There are two ways to bid in our auctions:

ONLINE AT WWW.TAX-SALE.INFO

-or-

ABSENTEE BID

(For those who have *no* computer access. Please call for assistance)

For **registered users**, our website features:

- **Photos** and detailed descriptions of properties (where available)
- **GPS/GIS** location of the property
- **Maps** of the property vicinity (where available)
- **Google Maps links** to satellite images of the area and street views of the property and neighborhood (where available)
- **Save properties** to your personalized “favorites” list
- **Personalized Auction Feed** with live updates on parcels in which you have placed a bid(s)

We have a short window to review several thousand parcels prior to listing them on our website. We began inspecting properties in May and release catalogs county by county as they become available. Please be patient and **check back often** for updates. Parcels are sold "as is" based on the assessed legal description only. All other information in this salebook or listed on our website, though reliable to the best of our knowledge, is provided as unverified reference and is not guaranteed to be accurate. You should verify this information with your own research and investigation prior to bidding.

Visiting and viewing property BEFORE auction:

The auction list furnished in this salebook contains property that *may* be offered. Please keep checking the catalog on our website as the auction date approaches as some parcels may be removed from the list for a variety of reasons.

You are NOT AUTHORIZED to enter any buildings, even if they are unlocked or open to access. Entering a tax auction property to “see it” is considered breaking and entering (a criminal offense). Please limit your review to looking through the windows and other external inspections. We will post exterior and interior photos on the website and provide other commentary whenever possible.

Entering properties (even vacant land) can be dangerous due to unknown conditions of structures and land. **You assume all liability for injuries and other damage** if you choose to visit these lands.

Properties may be occupied or “being watched” by former owners or neighbors sympathetic with former owners. Occupants are often unknown and could potentially be volatile, unstable or “anti- government” persons. Even vacant land presents potential for conflict.

Some properties still contain the personal property of former owners (including vehicles, furnishings, appliances etc). These items are not sold at our auctions. We are only selling the real estate (land) and whatever is attached to it (buildings and other permanent fixtures).

- **You are not authorized to remove ANY “personal” property, “scrap” metal or fixtures from auction parcels. This is considered theft and will be prosecuted.** We often ask neighbors to watch property for theft and vandalism and report this to local police.
- **Property is sold “as-is” in every respect.** Please check zoning, building code violation records, property boundaries, condition of buildings and all local records available to the public.
- **There are no refunds and no sale cancellation at the buyer’s request.**
- **Information offered on the website or in the salebook is deemed reliable but is not guaranteed.** We suggest reviewing the records of the local assessor’s office to be sure that what we are selling is what you think it is. **We sell by the legal description only.**
- **You should consider obtaining professional assistance** from land surveyors, property inspection companies or others if you have questions about property attributes.

PLEASE REMEMBER that property lists can change up to the day-of-auction.

Paying for your Auction Purchases

- **The full purchase price must be paid in full within 5 business days of the sale.** No purchases can be made on a time-payment plan.
- No cash or personal checks will be accepted.
- All payments must be made with a **Credit/Debit Card, Wire Transfer, or by certified (cashier's) check.**
- Your sale is not complete until we've received both your payment and your notarized receipt and buyer's affidavit paperwork. This is also due 5 business days from the date of the sale.
- When mailing in your paperwork (especially with a certified check), please use a trackable service like Priority Mail, FedEx, or UPS to ensure timely, verified delivery.

Bidding Authorization

- Online and absentee bidding requires a **\$1,000 pre-authorization hold** on a Visa, MasterCard, or Discover credit card before any bids will be accepted. Alternatively, bidders can mail in a \$1,000 certified funds deposit if a credit card is unavailable. A buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.
 - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

Absentee bidding

- If you do not have internet access, **you can submit an absentee bid by calling us.** You will still need to pre-authorize a \$1000 deposit on a major credit card (or mail in a \$1000 certified check deposit). Contact us at 1-800-259-7470 for more information.
 - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

Rules and Regulations

1. Registration

You must create an online user account at www.tax-sale.info in order to bid at an auction. You should create such an account no less than 48 hours prior to the auction in which you wish to participate to ensure that your account is active and authorized in time to bid. Before any bids will be accepted, you must also provide a deposit by authorizing a \$1000 pre-authorization on a Visa, MasterCard, or Discover credit card or by tendering \$1,000 in certified funds to the Auctioneer.

2. Properties Offered

A. Overview

"Foreclosing Governmental Unit" ("FGU") is a term used by the Michigan tax foreclosure statute and is typically the office of the County Treasurer in the county where the offered property is located. However, in some instances the FGU is the State of Michigan Department of Treasury.

Unless otherwise noted, the "Seller" is the County Treasurer, acting as the "FGU". The Auctioneer is Title Check, LLC acting as the authorized agent of the Seller/FGU.

The attached list of parcels has been approved for sale at public auction and each is identified by a sale unit number. The Seller reserves the right to pull parcels from the sale at any time prior to the auction.

According to state statutes, **ALL PRIOR** liens (other than certain DEQ liens and other limited exceptions), encumbrances and taxes **are cancelled** by Circuit Court Order. The FGU has attempted to include in the minimum bid, liens that have accrued since foreclosure, such as nuisance or water bills; **all other outstanding bills since foreclosure are the responsibility of the buyer**. These properties are subject to any state, county, or local zoning or building ordinances. The FGU does not guarantee the usability or access to any of these lands.

B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to do THEIR OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The FGU and the Auctioneer make no warranty, guaranty, or representation of any kind concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition regarding any parcel offered for sale.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the FGU. Some structures may be occupied and occupants should not be disturbed.

C. Reservations

At the sole option of the FGU, a reverter clause may be included in any deed issued to a winning bidder which prohibits the future severing of mineral rights (if any) and/or splitting/subdividing any purchased property into smaller parcels which do not meet local zoning rules or otherwise comply with applicable regulations relating to the splitting of property. If such a reverter clause is included, a violation thereof will result the property reverting to the FGU without refund.

Pursuant to state statutes, where the State of Michigan Department of Treasury is acting as Seller/FGU, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the State may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the State does not reserve mineral rights as described above, the State may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

3. Bidding

A. Overview

Live Bidding Auctions:

First round minimum bid auctions, unless otherwise specifically noted, include live bidding. Bidding at live bidding auctions is divided into two phases:

i. Advance Bidding

Advance Bidding begins **thirty days before the posted auction start time**. During Advance Bidding, you can place and modify bids in any way that you see fit. You can increase, decrease, or delete bids entirely during Advance Bidding. You will be able to see your maximum bid but will not be able to see the current high bid price or what other users have bid during this time. Advance bidding **ends at the designated start time which is listed for the applicable auction** and the Active Bidding phase then begins.

ii. Active Bidding

Active Bidding begins **at the designated start time which is listed for the applicable auction and continues until the designated end time**. Active Bidding is the interactive phase of the auction process. During active Bidding, you will be able to see the current high bid price and whether or not you are the high bidder. You will also be able to see whether you have been outbid. During active Bidding you can place new bids or increase bids **but cannot delete or decrease your bid amount**. When making a bid during Active Bidding, you are committing to pay up to your maximum bid amount so bid carefully and accordingly. Active Bidding **concludes at the designated end time which is listed for the applicable auction. All bidding ends promptly at the listed end time for the applicable auction**. Bidding *is not* extended beyond the listed end time regardless of bidding activity.

All bids placed during Advance and Active bidding are maximum bids. The auction system will automatically bid on your behalf up to your maximum bid amount as applicable based upon competition from other bidders. Bidding activity can be very high during the final minutes of the auction. Entering your maximum bid and allowing the system to bid up to that maximum, as opposed to manually bidding one increment at a time, helps ensure that you aren't outbid in the final moments of the sale simply because you were unable to manually enter an additional bid before time expires.

After the listed end time passes, the sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid.

Sealed Bid Auctions:

Second round no-minimum sales, unless otherwise specifically noted, are conducted by sealed bid. Bidding at sealed bid auctions opens approximately thirty days before the final bidding deadline. While bidding is open, you can place and modify bids in any way that you see fit. You can increase, decrease, or delete bids entirely during this time. **Your best and final bid must be entered prior to the posted final bidding deadline at which point bidding CLOSES and all bids are locked**. You can see your own bids while bidding is open but the current high bid price is not visible. **Once the posted bidding deadline passes, final winning bids are calculated and awarded by the award date posted for the auction in question**. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid. All bids placed at sealed bid auctions are maximum bids. The auction system will automatically bid on your behalf up to your maximum bid amount at the time final winning bids are calculated as applicable based upon competition from other bidders.

B. Starting Bid Price

The starting bid prices are shown on the online lot description page for each sale unit as well as on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the FGU.

However, any person who held an interest in a property offered for sale at the time a judgment of foreclosure was entered against such property **must pay at least minimum bid** for such property even if purchased at a no-minimum auction.

C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

D. Eligible Bidders

Any person who meets the following requirements may register as a bidder:

- The person does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the FGU from participation in the public sale and is not acting on behalf of another who has been banned or excluded.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

E. Absentee Bidding

Prospective bidders who do not have internet access or who are otherwise unable to bid on their own may bid by Absentee bid. Absentee bidders must meet all eligibility and other requirements of these Rules and Regulations. Absentee bids will be accepted in increments up to the amount pre-approved by the absentee bidder. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470.

F. Auction Location

Auctions are conducted online through www.tax-sale.info. An auction may be conducted in-person with simultaneous online bidding as determined by the FGU.

G. Bids are Binding

A bid accepted at public auction through www.tax-sale.info is a legal and binding contract to purchase. The FGU reserves the right to reject any or all bids.

H. Limitations on Bidding

The FGU and Auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group of bidders for any reason.

I. Attempts to Bypass These Rules and Regulations

The FGU and Auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

4. Terms of Sale

A. Payment

- **The full purchase price must be paid in full WITHIN 5 BUSINESS DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
- If a buyer fails to consummate a purchase for any reason, their sale will be cancelled and the buyer will be assessed liquidated damages in the amount of \$1000 for breach of contract. Seller may collect this liquidated damages assessment from any funds tendered by buyer prior to cancellation and may collect any remaining unpaid liquidated damages assessment using the deposit described in paragraph 1 above.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. ***Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.***

B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

C. Dishonored Payment

A buyer whose payment is dishonored for any reason will have their sale cancelled and will be assessed liquidated damages in the amount of \$1000. Seller may retain any portion of the purchase price which was tendered and not dishonored up to \$1000 to apply toward such liquidated damages assessment. Seller may collect any remaining unpaid liquidated damages assessment using the deposit described in paragraph 1 above.

Furthermore, the FGU may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.

Any buyer who fails to consummate a purchase for any reason will be banned from bidding at all future land auctions.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a minimal legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/ in the local tax collection unit in which the purchased property is located.

- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.
- iv. The party has not been banned or otherwise excluded by the FGU from participation in the public sale and is not owned or controlled by a person or entity that has been banned or excluded.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The FGU **will not issue a deed** and the sale will be canceled if the buyer or any party that the buyer seeks to list on the deed does not meet the eligibility requirements outlined in this section at the time the buyer's bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the FGU is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will be banned from participating at all future land auctions and the **buyer will be assessed liquidated damages in the amount of \$1000**. Seller may collect this liquidated damages assessment from any funds tendered by buyer prior to cancellation and may collect any remaining unpaid liquidated damages assessment using the deposit described in paragraph 1 above. Furthermore, the FGU may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

E. Sale to Entities

In order to ensure that individuals do not utilize legal entities to circumvent the sale and ownership restrictions contained in MCL 211.78m(2), the FGU will only sell property to legal entities under certain circumstances. Any buyer desiring to deed a purchased property to a legal entity must disclose the name and address of all officers, shareholders, partners, members, or other parties, regardless of title, who own any portion of that entity. However, such disclosure will not be required if one or more of the following exceptions are applicable:

- The Entity held a prior recorded interest in each purchased property.
- The Entity is a division, agency, or instrumentality of federal, state, or local government.
- The Entity is a Homeowners Association, Condo Association, or other such organization that exercises control over each purchased property.
- The Entity is a publicly traded company listed on a national securities exchange.
- The Entity is a nonprofit corporation and is qualified as tax exempt under IRC §501.

At the time payment is tendered after the auction, any buyer desiring to deed a purchased property to a legal entity will be required to execute an affidavit affirming, **under penalty of perjury**, that the entity is exempt from disclosure under one of the five exceptions listed above, or in the event that no exception is applicable, the names and addresses of all parties owning any portion of that legal entity.

F. Cancellation Policy

Prior to the issuance of a deed, the FGU has the right, in its sole discretion, to cancel any sale for any of the following reasons: transfer of the property at issue is stayed or enjoined by a court of competent jurisdiction; any of the reasons outlined in MCL 211.78m(9); the property at issue becomes the subject of litigation; a defect is discovered in the underlying foreclosure or sale procedures relating to the property at issue; any other reason authorized under these Rules and Regulations.

G. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, a **penalty of \$5/day (maximum \$200) applies**. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases during the checkout process. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as received by the FGU through tax foreclosure**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The FGU makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the FGU**. The buyer may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

7. Special Assessments

Special assessment installments through the most recent prior tax year are included in the starting bids. Seller has attempted to identify those parcels subject to special assessments with a note on the parcel detail page. Parcels sold are subject to property taxes for the entire current tax year, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

8. Possession of Property

A. Possession Pending Deed Delivery

It is recommended that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the Foreclosing Governmental Unit exercises their right to cancel the sale. Until the buyer pays for all purchases in full and receives a deed, no activities should be conducted

on the site other than:

I. Securing the Property

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property.** Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property.**

II. Assessing Potential Contamination

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at <https://www.michigan.gov/egle/about/organization/remediation-and-redevelopment/baseline-environmental-assessments>

B. Occupied Property

Buyers will be responsible for all procedures and legal requirements for conducting evictions. Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance. Buyers may not commence eviction proceedings until a deed to the applicable occupied property has been issued by the FGU.

9. Additional Conditions

The buyer accepts the premises in its present "as is" condition, and releases the Foreclosing Governmental Unit and employees and agents including the Auctioneer from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the Foreclosing Governmental Unit recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

10. Deeds

A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the FGU and deeds will be executed and recorded as required by law. The FGU will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.

B. Restrictive Covenants

Some counties sell properties with deed covenants that will attach to the property. These parcels will be noted online, along with the terms being required. **Please carefully review the information for each specific parcel to make sure you understand the terms of sale.**

11. Property Taxes & Other Fees

All property taxes and associated fees that have accrued on or after April 1 in the year that a property is auctioned must be paid **at the time of checkout** after the auction along with the final bid price, buyer's premium, and deed recording fee.

Furthermore, please understand that the **buyer is responsible for all other fees and liens that accrue against a property on or after April 1 in the year that a property is auctioned.** These items are not prorated. They include, but are not limited to, municipal utility or ordinance fees, and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses **are not collected at the auction** and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

12. Other

A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the FGU, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. The FGU and Auctioneer make no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

Mobile Homes may be titled separately and considered *personal property*. It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

B. Mineral Rights

You will receive any and all title that the FGU obtains via their tax foreclosure through a quit-claim deed. If the owner of the surface rights to the property also owned the mineral rights, those will become part of your title interest. However, this will be subject to the rights of any outstanding leaseholders of oil, gas, mineral or storage rights. You would be obligated to honor the balance of any remaining lease (with automatic renewals if so written). However, if the mineral rights have been severed (split from the surface rights) and are owned by a third party, they have not been foreclosed by the FGU and are not included in the mineral rights conveyed to you. In either instance, the leaseholder still has the right to explore for and/or extract minerals under the terms of any outstanding agreement.

C. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at www.tax-sale.info ("**Additional Terms**"). If such Additional Terms apply, they will be listed on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. Finally, additional conditions are included on the auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change and should be reviewed frequently.

NOTE: Please review the terms at the top of each online catalog and the addendum pages in the sale books for county-specific purchase terms. Failure to follow the specific rules posted for each county could result in cancellation of sale and/or the assessment of liquidated damages as provided by these Rules and Regulations.

800	<p>Parcel ID: 01-007-016-00; Legal Description: ASSYRIA TWP ALL THAT PART NE 1/4 NE 1/4 SEC 7-1-7 LYING N OF HIGHWAY. Comments: Two story home sits on approximately 0.05 acres. Located in the Hastings Area School District. Residential Land Use Code: 401. Unfortunately this house is in very poor condition and as a result has been condemned. As it sits it is dangerous and should be torn down. Walls are missing. Foundation is a mix of stone and block but there are areas sinking and crumbling. The roof has collapsed. There is debris surrounding the home. Third party stated there was no septic and the pipes just ran into the back yard. Also stated there was a church that ran their waste pipes to the same area. The lot is on the smaller side and is a triangular shape. Land consists of Developed low intensity. Mix of young and old trees. Ground slopes down from the road. Possible encroachment issues with a neighboring property to the West. The neighbors driveway crosses over a small section of the parcel to access Lacey Rd. Possible easement. Please do your due diligence before placing a bid. Additional Disclosures: 5; 66; 39; 36; 63; 34 (see key for full text)</p> <p>Summer Tax Due: \$82.51</p>	5959 LACEY RD BELLEVUE	\$1,650.00

Comments: Approximately 3.5 acres. Residential land use code: 401. Located in the Hastings Area School District. There is ~768 feet of road frontage along Whiskey Run Drive and ~89 feet along M-37. Land consists of woody wetlands, mixed forest and developed open space. There is a large pond on the property. Wet land indicators. This property appeared to be occupied on last visit. Please use caution and be respectful if visiting property in person. Power is still active. The mobile home has seen better days but is still in ok shape. The slab foundation needs some attention because the ground underneath it is eroding. The garage has a slab foundation as well. The garage is in ok shape as well. No major damage seen on the garage. There is a good amount of debris and garbage throughout the property. This property has a ton of potential. A fresh build would really make this place shine. The pond looks very usable and the mosquitoes weren't noticeable during May visit. If you're considering development, please contact the local planning or zoning department to inquire about building restrictions, such as minimum square footage requirements and other land use regulations. Approximately 380 feet of road frontage along W Pifer Rd and extends roughly ~483 feet deep. The land consists mostly of deciduous forest with some mixed trees and developed low intensity space. Wetland indicators to the North as you descend into the property. Easily traversable but terrain challenged. There is a great deal of debris throughout the property. It appears the former occupants were dumping their garbage. Lots of cans, old tires, metal scrap, and garbage. etc. This would be a really nice property if there weren't all of the debris. After cleaning up the property, this would be a great start to a new build. You could use the garage to store supplies while the house is being built. The garage is full of debris and the electrical has been harvested. Slab foundation looks good but there is a good amount of trees growing next to the building that will need to be removed before causing damage, if it hasn't occurred already. It appears the former owners own the neighboring property to the East. 1404	<p>Parcel ID: 04-340-032-00; Legal Description: BEDFORD TWP. MARY WOOD HILLS LOT 47. Comments: Approximately 0.39 acres. Located in the Pennfield School District. Residential Land Use Code: 401. House was built in 1967. Four bedroom 1.5 bathroom. This property was occupied on last visit but the residents are in the process of removing personal property and vacating the property. Building should be vacant and empty by the time of auction. The house appears to be in overall above average shape. Located in a nice neighborhood with well maintained properties. Close to St Mary's Lake. Concrete driveway is in good shape with some cracks. Leads to an attached two car garage. Pad looks good inside the garage. Metal and brick exterior on the home is in decent shape. Could use a wash. Shingled roof is older and has some slight debris build up but looks good overall. Some wood rot along the fascia/soffit area. Basement walk out on the back of the home. Concrete pad back porch. Electric meter and gas meter still hooked up and appear active. AC unit on side of home. The former resident had multiple cats living in the home and there is an odor. Carpets should probably be removed in order to clean and remove smell. Some sections of the home have the original hardwood floors visible and they are in good shape. Furnace and water heater are still in the basement. Older breaker panel. Floor joists and poured concrete foundation look great. This home looks like it was cared for and maintained well. We don't see too many like these at the auctions. Nice open grassy front and back yard with trees scattered. The backyard is partially fenced in but the fence needs repairs. There is a good amount of vegetation debris on the West border of the lot. This house could be considered move in ready but it should probably be renovated and cleaned up a bit. This is a nice one, don't miss out! Please do your due diligence before placing a bid. Residential Land Use Code: 401. Road access on both N Robin Ave and Michigan Ave. Concrete driveway entrance on both Streets. Large grassy yard with a good amount of trees. There are trees along the West, North and East borders of the property. Built in 1955. Three bedroom two bathroom. The house looks to be in overall good condition and the exterior of the property was being maintained. The property had a dumpster parked in the driveway on last visit. It appears there was a clean up operation recently. The interior of the home has been emptied and mostly cleaned out. Just a few small bits of debris here and there. We don't see to many properties like this. The house looks like it only needs a good cleaning before it would be move in ready. Electric and gas meter still hooked up and appear active. The furnace and water heater are still present and looked to be in good shape but the working condition is unknown. There is an under ground pump well with a pressure tank in the basement. Water softener. The concrete driveways are in immaculate shape and have poured concrete walls along the sides. Nice steps built into the concrete. Attached two car garage in good shape. Garage doors looked functional. There are three bedrooms of decent size on the main floor. The basement is partially finished. Small amount of mold in the basement but nothing major. Fireplace on both floors. The bathroom on the main floor is in decent shape but needs a new floor and the tub needs a new coating. Wood floor through most of the home are in very conditions. Some areas would clean up easy others need to be refinished. Large grassy yard wraps around the home and offers plenty of space. There is a sun room addition built on the side of the home. Foundation looks solid. Shingled roof looks fairly recent. Gutters look fine. Nice stone work on the exterior. There's not a whole lot to say about this one because its in good shape. After a bit of TLC this house would be in great shape. Don't miss out on this one. Comments: Approximately 0.53 acres. Located in the Battle Creek Public School District. Commercial Land Use Code: 201. Approximately 184 feet of road frontage along W Michigan Ave and ~200 feet along N Gardner. There are two entrances along Michigan Ave and another large entrance along Gardener. The building was constructed in 1950. Large concrete parking lot offers a good amount of parking space. Plenty of visibility from the road. Open grassy area behind the building. There are some trailers parked on the North West corner of the property but they may belong to the adjacent neighbor. The building appears to have been a Pizzeria that closed in 2019. The building needs repairs but it doesn't look to be in terrible shape. Block foundation looks decent but there are some areas that need attention. One of the gutters rusted out on the back of the building and there is some deterioration where water was running against block. Some areas where the mortar is crumbling. Two commercial doors on the front of the building. Unable to access the interior. It appears to be emptied out. It is dirty but doesn't look trashed. The front facade roof is damaged in multiple areas. Didn't see any leaks from the main flat roof directly over the building but was only able to see in from the front windows. Gas and electric meter removed. Large HVAC system on the roof. Some of the glass windows and doors are broken. The building will no doubt require some work to get it back in good usable condition but there is a lot of potential here. The extra side yard next to the building gives you lot of options with what type of business could go here. Add a playground and this would be a cool spot to get ice cream with the kids. Located in the Tekonsha Community School District. Commercial Land Use Code: 201. Approximately 23 feet of road frontage along N Main St. Unfortunately this building is in very poor condition and as a result has been condemned. Please contact the local zoning/planning department for details on damage and required repairs. This building shares walls with the two adjacent building North and South. There is a second story but the legal description states that the 2nd story of the building is excluded from the property. Appears to have been a beauty shop in the past. There is salon equipment still in the store. There is personal property throughout the main floor and basement as well. The roof has most likely failed. Ceilings have collapsed. The floors are swelling and buckling. The entire main floor and the basement is completely soaked and covered in mold. You can smell the mold from the sidewalk. Furnace and water heater still present but are rusty and wet. There is a 100 amp breaker panel that was covered in water. Older fuse boxes along the wall as well. The floor joists do not look good in the basement. Most of the wood is black and looks wet. There is a wheel chair accessible ramp on the back of the home. Electric meter has been removed. Gas meter still present. Some of the windows have been boarded. Two bedroom 1.5 bathroom. This building is going to require a great deal of work in order to get it back into good usable condition. Located in the Marshall Public School District. Industrial Land Use Code: 301. Building was built in 1997. Appears to have been a large "plant" growing facility. This is a massive commercial building with an approximate total floor area of 28,592 Sq.Ft. Along industrial Blvd are multiple office rooms and bathrooms where management appeared to work. As you travel East through the building it turns into commercial growing and drying rooms. The office section of the building is in decent shape but there are sections of the ceiling that have collapsed. Most likely from animals. Unfortunately the building has had break ins and many of the copper components have been harvested. Electrical systems are in disrepair. There are sections of the building with water damage and there is mold forming. There is a good amount of left over personal property and debris all throughout the building. Hundreds of light ballasts, thousands of planter pots, office supplies, storage tanks, etc. The property has a massive paved parking area that has road entranced on both Industrial Blvd and Burstein Dr. The building has six garage doors for semi trailers to back up and unload. There are also three extra tall garage doors for tall vehicles to enter. This building has been retrofitted to serve a marijuana business but it has the attributes to serve other types of businesses as well. A lot of money and effort went into this building but it has been neglected and misused recently. The bones of the building appear to be sound but this is a massive building it needs a lot of work. Located in the Marshall Public School District. Residential Land Use Code: 401. The house was built in 1928. Four bedrooms one and a half bathroom. The house is in overall average shape but it does need some work. Multiple broken windows. Some have been boarded. Not animal damaged yet but if it stays open there could be some by the time of auction. Block foundation looks solid and has upgraded blocks. Wood siding needs repairs and a fresh coat of paint. House is painted blue on the back side. There is some wood rot on the soffit/fascia area. Shingled roof is older with one side having a good amount of debris build up. Gutters look ok. The roof above the front porch needs work. Two track gravel driveway leads to a once car garage. The roof on the garage needs to be replaced. Wood siding needs some repairs as well. Both doors on the garage are busted in. Partially fenced in back yard. Open and grassy with shade from a few trees. Some debris behind and on the side of home. Paved patio. The interior of the home still has a good amount of personal property and debris. Four bedrooms and one bathroom on second story. There is a half bath you need to walk through in order to access the basement. The basement felt a bit damp and there is mildew forming. I think the open windows have saved the house from being overrun by mold. Furnace and water heater still present. Water heater is rusted out. Electric meter hooked up but gas meter has been removed. Built in 1938. Two bedroom one bathroom. This is an interesting one because its a nice house that looks like it was being well maintained but there are signs of mold forming and the basement felt damp. A third party stated the water was not turned off and the pipes froze over winter. This could be the residual water still in the house slowing causing the mold to form. The floor joists and subflooring look mostly fine in the basement but one side is showing mildew. Unknown how much damage to the wood has occurred. The house is mostly cleared out and is fairly clean. Some one cared for this house. Block foundation looks solid. Furnace and water heater both present. Mostly copper pipes. Feels like the original wood floors are popping up under the carpet in one of the bedrooms. There is mold forming in the living room, bathroom, and one of the bedrooms. There is not a ton of it but some of these rooms will need to be gutted to the studs to remediate. Concrete driveway leads to an attached one car garage. Shingled roof looks good. Gutters are nice. Vinyl siding in good shape. Breaker panel in the garage looks good. There are a lot of nice things to say about this house but the water damage puts a damper on things. The building should be remediated and renovated. Some work will be involved but there a lot of potential here. Located in a well maintained neighborhood. Small grassy front and back yard. 1454	<p>Parcel ID: 6030-00-194-0; Legal Description: NORTH WASHINGTON HEIGHTS LOT 193. Comments: Approximately 0.20 acres. Located in the Battle Creek Public School District. Residential Land Use Code: 401. Built in 1940. Four bedroom one. Unfortunately this house has been sitting for some time now and has not been maintained. The roof has failed in multiple locations and there is animal damage all throughout the home. Multiple holes in the ceiling and roof where animals are coming and going. Wood rot along window frames. Roofed side porch area. Some broken windows. Overgrown vegetation covers a good portion of the home. Its sad because at one time this house must have been something to see. It sits on a high spot on the hill built up from the road. There is a driveway behind the home that leads to the adjacent property. Its possible the former owners owned both lots and it went to a garage that's no longer there. There is a driveway on Northside Dr that leads to this properties driveway but it appears to be private property. However street parking is available. Some of the floors feel a bit soft. Mix of wood, carpet, tile and linoleum. Most of the house has been cleared out but there is a good amount of debris in the basement. Water heater and furnace still present. There's potential here but its going to require major repairs and renovations. Its a shame because I can tell this was a cool house back in the day. It deserves to be fixed up and renovated. In an area surrounded by well maintain properties. Please do your due diligence before placing a bid. Built in 1920. Three bedrooms one bathroom. This house is in below average shape but it has some potential. Stone foundation has some cracking that will need to be addressed. Some of the floors are uneven and feel a bit soft. The house is full of debris and personal property. Some evidence of squatters. Some of the windows and the back entrance have been boarded. Small amount of fire damage on the main floor. Looks like a candle was to close to the wall. The bathroom is in poor shape and needs a repairs and renovations. Furnace and water heater are still present. Unknown condition. Basement it full of debris, difficult to move around. Break panel looks good. There is a junction box on the exterior of the home that looks like it was harvested but this is the only piece of the property visible harvested. Good amount of debris and garbage on the back porch in the back yard. Street parking. Small grassy backyard with a couple trees. Shingled roof looks fairly recent but there are branches from nearby trees rubbing against the home. These need to be trimmed back before damage occurs. Gas and electric meter have been removed. Some animal damage inside the home but it hasn't gotten too bad yet. This would be a great fixer upper for someone that's handy. Its going to need some work but there's potential here. This property was occupied on last visit. Please use caution and be respectful if visiting property in person. The gas and electric meter have been removed but there were fans on in the window. The eviction process has started. Unknown if the property will be occupied by the time of auction. Built in 1910. Two bedroom two bathroom. The house looks like its going to need some work from the exterior inspection only. Old stone foundation has cracks and is missing mortar. Vinyl siding is in decent shape but there is a section covered in overgrown vegetation. The major concern is the failing roof. No holes were seen but there are missing shingles and repairs need to be done before water damage occurs if it hasn't already. Some damage to the top of the chimney. Gravel driveway leads to a large two story storage garage behind the home. The back of the property borders a playground. There is a good amount of debris and personal property in the back yard and inside the garage. I assume the house will be similar. There is debris on the front porch as well. Located in the Battle Creek Public School District. Residential Land Use Code: 401. House was built in 1950. Three bedroom one bathroom. The house appears to be in overall good shape. The interior of the home was empty and it looked like the former residents cleaned before they left. The two bedrooms on the main floor have carpet and it was vacuumed before they left. Bathroom on main floor in good shape. Just needs a clean. Most of the house has wood floors that are in pretty decent shape. The second story has three rooms but should only be considered one bedroom. There is a lot of space on the second floor and has a cabin vibe with all the wood work. The basement is mostly unfinished but is sectioned off. Furnace and water still present. Furnace was last inspected in 2024 and had the pilot light cleaned and new gas valve installed. There is a concrete stairwell on the rear of the home that allows access to the basement. 100 amp breaker is located in the attached one car garage. The garage has some debris in it but is mostly cleaned out. Kitchen is in good shape. Living room has a fireplace. Block foundation looks solid. Shingled roof looks fairly recent. Gutters in good shape. Large grassy back yard with trees. The back yard is chain link and 6' privacy fenced in. There is a small shed in nice condition in the back yard. Large pile of wood that looks like it was meant to be firewood. Two rider lawn mowers are parked in the yard as well. Concrete sidewalk leads to the back of the yard from the rear entrance of the home. This is a nice property and someone cared for it. It looks like it was well maintained but the grass is overgrown now. A bit of TLC would go a long way with this one. Its basically move in ready. Residential Land Use Code: 401. Unfortunately the main house is in very poor shape. Nearly all the windows are broken. There is mold forming. Debris and garbage all throughout the home. Some debris surrounds the exterior of the home as well. This is a dangerous building as it sits. The floors felt soft when entering. A large section of the floor has caved into the basement. The block foundation looks good from the outside but there are a great number of trees growing directly against the foundation. Most likely caused structural and foundation issues in the basement causing the floor collapse. Did not access basement do to safety issues. Electric and gas meter removed. The house will most likely be total loss. There is a small outbuilding located on the property. The building is in poor shape with a multiple holes in the roof. There are holes in the floor as well. There is a basement in this building with lots of debris. It looks like someone has been camping/squatting at the property but have left. The real winner here is the land itself. It consists of open grassy space with mixed trees and light vegetation. Thicker wooded area on the North section of the property which reaches the lake. Terrain is mostly flat but gradually starts to slope down as you go farther towards the lake. There are many small mobile pads with some having water hookups. There were 9 visible but there could be many more. A neighbor came out to talk and said this property was built by a company to house their employees while working at the factory. This place was probably something to look at back in the day. There are two drives that enter the property that connect in the middle twice. There is a small shed near the roadside. There are two small cottages farther North that are in poor shape. Pile of debris near the cottages. They appear to have been vacant for a long time and have trees and vegetation growing up over them. Propane tank still present. the buildings have been harvested. Broken windows. Trees along the foundations for both buildings. These structures are going to require a great deal of work to get them back into good living condition. It might make more sense to demo and rebuild. Comments: Approximately ~0.8 acres. Located in the Three Rivers Community School District. Residential Land Use Code: 401. Approximately 165 feet of road frontage along M-216 and extends roughly ~210 feet . The land consists of open grassy space around the home with plenty of trees mixed in that offer ample shade. The house looks pretty nice from the exterior but the inside needs some work. Block foundation looks solid where visible but there is evidence of animal borrows on the property. Overgrown vegetation around a good amount of the home and garage. Vinyl siding needs some minor repairs and wash. Shingled roof looks good but there is debris building up. The gutters need to be cleaned out and few need to be repaired. Paved driveway leads to a detached one car garage that is missing the garage door. The garage is in average shape. Poured slab with block on the walls. There are animal borrows around the garage. The house has been cleared out for the most part but there is still some debris and personal property. There is evidence of a leak on the second story ceiling but that could have been before the new roof. Two bedroom one bath on main floor with an additional room on the second floor. Walk out porch on one of the rooms. The basement is the major issue here. There is mold and it was very damp on last visit. Evidence of animals getting in. The breaker box has been harvested but the wires are mostly untouched. Electric baseboard heating. Water heater still present. There was a surface pump but it has been taken. Electric meter still hooked up. This house is going to require some work especially remediating the mold in the basement but there's potential here. Nice little spot tucked in the trees. Located in the Three Rivers Community School District. Residential Land Use Code: 401. Approximately 119 feet of road frontage along N Main Street and extends ~224 feet deep. The land consists of open grassy space with mixed trees. The house was built in 1960. Forced Air. Three bedroom one bathroom. This house is going to need some repairs and renovations but the bones feel solid. There is a good amount of personal property and debris all throughout the home and the garage. Some debris has spilled outside of the home and is mostly in the backyard. There is some damage to the enclosed front entrance. It looks like a limb must have fallen on this section of roof and snapped out the soffit/fascia area. There are other areas of the home that needs soffit/fascia work. The gutters are all full and need to be cleaned out. Block foundation looks pretty solid. Some cracks seen around the mortar. Vinyl siding looks nice. Furnace and water heater still present. Water heater looks rusted out though. Surface pump and pressure tank in the basement with water softener. Unknown condition. 100 amp breaker panel looks good. Basement is full of personal property. The house has a smell to it and will need a deep cleaning after the debris is removed. The garage with shed built onto the back is in below average shape. All the paint has pealed off the wood siding. The slab has some cracks but its still usable. Electric and gas meter still hooked but are disconnected. Two bedrooms on main floor with a larger one bedroom on the second floor. There was evidence of a leak on the second story but looks minimal so could be from a former roof. Additional Disclosures Key

5: One or more buildings on this parcel has a roof which is either leaking to the interior or appears close to failure. Failing roofs often indicate substantial structural decay inside the building. You should investigate the integrity of this structure(s) prior to bidding.

6: This property is **occupied**. Please respect the privacy of current occupants and limit any inspection to what can be **safely observed from the road**. Some occupants may be upset or angry and may meet contact with aggression or violence. **Please use discretion and caution when researching this or other occupied properties**. Furthermore, although this property has been foreclosed for unpaid taxes, occupants have certain rights under Michigan law and must be formally evicted if unwilling to leave voluntarily. You may wish to consult a licensed attorney for more information.

7: This parcel does not front on a public or privately deeded improved road. Often times there are easements in the recorded chain-of-title that provide legal access to such parcels but other times there are not. You should thoroughly research this parcel's access rights prior to bidding. It can require expensive, complicated, and time consuming legal proceedings to secure legal access to landlocked parcels that do not have easements for ingress and egress.

9: This parcel is too small to be practically useful under most circumstances. Many times such parcels are the result of survey or property transfer errors which create small orphaned slivers of land. These parcels are frequently too small to allow construction or any other practical use. They often have no road frontage or legal means of access. These parcels can often lead to **adverse claims or encroachments by neighboring land owners** which can be complicated legal issues to resolve. Please investigate this parcel thoroughly prior to bidding.

11: This parcel includes structures which have been damaged by fire. It is up to the auction purchaser to determine if this property can be restored to a safe condition and to comply with all relevant local regulations and building codes. Please research thoroughly prior to bidding.

12: This parcel may contain buried storage tanks from previous use as a gas station or similar enterprise. Our analysis is based **solely on visual inspection** of the property surface as further detailed in the lot description. The State of Michigan may require a new owner to remove any remaining tanks and remediate environmental concerns at their sole expense. The State of Michigan provides additional [information about underground storage tanks](#). The Michigan Department of Environment, Great Lakes, and Energy also maintains an interactive mapping tool: the [EGLE RIDE Mapper](#) which tracks known environmental contamination sites. Please note that this tool only reflects sites which are currently known to the state and may not definitely indicate the absence of buried tanks on this parcel. You should conduct careful and thorough research prior to bidding on this parcel.

13: A visual inspection of this parcel indicates **potential environmental contamination**. Visual indicators can include things like used tires, dirty soils, or chemically intensive former uses such as dry cleaning. Prospective bidders should carefully research the condition of this property prior to bidding. You may want to contact the Michigan Department of Environment, Great Lakes, and Energy (EGLE) or other relevant state agencies for additional guidance. EGLE maintains an interactive mapping tool which tracks known environmental contamination sites, see the [EGLE RIDE Mapper](#) for more details. Please note that this tool only reflects sites which are currently known to the state and may not definitely indicate the absence of contamination on this parcel. Purchasers are strongly advised to obtain a **Baseline Environmental Assessment (BEA)**. Some basic information about BEAs can be found by visiting the [EGLE Baseline Environmental Assessments](#) website. All sales are made as/is where/is without any representations or warranties. It is the sole responsibility of the purchaser to identify and appropriately handle any environmental contamination that may exist. Please do all necessary research before the auction.

17: Mobile homes (and some modular homes) can be separately titled and considered personal property. In these instances, there may be third parties that have the legal right to remove that mobile home from the parcel whether or not it has been assessed as part of the property in the past. We make no representations or warranties as to whether such mobile or modular homes are included with the real property offered for sale. It is the buyer's responsibility to conduct their own research as to the state of title. As a preliminary step, it may be useful to determine if an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in [MCL 125.2330j](#). You may wish to consult a licensed attorney or title company to assist in this research.

18: The building on this property appears to have been used for multi-family occupancy in the past based upon indicators such as multiple mailboxes, entrances, numbering, layout, or other such factors. Modifications to the property may NOT have been legally made and may NOT conform to local zoning. Prospective bidders should verify with local officials that multi-family use is permitted under existing zoning. In many areas, once a multi-family use has been discontinued, it cannot be reinstated unless in conformance with local zoning and code.

21: This parcel appears to contain "personal property" that may be of value. Property tax foreclosure affects **only "real property."** In general, real property includes the land and those things physically attached to it. **This sale includes only such real property.** However, some parcels also contain personal property such as cars, furniture, clothing, and other things which aren't physically attached to the land. Such **personal property is not included as part of this sale**. It is strongly suggested that the purchaser of this parcel contact the former owner and provide them the opportunity to remove this personal property before disposing of it. Minimum reasonable steps could include sending a letter by certified and first class mail to the former owner at their last known address. However, it is the responsibility of the winning bidder to determine what personal property is present on the parcel and the appropriate measures for handling such personal property.

22: This parcel has substantial structural issues caused by poor design, insufficient maintenance, or both. Such buildings may be subject to condemnation orders which we were unable to locate during our inspection. All such buildings should be brought into compliance with local building regulations prior to use. We **strongly** recommend that you contact the local building code official and consider consulting a competent structural engineer to assess the condition of this property

before to bidding.

23: This parcel is located within a municipality which monitors property maintenance and condition. You may be assessed fees and fines if you fail to mow the grass or do not otherwise properly maintain the property after purchase. One advantage to these parcels is that they typically have infrastructure nearby (water, sewer, power). However, you should confirm the availability of such utilities as well as the connection costs prior to bidding. It is your responsibility to determine whether a parcel is suitable for your desired purpose.

26: This parcel appears to be located within a flood plain based upon our visual inspection. However, this has not been verified through additional research. You should be aware of the possibility for flooding and should consult available groundwater and flood data prior to bidding.

30: This parcel may be subject to utility, road, driveway right-of-way, or other easements which could allow third parties access to the property. Easements are not extinguished by tax foreclosure and foreclosed parcels are sold subject to these preexisting rights, if any. You should conduct your own investigation into the existence of any such easements prior to bidding.

31: This parcel has been posted as "Condemned" by the local building authority. Properties are generally condemned when they are deemed substandard, unsafe, or otherwise unfit for use and habitation. Condemned property **must** be rehabilitated to meet local building codes **prior to use or occupancy**. A building is not automatically slated for demolition when condemned. However, this does not necessarily mean that demolition will not also be pursued by the local unit. Please check with the local building official before bidding to determine the specific status and requirements for this property.

32: This building contains evidence of **mold**. Mold is an indication of excess moisture which can come from a variety of sources including high ground water, improper sealing of foundation walls, damaged roofs, and other conditions which can be expensive to correct. Mold can pose significant health risks and, if extensive, may require a complete renovation which could exceed the value of the building. Please conduct your own research and bid accordingly.

33: The interior of this property was not viewed during our inspection. Buildings which are dangerous, occupied, boarded, condemned, or otherwise difficult to enter are inspected from the exterior/curbside only. You are NOT authorized to enter these or any other buildings offered for sale. You should limit your inspection to that which can be made safely from the building's exterior.

34: The foundation of one or more buildings located on this parcel appears to be failing. Correcting foundation issues can be very expensive and issues are often more complex than they initially appear. You should research this issue thoroughly prior to bidding on this parcel.

36: This parcel includes a structure which should be considered **DANGEROUS**. This building has suffered structural damage which creates substantial risk of harm from falling through damaged areas or collapse from above. It may also contain extensive debris which could fall or collapse, rusty nails, broken glass, and other hazards. **You are not permitted to enter this or any other structure offered at tax sale. You should limit your inspection only to what can be safely observed from the building's exterior.** Trespassers are subject to prosecution.

39: This parcel appears that it may be subject to encroachments or may encroach on neighboring property. This assessment is based upon our visual inspection. Not everyone is a surveyor and sometimes buildings, roads, septic systems, wells, or other improvements are built across property lines and may lie partially or wholly upon neighboring parcels. Please consider a survey and conduct thorough research before bidding on this parcel. All property is sold "as-is, where-is" without warranty based upon the assessed legal description.

41: This parcel has surface water, soil, or vegetation conditions indicating that it may include wetland habitat. Such habitat may comprise all or part of the parcel's area. However, it is possible that this parcel contains buildable areas as well. There are many environmental and building regulations related to wetlands which you should consult before bidding on this parcel. The Michigan Department of Environment, Great Lakes, and Energy maintains a [Wetland Map Viewer](#) which provides easy access to wetland data. It is your responsibility to determine if this parcel is suitable for your desired use.

42: Our review of this parcel indicates that the noted State Equalized Value (SEV) does not appear to reflect the current value of the property. This is often due to buildings or other improvements being demolished or fire damaged or other similar items included in the SEV being removed from the property. It can also be due to market changes in the area in which the property is located. It should be further noted that the SEV/assessed value of the parcel as noted in this listing may be several years old. You should consult a local real estate professional or appraiser to help you assess the current market value of this property before bidding and **should not base your valuation on the stated SEV**.

45: Our inspectors encountered aggressive dogs in the vicinity of this parcel. Please **exercise caution** if you choose to assess this property in person.

46: One or more structures was boarded when we conducted our assessment of this parcel. Properties may be boarded for a variety of reasons. For example, properties are often boarded to prevent trespassers from harvesting copper plumbing, wiring, and other fixtures. Buildings may also be boarded by fire or other officials when they present a safety hazard. We generally do not enter boarded structures and limit our observations to the building's exterior. Likewise, you should limit any inspection of this property to its exterior **only**. You are not permitted to remove any boarding to view building interiors under any circumstances. Public property records or polite inquiries to neighbors may reveal additional information about a property's history.

47: This property has been subject to vandalism by former occupants or other parties. Typical damage includes broken windows, holes in walls, broken doors and doorjamb, and other damage which can add to the cost of repair and rehabilitation. You should conduct your own research prior to bidding on this parcel.

48: This parcel appears to have been subject to harvesting of electrical, plumbing, mechanical systems, or other building

components. Buildings are sometimes targeted by criminals that steal or "harvest" items such as copper plumbing, wiring, furnaces, water heaters, fixtures, hardwood flooring, etc. This building should be considered incomplete due to such harvesting and may require substantial investment to reequip.

49: This parcel appears to have challenging terrain. Challenging terrain can include steep hillsides, ravines, gullies, or similar topographical features as well as little to no buildable area. Such parcels often have no practical use. You should investigate this parcel's terrain and suitability for your desired purpose prior to bidding.

50: The previous owner of this parcel undertook a construction or rehabilitation project which has not been completed. We have attempted to describe the degree to which the project has been finished, but the building should be considered incomplete nonetheless. The local building code enforcement official may be able to offer additional insight as to why the project was never completed.

62: This parcel appears to include an area where a mobile home was previously located. Such mobile home pads will frequently include well/water and septic/sewer connections as well as power hookups. However, local zoning regulations may prohibit placing a new mobile home on this site despite the fact that one was previously located here. Please check local zoning regulations carefully prior to bidding. We make no representations or warranties as to the suitability of this parcel for any purpose.

63: Pet and/or wild animal waste was observed within this property. Potential bidders should consider that urine stains/odors can be difficult to remove from porous surfaces such as wood floors or underlayment.

64: The structure(s) on this parcel have been slated for **demolition** by the local unit of government prior to sale. As such, it is being presented here as a vacant lot. You should confirm the status of this parcel as well as the allocation of the cost of demolition prior to bidding.

65: A visual inspection indicated that this parcel **may** contain asbestos in the form of insulation on piping, boilers, or other structural components. However, no formal testing was conducted and the presence of asbestos has not been confirmed. There are other insulation products that are similar in appearance. According to the U.S. Environmental Protection Agency, asbestos is not likely to cause significant health risk when left undisturbed. See this [EPA asbestos publication](#) for additional information. It is the responsibility of the winning bidder to take proper safety precautions and conduct testing and/or removal efforts if deemed appropriate.

66: This property is unsanitary and poses a potential health hazard because of raw food garbage, backed up sewer lines, or other similar waste. Such conditions can attract rodents, wild animals, and other vermin. You should bid accordingly and be prepared to mitigate the situation immediately upon purchase.

67: We have reason to believe that this property was last owned (and may still be occupied or monitored) by someone that does not recognize the right of the government to tax or foreclose upon their property. Be advised that this former owner may be potentially volatile or aggressive. We strongly advise that you limit any inspection of this property to what can be safely observed from a distance and to avoid contact with the former owner.
