated or otherwise transferred to third parties through sale or conveyance until complete. In pursuance of those requirements and their costs and timelines, the FGU is requiring the posting of a performance bond in the amount of \$1,000,000.00. The performance bond shall be made out in favor of the Office of the Kalamazoo County Treasurer (acting as the Foreclosing Governmental Unit). Evidence of the issuance and full payment for such bond shall be presented to the FGU within fifteen (15) days of the acceptance of the purchasers bid at auction. In the event evidence of issuance and full payment is not tendered within fifteen (15) days of sale, the sale shall be cancelled outright, and the purchaser considered non-responsive to a necessary condition of the sale. No receipt for the sale shall be issued, and the bidder shall not be entitled to enter upon such premises, until such bond is issued and deemed sufficient by the FGU. Such bond shall be issued by an underwriter licensed to do business in the State of Michigan, who is not the subject of any pending disciplinary action by the State of Michigan or any department, bureau or commission thereof. It shall be payable, in full amount, to the FGU in the event of either whole or partial non-performance of the terms above written for its entire duration. It shall run as effective and be fully pre-paid, for the entire term of twenty-four (24) months. Any overage or refund shall be payable to the purchaser upon earlier termination of the bond because of full performance hereunder. This 24 month time period is not applicable to those performance bonds required for contaminated parcels noted in (5) above. The original of such bond(s) shall be held by an escrow agent satisfactory to the FGU, fully prepaid, at the expense of the purchaser. In the event any purchaser is a corporate or other entity, the principals of such entity must also execute full-recourse personal guarantees that assure payment of the amount(s) due under performance bonds in the event they are not honored for any reason. Compliance with the terms of the requirements hereof shall be at the sole discretion of the FGU. **Additional Disclosures:** 31 (see key for full text)

Town of Gay 0.41A m/l S19-T56N-R30W Comments: This one is literally coming apart at the seams. The main two story frame structure appears to be straight and true, but the one story addition to the south is slowly declaring independence and having some gravity issues. The most serious issue here is the foundation. Three of the four corners, especially the two rear corners, are failing. Someone tried to fix that with some aerosol foam, but it didn't solve the problem (COUGH). There appears to have been a two car or such addition to the north that has already been removed (and the opening plugged) in the past. All that remains is the concrete slab on grade. Roof appears older but serviceable. Hard shingle siding that has been painted (may contain asbestos). Appears to have been unoccupied for a little while now. There is an inoperable vehicle here with a plate that expired 5+ years ago. This is actually a nice 119' x 150' lot in a quiet friendly little resort town, and the frame structure could be moved to a new foundation and restored without the side addition. Over an acre here unfortunately it is UNDERWATER right now because of lake levels. We sold this one a couple years ago and it was moist then, but now it is fully submerged. This parcel is also subject to a non development agreement with the State of Michigan ... so even if it *was* dry ... no McMansions can be built here. However it does remain spectacular waterfront that could be used for a very nice seasonal/temporary dock and cabana for an off water home in the area. It also holds promise as a frog farm or cattail ranch! Comments: This is a two story early century home, with a couple of mid century, one story additions. We noticed a substantial deflection in the north exterior wall that you can see from outside the building near the foundation about half-way back. This could be the result of removing interior load bearing walls to "remodel". The home went through a mid-century upgrade. It needs a roof and there are localized leaks appearing. There is some sway to the floors which should be investigated from the crawlspace. There is a newer boiler, but we did not see evidence of it having been winterized. Has an odd, rambling floor plan, including a toilet right smack dab in the middle of the upstairs hallway (peek-a-boo!). There is a large hole around the electric service mast in the roof (rain + power = boom boom, spark spark). This Property as has been reviewed by a title insurance company who determined it is insurable. More details available upon request. Summer Tax Due: \$824.36</p>	205 N THOMAS ST SCOTTVILLE	\$100.00

5402	<p>Parcel ID: 03 520 034 00; Legal Description: SEC 5 T50N R42W LOT 34 OF PLAT OF WHITE PINE. Comments: Four bedrooms and two baths. Roof is old, with one substantial leak/bad spot in the right rear corner bedroom. The main floor has had walls removed and the floor plan reconfigured. Maple flooring. Needs a good cleaning and probably some attention to plumbing and heating. Hot water boiler heat system that we did not see any obvious signs of freeze damage and we found a drain valve open, so it MAY have been winterized. Access is from the north, and a two track that comes straight down to the NW corner of the land. At the 1320' mark on that trail, you will see old buildings off to the right, and that tree line is the north edge of the parcel. This trail isn't mucky, but its definitely 4WD territory. STOP at this point ... because there is a pretty good sized ravine/gully/ditch just ahead and you'll be calling for the tow truck iffen you don't. USGS topo maps indicate that this parcel is all uplands and not marsh. No signs of recent timbering, but the forestry stock here is not old. It's a mix of evergreen, softwood and a little hardwood with brush as well. Good camp property. Halfway between Mass Station and McKeever. Summer Tax Due: \$55.55</p>	(Off) Rosseau Road	\$100.00

5411	<p>Parcel ID: 10 688 004 00; Legal Description: LOT 6 BLK 8 OF TOWN OF WEBSTER. Comments: This one isn't shot, yet, but it's headed there in a hurry. Historically this has been a pool hall. In more recent years only the second floor was used as a residence. The roof is generally bad and leaking in several spots. That has transmitted to the main level where it has warped hardwood flooring. The foundation on the left/south side of the building could not be examined without a ladder to the basement, but it could be an issue tho its not stressing the side wall. The side and back stairways and porches are creeky and need attention. It certainly needs a roof. We're told by Ray (the overseer who you will undoubtedly meet if you visit this one) that the former owner had a new boiler put into the basement before he died, which was about 6 or 7 years ago. Has potential, but will require a lot of work and deep pockets. There is no active electric or water service here, but we have a hunch this may be squatter territory. Ask Ray. Comments: We've sold this one (and the one next door too) a couple of times before ... and like the bad penny it returns. Older one story mid-century frame construction. Sits on a footing system that backs up to a ravine and it is sloooooowly collapsing from underneath. Most of the foundation at the front of the house has collapsed, and it's just a matter of time til house-go-boom. But hey, it's got a newer furnace! The house itself actually isn't bad and would be worth moving. But the logistics with the steep ravine behind it makes that impractical. Most of the development is near the Lake, which is privately held by the membership of the association. Please see the LMPOA link attached to this listing for more information on association membership, fees and requirements. Many of the parcels that are offered for tax sale are in portions of this development that are incomplete. Many of the roads are not graded regularly, some not at all. Many of these parcels have no electric or other utility service, and none is expected or proposed in the near future. The oil and propane trucks will not service those areas of the property. In short, "Caveat Emptor". We have photographs of the road to each parcel in the file for that lot. In general, if there is grass between the tracks, there is no power. Please study carefully prior to bidding. IT IS AN EXPRESS REQUIREMENT OF THIS SALE THAT THE PURCHASER MUST EXTEND ELECTRIC, UTILITY SERVICE TO EACH LOT INCLUDED IN THE BUNDLE AS A REQUIREMENT OF SALE. To this end, a cash bond in the amount of \$50,000 will be required to be furnished and held in escrow payable to the office of the Osceola County Treasurer. Account shall be held by a third party meeting the approval of the seller. The purchaser shall be permitted to draw against this account for the expense of such electric utility extension and road improvement. The cash account must be created prior to the completion of the sale, or the sale shall be cancelled and no refund issued. Any surplus funds shall be returned to the purchaser upon the completion of utility extension to the final lot in the bundle. Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$25,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within six months of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. It's got a lot of potential, but it's gonna need some work! Inside the floors are weak (wood pier footings?), the ceilings are low, and everything is covered in soot and it STINKS. So it's going to need a thorough cleaning and de-stinking (ozonating ... call a professional) and then you still need to correct the weakness in the floors. There are three "sort of" bedrooms. Two are "walk-thru" bedrooms leading to the third. Odd layout. Wonderful garage, but the floor is cracked and heaved. Synopsis : Outside nice, inside not so nice. 6317	<p>Parcel ID: 051-318-001-00; Legal Description: LOT 1 & S1/2 OF LOT 2 BLK 8 OF McCANNA BROS ADD TO VILL OF MANISTIQUE. Comments: This is a very solid, square, straight older wood frame home in Manistique. It is pretty original as to design with the exception of the front two upstairs bedrooms having been made into one larger one. The roof looks shady and there is evidence of some past damage to plaster upstairs from leaks, but all repairable if dealt with soon. The main floor has fallen victim to a mid-century "remodel" (ie: paneling) , but at least they didn't paint the trim. Nice hardwood floors, built in pantry off the kitchen. What the place needs more than anything is a good cleaning and resurfacing. It has "animal odors" and it looks like the family pets used one of the closets as the litter box for a century or two. It's just generally a dirty girl. Some of it clearly has not been scrubbed since last century. Three bedrooms, one bath (up) and a mid-century forced air furnace.</p> <p>Summer Tax Due: \$537.44</p>	201 FIRST ST MANISTIQUE	\$500.00

Additional Disclosures Key

5: One or more buildings on this parcel has a roof which is either leaking to the interior or appears close to failure. Failing roofs often indicate substantial structural decay inside the building. You should investigate the integrity of this structure(s) prior to bidding.

6: This property is **occupied**. Please respect the privacy of current occupants and limit any inspection to what can be **safely observed from the road**. Some occupants may be upset or angry and may meet contact with aggression or violence. **Please use discretion and caution when researching this or other occupied properties**. Furthermore, although this property has been foreclosed for unpaid taxes, occupants have certain rights under Michigan law and must be formally evicted if unwilling to leave voluntarily. You may wish to consult a licensed attorney for more information.

7: This parcel does not front on a public or privately deeded improved road. Often times there are easements in the recorded chain-of-title that provide legal access to such parcels but other times there are not. You should thoroughly research this parcel's access rights prior to bidding. It can require expensive, complicated, and time consuming legal proceedings to secure legal access to landlocked parcels that do not have easements for ingress and egress.

8: The roads which are shown on plat or tax maps for this parcel do not appear to exist or may be located in a different location than shown on such maps. While a legal right to build such roads may remain, this construction would likely be very expensive. However, in some instances these unimproved roads have been vacated or abandoned by action of the local government and no such right to construct the roads remains. Issues surrounding unimproved roads can be complicated and expensive to resolve. You should investigate the existence of any roads and the ability to access this parcel thoroughly before bidding.

9: This parcel is too small to be practically useful under most circumstances. Many times such parcels are the result of survey or property transfer errors which create small orphaned slivers of land. These parcels are frequently too small to allow construction or any other practical use. They often have no road frontage or legal means of access. These parcels can often lead to **adverse claims or encroachments by neighboring land owners** which can be complicated legal issues to resolve. Please investigate this parcel thoroughly prior to bidding.

10: This parcel has surface water, soil, or vegetation conditions indicating that it may include wetland habitat. Such habitat may comprise all or part of the parcel's area. However, it is possible that this parcel contains buildable areas as well. There are many environmental and building regulations related to wetlands which you should consult before bidding on this parcel. The Michigan Department of Environment, Great Lakes, and Energy maintains a [Wetland Map Viewer](#) which provides easy access to wetland data and can be found [It is your responsibility to determine if this parcel is suitable for your desired use](#).

11: This parcel includes structures which have been damaged by fire. It is up to the auction purchaser to determine if this property can be restored to a safe condition and to comply with all relevant local regulations and building codes. Please research thoroughly prior to bidding.

12: This parcel may contain buried storage tanks from previous use as a gas station or similar enterprise. Our analysis is based **solely on visual inspection** of the property surface as further detailed in the lot description. The State of Michigan may require a new owner to remove any remaining tanks and remediate environmental concerns at their sole expense. The State of Michigan provides additional [information about underground storage tanks](#). The Michigan Department of Environment, Great Lakes, and Energy also maintains an interactive mapping tool: the [EGLE RIDE Mapper](#) which tracks known environmental contamination sites. Please note that this tool only reflects sites which are currently known to the state and may not definitely indicate the absence of buried tanks on this parcel. You should conduct careful and thorough research prior to bidding on this parcel.

13: A visual inspection of this parcel indicates **potential environmental contamination**. Visual indicators can include things like used tires, dirty soils, or chemically intensive former uses such as dry cleaning. Prospective bidders should carefully research the condition of this property prior to bidding. You may want to contact the Michigan Department of Environment, Great Lakes, and Energy (EGLE) or other relevant state agencies for additional guidance. EGLE maintains an interactive mapping tool which tracks known environmental contamination sites, see the [EGLE RIDE Mapper](#) for more details. Please note that this tool only reflects sites which are currently known to the state and may not definitely indicate the absence of contamination on this parcel. Purchasers are strongly advised to obtain a **Baseline Environmental Assessment (BEA)**. Some basic information about BEAs can be found by visiting the [EGLE Baseline Environmental Assessments](#) website. All sales are made as/is where/is without any representations or warranties. It is the sole responsibility of the purchaser to identify and appropriately handle any environmental contamination that may exist. Please do all necessary research before the auction.

15: This lot is part of a condominium development. A condominium is a form of land ownership which is divided up into individual "units." Owners are required to be part of the applicable condominium association (COA) which includes rules and regulations related to the use and ownership of each unit. Additional restrictions will be spelled out in the development's **master deed**. Condominiums also **include association fees** which can be significant. Some condominium units delegate things like exterior maintenance and repair to the COA whereas the owner remains responsible for the unit's interior. However, there are many varieties of condominiums including residential and commercial interior space, condo subdivision lots, condo boat slips, condo campsites and others. Prospective bidders should **carefully review and understand the master deed, COA rules and regulations, and investigate association fees prior to bidding**.

16: This parcel is likely subject to ASSOCIATION FEES which are assessed to cover maintenance and other costs associated with the development in which the parcel is located. Interested parties should verify the existence and extent of association fees and costs prior to bidding.

17: Mobile homes (and some modular homes) can be separately titled and considered personal property. In these instances, there may be third parties that have the legal right to remove that mobile home from the parcel whether or not it has been assessed as part of the property in the past. We make no representations or warranties as to whether such mobile or modular homes are included with the real property offered for sale. It is the buyer's responsibility to conduct their own research as to the state of title. As a preliminary step, it may be useful to determine if an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in [MCL 125.2330j](#). You may wish to consult a licensed attorney or title company to assist in this research.

18: The building on this property appears to have been used for multi-family occupancy in the past based upon indicators such as multiple mailboxes, entrances, numbering, layout, or other such factors. Modifications to the property may NOT have been legally made and may NOT conform to local zoning. Prospective bidders should verify with local officials that multi-family use is permitted under existing zoning. In many areas, once a multi-family use has been discontinued, it cannot be reinstated unless in conformance with local zoning and code.

21: This parcel appears to contain "personal property" that may be of value. Property tax foreclosure affects **only "real property."** In general, real property includes the land and those things physically attached to it. **This sale includes only such real property.** However, some parcels also contain personal property such as cars, furniture, clothing, and other things which aren't physically attached to the land. Such **personal property is not included as part of this sale.** It is strongly suggested that the purchaser of this parcel contact the former owner and provide them the opportunity to remove this personal property before disposing of it. Minimum reasonable steps could include sending a letter by certified and first class mail to the former owner at their last known address. However, it is the responsibility of the winning bidder to determine what personal property is present on the parcel and the appropriate measures for handling such personal property.

22: This parcel has substantial structural issues caused by poor design, insufficient maintenance, or both. Such buildings may be subject to condemnation orders which we were unable to locate during our inspection. All such buildings should be brought into compliance with local building regulations prior to use. We **strongly** recommend that you contact the local building code official and consider consulting a competent structural engineer to assess the condition of this property before to bidding.

23: This parcel is located within a municipality which monitors property maintenance and condition. You may be assessed fees and fines if you fail to mow the grass or do not otherwise properly maintain the property after purchase. One advantage to these parcels is that they typically have infrastructure nearby (water, sewer, power). However, you should confirm the availability of such utilities as well as the connection costs prior to bidding. It is your responsibility to determine whether a parcel is suitable for your desired purpose.

25: There is evidence posted which indicates that a lender may be attempting to foreclose upon this parcel **after** such parcel was foreclosed for delinquent property taxes. A purchaser may encounter future contact from this lender. Tax foreclosure supersedes the rights of mortgage holders. If a mortgage holder does not foreclose upon their mortgage interest prior to tax foreclosure, their right to do so is generally lost. Typically such mortgage holders were provided all necessary notice of tax foreclosure but failed to act in a timely fashion to preserve their interest. In rare instances it may be necessary to cancel a sale if a deficiency in notice to such a lender is discovered. Please contact us or ask questions at the sale if you have concerns about this issue.

31: This parcel has been posted as "Condemned" by the local building authority. Properties are generally condemned when they are deemed substandard, unsafe, or otherwise unfit for use and habitation. Condemned property **must** be rehabilitated to meet local building codes **prior to use or occupancy.** A building is not automatically slated for demolition when condemned. However, this does not necessarily mean that demolition will not also be pursued by the local unit. Please check with the local building official before bidding to determine the specific status and requirements for this property.

32: This building contains evidence of **mold.** Mold is an indication of excess moisture which can come from a variety of sources including high ground water, improper sealing of foundation walls, damaged roofs, and other conditions which can be expensive to correct. Mold can pose significant health risks and, if extensive, may require a complete renovation which could exceed the value of the building. Please conduct your own research and bid accordingly.

33: The interior of this property was not viewed during our inspection. Buildings which are dangerous, occupied, boarded, condemned, or otherwise difficult to enter are inspected from the exterior/curbside only. You are NOT authorized to enter these or any other buildings offered for sale. You should limit your inspection to that which can be made safely from the building's exterior.

34: The foundation of one or more buildings located on this parcel appears to be failing. Correcting foundation issues can be very expensive and issues are often more complex than they initially appear. You should research this issue thoroughly prior to bidding on this parcel.

35: This property contains physical indications that one or more water lines have frozen, ruptured, and leaked for a significant period of time prior to being shut off. Such indications can include damage to ceilings and floors and visibly damaged pipes and fixtures. Damage from freeze bursts can be substantial including significant harm to structural components such as framing and foundations.

36: This parcel includes a structure which should be considered **DANGEROUS.** This building has suffered structural damage which creates substantial risk of harm from falling through damaged areas or collapse from above. It may also contain extensive debris which could fall or collapse, rusty nails, broken glass, and other hazards. **You are not permitted to enter this or any other structure offered at tax sale. You should limit your inspection only to what can be safely observed from the building's exterior.** Trespassers are subject to prosecution.

37: This property includes an outstanding special assessment. Local units of government often borrow money for projects

such as streets, water/sewer, lighting, and other public infrastructure improvements. These costs are then assessed to the owners of affected property over a period of years in installments added to the annual tax bill. All past installments of these assessments are included in the minimum bid price. **The purchaser assumes liability for all future installments of these assessments.** We would advise prospective bidders to investigate the balance due on all special assessments as well as the ongoing annual cost *before bidding*.

39: This parcel appears that it may be subject to encroachments or may encroach on neighboring property. This assessment is based upon our visual inspection. Not everyone is a surveyor and sometimes buildings, roads, septic systems, wells, or other improvements are built across property lines and may lie partially or wholly upon neighboring parcels. Please consider a survey and conduct thorough research before bidding on this parcel. All property is sold "as-is, where-is" without warranty based upon the assessed legal description.

40: This parcel is accessible by a road that is believed to be a seasonal or non-maintained public road. While we make no representations or warranties as to the precise nature of such road access, our research suggests that this road is either **1)** Not regularly graded; and/or **2)** Not snow plowed in winters; and/or **3)** Appears subject to fallen trees or other events which have not been addressed by the county road commission. You should conduct your own research into this issue prior to bidding.

41: This parcel has surface water, soil, or vegetation conditions indicating that it may include wetland habitat. Such habitat may comprise all or part of the parcel's area. However, it is possible that this parcel contains buildable areas as well. There are many environmental and building regulations related to wetlands which you should consult before bidding on this parcel. The Michigan Department of Environment, Great Lakes, and Energy maintains a [Wetland Map Viewer](#) which provides easy access to wetland data. It is your responsibility to determine if this parcel is suitable for your desired use.

42: Our review of this parcel indicates that the noted State Equalized Value (SEV) does not appear to reflect the current value of the property. This is often due to buildings or other improvements being demolished or fire damaged or other similar items included in the SEV being removed from the property. It can also be due to market changes in the area in which the property is located. It should be further noted that the SEV/assessed value of the parcel as noted in this listing may be several years old. You should consult a local real estate professional or appraiser to help you assess the current market value of this property before bidding and **should not base your valuation on the stated SEV.**

43: Our visual inspection indicated that electrical service was not available on or near this parcel. The nearest electric service appeared to be a considerable distance (hundreds or perhaps thousands of feet) from the property. As such, electrifying this parcel could be costly. Please conduct your own research prior to bidding.

44: This property appears as if it may be a side-yard parcel. Frequently homes are located on one parcel and the associated back or side-yard is located on a separate adjacent parcel. These side-yards are sometimes foreclosed while the home is not. This can create unfortunate situations where fenced boundaries, septic tanks, out buildings, garages, and other improvements that were previously associated with the home next door are sold on their own. Such parcels may have value to the adjacent owners but often have little to no value on their own. You should investigate this parcel carefully and understand what you are purchasing before you bid.

45: Our inspectors encountered aggressive dogs in the vicinity of this parcel. Please **exercise caution** if you choose to assess this property in person.

46: One or more structures was boarded when we conducted our assessment of this parcel. Properties may be boarded for a variety of reasons. For example, properties are often boarded to prevent trespassers from harvesting copper plumbing, wiring, and other fixtures. Buildings may also be boarded by fire or other officials when they present a safety hazard. We generally do not enter boarded structures and limit our observations to the building's exterior. Likewise, you should limit any inspection of this property to its exterior **only**. You are not permitted to remove any boarding to view building interiors under any circumstances. Public property records or polite inquiries to neighbors may reveal additional information about a property's history.

48: This parcel appears to have been subject to harvesting of electrical, plumbing, mechanical systems, or other building components. Buildings are sometimes targeted by criminals that steal or "harvest" items such as copper plumbing, wiring, furnaces, water heaters, fixtures, hardwood flooring, etc. This building should be considered incomplete due to such harvesting and may require substantial investment to reequip.

49: This parcel appears to have challenging terrain. Challenging terrain can include steep hillsides, ravines, gullies, or similar topographical features as well as little to no buildable area. Such parcels often have no practical use. You should investigate this parcel's terrain and suitability for your desired purpose prior to bidding.

50: The previous owner of this parcel undertook a construction or rehabilitation project which has not been completed. We have attempted to describe the degree to which the project has been finished, but the building should be considered incomplete nonetheless. The local building code enforcement official may be able to offer additional insight as to why the project was never completed.

52: This parcel is what we refer to as a 33'/66'. We frequently see foreclosed parcels that are either 33 or 66 feet wide. These parcels are often a result of existing or former road rights of way. A common road right of way is 66 feet wide. Half of that is 33 feet. There are two common scenarios that we see. **Scenario 1:** A land owner splits a tract of land and creates a common easement parcel for access. They might then quit paying taxes on the parcel with road frontage knowing that the easement would remain even after foreclosure. Such easements are generally either 33 or 66 feet wide. **Scenario 2:** Rural land generally runs to the *center* of any public road on which it fronts whereas subdivided land usually runs to the *edge* of the road right-of-way. Sometimes during surveys or other splits, half of the right-of-way (usually 33 feet) can become orphaned, effectively turning to no-man's-land. Potential bidders should be aware that 33 and 66 foot wide parcels are **very likely to include easements**. That means that there are people who have a *right to use the property* even though they do not own the land. It is unlawful to cut off access over a 33 or 66 foot parcel where an

easement already exists. Even if an easement doesn't already exist, courts will frequently create such an easement to prevent a neighboring parcel from becoming landlocked. Potential bidders should consider that this parcel likely has little value and cannot be used to landlock a neighboring parcel when there is no other path for ingress and egress.

62: This parcel appears to include an area where a mobile home was previously located. Such mobile home pads will frequently include well/water and septic/sewer connections as well as power hookups. However, local zoning regulations may prohibit placing a new mobile home on this site despite the fact that one was previously located here. Please check local zoning regulations carefully prior to bidding. We make no representations or warranties as to the suitability of this parcel for any purpose.

63: Pet and/or wild animal waste was observed within this property. Potential bidders should consider that urine stains/odors can be difficult to remove from porous surfaces such as wood floors or underlayment.

64: The structure(s) on this parcel have been slated for **demolition** by the local unit of government prior to sale. As such, it is being presented here as a vacant lot. You should confirm the status of this parcel as well as the allocation of the cost of demolition prior to bidding.

65: A visual inspection indicated that this parcel **may** contain asbestos in the form of insulation on piping, boilers, or other structural components. However, no formal testing was conducted and the presence of asbestos has not been confirmed. There are other insulation products that are similar in appearance. According to the U.S. Environmental Protection Agency, asbestos is not likely to cause significant health risk when left undisturbed. See this [EPA asbestos publication](#) for additional information. It is the responsibility of the winning bidder to take proper safety precautions and conduct testing and/or removal efforts if deemed appropriate.

66: This property is unsanitary and poses a potential health hazard because of raw food garbage, backed up sewer lines, or other similar waste. Such conditions can attract rodents, wild animals, and other vermin. You should bid accordingly and be prepared to mitigate the situation immediately upon purchase.

68: This parcel is part of a site condominium development. A condominium "unit" is a form of land ownership which is similar to a traditional subdivision "lot" but is also different in some important respects. Each condominium development is laid out in a document called the **master deed** which outlines the extent and nature of each condominium unit. The master deed also contains rules and restrictions related to construction and permitted use. Construction requirements can include everything from the size or design of buildings to color and orientation on the site. Condominium developments also include "common elements" like streets and sidewalks which are shared across all units. Some developments include amenities like golf courses, clubhouses, beaches, pools, and parks whereas others include only basic infrastructure like roads and sidewalks. Site condominiums also **include association fees** which can be significant. Prospective bidders should **carefully review and understand the master deed and investigate association fees prior to bidding**.

72: There is evidence that the septic/drainfield system has been modified, excavated or otherwise disturbed. This suggests that the system may be inoperable or in need of replacement. You may wish to have an expert evaluate it or consult with the local health department for additional information.

73: This property may not be suitable for the installation of onsite sewage disposal. High water table indicators were observed and/or similar issues exist in the surrounding area. In some jurisdictions holding tanks and berm/mound sewage systems may not be allowed, making many sites unbuildable. Please consult with the local health department for requirements specific to this property.
