Due to COVID-19 restrictions, all auctions will take place online-only this year.
There are TWO ways to place your bids:

ONLINE VIA OUR WEBSITE

ABSENTEE BID

(Absentee bids are for those who do not have computer access)

For **registered users**, our website features:

- **Photos** and detailed descriptions of properties (where available)
- **Faster check-in/out** with pre-registration online
- **GPS/GIS** location of the property
- **Maps** of the property vicinity (where available)
- **Google Earth links** to satellite images of the area, and street views of the property and neighborhood (where available)
- **Save properties** to your personalized “favorites” list

With delayed foreclosure dates this year, we have a very short window to review several thousand parcels. We began inspecting in July, and add data as we get to each parcel. Please be patient and **check back often as the auction date approaches** for updates. Parcels are sold "as is" based on the assessed legal description only. All other information in this salebook or listed on our website, though reliable to the best of our knowledge, is provided as unverified reference and is not guaranteed to be accurate. You should verify this information with your own research and investigation prior to bidding.

Visiting and viewing property BEFORE auction:

The auction list being furnished is of property that **MAY** be offered. *Many parcels on early lists do not actually proceed to the auction for a variety of reasons.* PLEASE FOLLOW PROPERTIES YOU ARE INTERESTED IN ON THE WEBSITE. They may be removed from the list, which is updated *daily* on the website if the status is changed. If you do not use the internet, please verify current status with the Treasurer's office regularly.

You are NOT AUTHORIZED to enter any buildings, even if they are unlocked or open to access. Entering into a tax auction property to "see it" is **breaking and entering. It is a criminal offense.** Please limit your review to looking through the windows and other external inspection. We will post exterior and interior photos, and provide other commentary as available.

Entering properties (even vacant land) can be dangerous because of condition. **You assume all liability for injuries and other damage** if you go onto these lands.

Properties may be **OCCUPIED** or "being watched" by former owners or neighbors sympathetic with former owners. Occupants are often UNKNOWN and could potentially be volatile, unstable or "anti- government" persons. Even vacant land presents potential for conflict.

Some properties still contain the **personal property** of former owners (vehicles, furnishings, appliances etc). These items are **NOT SOLD** at our auction. We are only selling the **REAL ESTATE (land)** and whatever is **attached** to it (land, buildings and fixtures).

- **You are NOT AUTHORIZED to remove ANY "personal" property, "scrap" metal or fixtures from auction parcels. This is THEFT AND WILL BE PROSECUTED.** We often ask neighbors to watch property for theft and vandalism and report this to local police. ***You have been warned...***
- **PROPERTY IS SOLD "AS IS" IN EVERY RESPECT.** Please check zoning, building code violation records, property boundaries, condition of buildings and all local records.
- **THERE ARE NO REFUNDS AND NO SALE CANCELLATIONS AT BUYERS OPTION.**
- **INFORMATION OFFERED ON THE WEBSITE OR IN THE SALE BOOK IS DEEMED RELIABLE BUT IS NOT GUARANTEED.** We suggest reviewing the records of the local ASSESSORS office to be sure that what we are selling is what you think it is. ***We sell by the LEGAL DESCRIPTION ONLY.***
- **YOU SHOULD CONSIDER OBTAINING PROFESSIONAL ASSISTANCE** from land surveyors, property inspection companies or others if you have questions about property attributes.

PLEASE REMEMBER that property lists can change up to the day-of-auction.

PAYING FOR YOUR AUCTION PURCHASES

- **The full purchase price must be paid in full within 5 business days of the sale.** No purchases can be made on a time-payment plan.
- **NO CASH or PERSONAL CHECKS** will be accepted.
- All payments must be made with a **Credit/Debit Card, Wire Transfer, or by CERTIFIED (cashier's) check.**
- Your sale is NOT final until we've received both your payment and your notarized receipt/buyer's affidavit paperwork. This is due 5 business days from the date of the sale.
- When mailing in your paperwork (especially with a certified check), please use a TRACKABLE service like priority mail or FedEx to ensure timely delivery.

Bidding Authorization

- Online and absentee bidding requires a **\$1,000 pre-authorization hold** on a Visa, MasterCard, or Discover credit card or a \$1,000 certified funds deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.
 - *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

Absentee bidding

If you do not have internet access, **you can submit an absentee bid by e-mailing or calling us.** You will still need to pre-authorize a \$1000 deposit on a major credit card (or mail in a \$1000 certified check deposit). Contact us at 1-800-259-7470 for more information. *Your card is not charged unless you win, however the hold may reduce your available credit until it is released by your credit card issuer (usually 30 days).*

Rules and Regulations

1. Registration

Registration for live on-site auctions will begin 30 minutes before the stated start time unless otherwise noted. No bids will be accepted unless the bidder has registered and received a pre-numbered bid card. A Driver's license, passport, or other state issued I.D. must be presented in order to receive a bid card.

2. Properties Offered

A. Overview

"**Foreclosing Governmental Unit**" ("FGU") is a term used by the Michigan tax foreclosure statute and is typically the office of the County Treasurer in the county where the offered property is located. However, in some instances the FGU is the State of Michigan Department of Treasury.

Unless otherwise noted, the "Seller" is the County Treasurer, acting as the "FGU". The Auctioneer is Title Check, LLC acting as the authorized agent of the Seller/FGU.

The attached list of parcels has been approved for sale at public auction and each is identified by a sale unit number. The Seller reserves the right to pull parcels from the sale at any time prior to the auction.

According to state statutes, **ALL PRIOR** liens (other than certain DEQ liens and other limited exceptions), encumbrances and taxes **are cancelled** by Circuit Court Order. The FGU has attempted to include in the minimum bid, liens that have accrued since foreclosure, such as nuisance or water bills; **all other outstanding bills since foreclosure are the responsibility of the buyer**. These properties are subject to any state, county, or local zoning or building ordinances. The FGU does not guarantee the usability or access to any of these lands.

B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to do THEIR OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The FGU and the Auctioneer make no warranty, guaranty, or representation of any kind concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition regarding any parcel offered for sale.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the FGU. Some structures may be occupied and occupants should not be disturbed.

C. Reservations

At the sole option of the FGU, a reverter clause may be included in any deed issued to a winning bidder which prohibits the future severing of mineral rights (if any) and/or splitting/subdividing any purchased property into smaller parcels which do not meet local zoning rules or otherwise comply with applicable regulations relating to the splitting of property. If such a reverter clause is included, a violation thereof will result the property reverting to the FGU without refund.

Pursuant to state statutes, where the State of Michigan Department of Treasury is acting as Seller/FGU, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the State may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the State does not reserve mineral rights as described above, the State may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

3. Bidding

A. Overview

Generally, each sale unit will be offered separately and in the order appearing on the attached list. Sales are typically conducted both online and live on-site, simultaneously. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid by either method. Typically, the Auctioneer will make available a list of parcels prior-to-sale and will provide an opportunity for on-site bidders to designate "parcels of interest" prior to the start of the sale. The Auctioneer may skip over those parcels upon which no party has placed an online bid or designated as a parcel of interest prior to the start of the sale or during the process of live-bidding. The Auctioneer may offer a second request round of unsold parcels to be offered at the same opening bid after the first round of bidding has been completed. Such second request round will be available to those online and on-site bidders as may be in attendance at that time.

B. Starting Bid Price

The starting bid prices are shown on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the FGU.

However, any person who held an interest in a property offered for sale at the time a judgment of foreclosure was entered against such property **must pay at least minimum bid** for such property even if purchased at a no-minimum auction.

C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

Floor bidders MUST bid in the same increments as online and absentee bidders. **We will not accept irregular bid increments** in fairness to online and absentee bidders.

D. Eligible Bidders

Any person who meets the following requirements may register as a bidder and receive a pre-numbered bid card:

- The person does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4I of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4I, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the FGU from participation in the public sale.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

E. Absentee Bidding

Absentee bids will be accepted in increments up to the amount that you pre-approve. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470. An absentee bid form is also available on www.tax-sale.info. Additionally, absentee bids may be submitted up until one hour before the sale if submitted online.

F. Online Bidding

On-line bidding will be available on the day of the auction at www.tax-sale.info unless otherwise indicated. An auction may be conducted entirely online as determined by the FGU.

G. Bids are Binding

An oral and/or live bid accepted at public auction or placed online through www.tax-sale.info is a legal and binding contract to purchase. The FGU reserves the right to reject any or all bids.

H. Limitations on Bidding

The FGU and Auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group or bidders for any reason.

I. Attempts to Bypass These Rules and Regulations

The FGU and Auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

4. Terms of Sale

A. Payment

- **Live On-Site Bidders**
 - **The full purchase price must be paid in full on the day of the sale, within half an hour of the end of the Auction.** No purchases can be made on a time-payment plan.
 - **NO CASH** will be accepted.
 - If the total purchase price is **less than \$1,000.00**, full payment may be made by certified check, personal check, money order, Visa, MasterCard, or Discover.
 - If the total purchase price is **greater than \$1,000.00**, a portion of the total purchase price must be paid by **certified funds** as follows:
 - If the total purchase price is **greater than \$1,000.00 but less than \$50,000.00**, **the first \$1,000.00 must be paid in certified funds.**
 - If the total purchase price is **\$50,000.00 or greater**, **the first \$5,000.00 must be paid in certified funds.**
 - **Any remaining balance** beyond the required certified funds may be paid by certified check, personal check, money order, Visa, MasterCard, or Discover.
- **Online & Absentee Bidders**
 - **The full purchase price must be paid in full WITHIN 5 BUSINESS DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
 - Online and absentee bidding require a \$1,000 pre-authorization on a Visa, MasterCard, or Discover credit card or a \$1,000 deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. **Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.**

B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

C. Dishonored Payment

A buyer whose payment is dishonored for any reason will forfeit, as liquidated damages, any purchase price paid as follows:

- A buyer whose total purchase price was less than \$1,000.00 will forfeit any portion of the total purchase price tendered and not dishonored including any credit card chargebacks which are successfully reversed by Seller.
- A buyer whose total purchase price was greater than \$1,000.00 will forfeit that portion of their total purchase price which was required to be tendered in certified funds as required by part 4A above.

Furthermore, the FGU may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.

Any buyer who fails to consummate a purchase will be banned from bidding at all future land auctions.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/ in the local tax collection unit in which the purchased property is located.

- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The FGU **will not issue a deed** and the sale will be canceled if the buyer or any party that the buyer seeks to list on the deed does not meet the eligibility requirements outlined in this section at the time the buyer's bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the FGU is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will be banned from participating at all future land auctions and the buyer will **forfeit the first \$350 paid** on each parcel and any buyer's premium paid as liquidated damages for breach of contract by the buyer. If the buyer is an online or absentee purchaser and no payment has yet been tendered at the time noncompliance is discovered and the sale cancelled, the buyer will forfeit \$350 per cancelled parcel from the \$1000 authorization described in Section 4(A) above up to a maximum of \$1000 as liquidated damages for breach of contract by the buyer. Furthermore, the FGU may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

E. Sale to Entities

In order to ensure that individuals do not utilize legal entities to circumvent the sale and ownership restrictions contained in MCL 211.78m(2), the FGU will only sell property to legal entities under certain circumstances. Any buyer desiring to deed a purchased property to a legal entity must disclose the name and address of all officers, shareholders, partners, members, or other parties, regardless of title, who own any portion of that entity. However, such disclosure will not be required if one or more of the following exceptions are applicable:

- The Entity held a prior recorded interest in each purchased property.
- The Entity is a division, agency, or instrumentality of federal, state, or local government.
- The Entity is a Homeowners Association, Condo Association, or other such organization that exercises control over each purchased property.
- The Entity is a publicly traded company listed on a national securities exchange.
- The Entity is a nonprofit corporation and is qualified as tax exempt under IRC §501.

At the time payment is tendered after the auction, any buyer desiring to deed a purchased property to a legal entity will be required to execute an affidavit affirming, **under penalty of perjury**, that the entity is exempt from disclosure under one of the five exceptions listed above, or in the event that no exception is applicable, the names and addresses of all parties owning any portion of that legal entity.

F. Cancellation Policy

Prior to the issuance of a deed, the FGU has the right, in its sole discretion, to cancel any sale for any of the following reasons: transfer of the property at issue is stayed or enjoined by a court of competent jurisdiction; any of the reasons outlined in MCL 211.78m(9); the property at issue becomes the subject of litigation; a defect is discovered in the underlying foreclosure or sale procedures relating to the property at issue; any other reason authorized under these Rules and Regulations.

G. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, **a penalty of \$5/day (maximum \$200) applies**. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases upon payment. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as received by the FGU through tax foreclosure**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The FGU makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the FGU**. The buyer may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

7. Special Assessments

Special assessment installments through the most recent prior tax year are included in the starting bids. Seller has attempted to identify those parcels subject to special assessments with a note on the parcel detail page. Parcels sold are subject to property taxes for the entire current tax year, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

8. Possession of Property

A. Possession Pending Deed Delivery

It is recommend that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the Foreclosing Governmental Unit exercises their right to cancel the sale. Until the buyer pays for all purchases in full and receives a deed, no activities should be conducted on the site other than:

I. Securing the Property

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property.** Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property.**

II. Assessing Potential Contamination

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at http://www.michigan.gov/deq/0,4561,7-135-3311_4109_4212---,00.html

B. Occupied Property

Buyers will be responsible for all procedures and legal requirements for conducting evictions. Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance. Buyers may not commence eviction proceedings until a deed to the applicable occupied property has been issued by the FGU.

9. Additional Conditions

The buyer accepts the premises in its present "as is" condition, and releases the Foreclosing Governmental Unit and employees and agents including the Auctioneer from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the Foreclosing Governmental Unit recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

10. Deeds

A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the FGU and deeds will be executed and recorded as required by law. The FGU will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. **IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.**

B. Restrictive Covenants

Some counties sell properties with deed covenants that will attach to the property. These parcels will be noted online, along with the terms being required. **Please carefully review the information for each specific parcel to make sure you understand the terms of sale.**

11. Property Taxes & Other Fees

All property taxes and associated fees that have accrued on or after April 1 in the year that a property is auctioned must be paid **at the time of checkout** after the auction along with the final bid price, buyer's premium, and deed recording fee.

Furthermore, please understand that the **buyer is responsible for all other fees and liens that accrue against a property on or after April 1 in the year that a property is auctioned.** These items are not prorated. They include, but are not limited to, municipal utility or ordinance fees, and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses **are not collected at the auction** and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

12. Other

A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the FGU, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. The FGU and Auctioneer make no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

Mobile Homes may be titled separately and considered personal property. It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

B. Mineral Rights

You will receive any and all title that the FGU obtains via their tax foreclosure through a quit-claim deed. If the owner of the surface rights to the property also owned the mineral rights, those will become part of your title interest. However, this will be subject to the rights of any outstanding leaseholders of oil, gas, mineral or storage rights. You would be obligated to honor the balance of any remaining lease (with automatic renewals if so written). However, if the mineral rights have been severed (split from the surface rights) and are owned by a third party, they have not been foreclosed by the FGU and are not included in the mineral rights conveyed to you. In either instance, the leaseholder still has the right to explore for and/or extract minerals under the terms of any outstanding agreement.

C. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at www.tax-sale.info ("**Additional Terms**"). If such Additional Terms apply, they will be listed under the heading "Additional Terms and Conditions" on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. In some cases, the Auctioneer is required to relate certain information orally on the day of sale when it is not possible to include such information in the printed sale booklets or in these Rules and Regulations ("**Oral Terms**"). In such a situation, the Auctioneer will clearly state that they are relating an additional condition of sale which either has not been previously printed or which modifies some portion of these Rules and Regulations. If the Auctioneer makes such a specific announcement, the Oral Terms shall take precedence over these Rules and Regulations where applicable. Finally, additional conditions are included on the printed auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, Oral Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Oral Terms, Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change and should be reviewed frequently.

NOTE: Please review the terms at the top of each online catalog and the addendum pages in the printable sale books for county-specific purchase terms. Failure to follow the specific rules posted for each county could result in cancellation of sale and/or the assessment of liquidated damages as provided by these Rules and Regulations.

Important Information Regarding Rules and Regulations

The Rules and Regulations immediately following this page are applicable to the following catalogs which consist of parcels owned by the Michigan Department of Natural Resources and which are offered for sale in this auction as part of DNR's surplus lands disposition process:

- Gogebic - DNR
- Houghton - DNR
- Schoolcraft - DNR

Michigan DNR Land Sales

Rules and Regulations

1. Registration

Registration for live on-site auctions will begin 30 minutes before the stated start time unless otherwise noted. No bids will be accepted unless the bidder has registered and received a pre-numbered bid card. A Driver's license, passport, or other state issued I.D. must be presented in order to receive a bid card.

2. Properties Offered

A. Overview

The attached list of parcels has been approved for sale at public auction by the Michigan Department of Natural Resources (the "DNR"). Each parcel is identified by a sale unit number. The DNR reserves the right to pull parcels from the sale at any time prior to the auction.

Unless otherwise noted, the "Seller" is the DNR. The Auctioneer is Title Check, LLC acting as the authorized agent of the Seller/DNR.

These properties are subject to any state, county, or local zoning or building ordinances. The DNR does not guarantee the usability or access to any of these lands. The properties are sold based upon their LEGAL DESCRIPTION ONLY (Subdivision name and Lot number, or Metes and Bounds measured description). While effort has been made to ensure that the addresses, parcel sizes, maps, and/or photos are accurate, you are relying on your own investigation and information when purchasing this property. All parcels are sold "as is where is" and there are NO REFUNDS.

B. Know What You Are Buying

It is the **responsibility of the prospective purchaser to do THEIR OWN RESEARCH** as to the suitability of any offered property for any intended purpose. The DNR and the Auctioneer make no warranty, guaranty, or representation of any kind concerning, but not limited to, the merchantability of title, boundary lines, location of improvements, availability of land divisions, easements or right to access by public street, utility presence or location, or any other physical, structural, or legal condition regarding any parcel offered for sale.

Prospective buyers should, prior to the auction, **personally visit and inspect any offered property** they wish to purchase. However, prior to purchase at the auction, **STRUCTURES MAY NOT BE ENTERED** without the **WRITTEN PERMISSION** of the DNR. Some structures may be occupied and occupants should not be disturbed.

C. Reservations

Pursuant to state statutes, deeds issued may contain the following reservations and stipulations:

- *"Excepting and reserving to the State of Michigan, all aboriginal antiquities including mounds, earthworks, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employees, pursuant to the provisions of Part 761, Aboriginal Records and Antiquities, of the Natural Resources and Environmental Protection Act, Act 451 of the Public Acts of 1994, MCL 324.76101 to 324.76118 as amended."*
- *"Saving and reserving unto the People of the State of Michigan the rights of ingress and egress over and across all of the above-mentioned descriptions of land lying along any watercourse or stream, pursuant to the provisions of Part 5, Act 451, P.A. 1994, as amended, MCL 324.503, as amended."*

Additionally, the DNR may, in its discretion, reserve the mineral rights to offered property as follows:

- *"Saving and excepting and always reserving unto the said State of Michigan, all mineral, coal, oil and gas, lying and being on, within or under the said lands whereby conveyed, except sand, gravel, clay or other nonmetallic minerals with full and free liberty and power to the said State of Michigan, its duly authorized officers, representatives and assigns, and its or their lessees, agents and workmen, and all other persons by its or their authority or permission, whether already given or hereafter to be given at any time and from time to time, to enter upon said lands and take all usual, necessary, or convenient means for exploring, mining, working, piping, getting, laying up, storing, dressing, make merchantable, and taking away the said mineral, coal, oil and gas, except sand, gravel, clay or other nonmetallic minerals."*

If the DNR does not reserve mineral rights as described above, the DNR may nonetheless restrict the severance of mineral rights from offered property as follows:

- *"This conveyance hereby restricts the Grantee from severing oil, gas, mineral and other subsurface rights from the surface rights any time in the future. If the Grantee severs the subsurface rights from the surface rights, the subsurface rights will revert to the State of Michigan."*

3. Bidding

A. Overview

Generally, each sale unit will be offered separately and in the order appearing on the attached list. Sales are typically conducted both online and live on-site, simultaneously. The sale will be awarded to the individual bidding the highest amount equal to or greater than the starting bid by either method. Typically, the Auctioneer will make available a list of parcels prior-to-sale and will provide an opportunity for on-site bidders to designate "parcels of interest" prior to the start of the sale. The Auctioneer may skip over those parcels upon which no party has placed an online bid or designated as a parcel of interest prior to the start of the sale or during the process of live-bidding. The Auctioneer may offer a second request round of unsold parcels to be offered at the same opening bid after the first round of bidding has been completed. Such second request round will be available to those online and on-site bidders as may be in attendance at that time.

B. Starting Bid Price

The starting bid prices are shown on the list included in the sale book. At auctions with a minimum bid, no sales can be made for less than the starting price indicated. The starting bid for no-minimum-bid sales will be at the discretion of the DNR.

C. Bid Increments

Bids will **only** be accepted in the following increments:

<u>Bid Amount</u>	<u>Increment</u>
\$100 to \$999	\$ 50.00
\$1000 to \$9999	\$ 100.00
Over \$10,000	\$ 250.00

Floor bidders **MUST** bid in the same increments as online and absentee bidders. **We will not accept irregular bid increments** in fairness to online and absentee bidders.

D. Eligible Bidders

Any person who meets the following requirements may register as a bidder and receive a pre-numbered bid card:

- The person does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the person intends to purchase property.
- The person is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4/ of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4/, in the local tax collection unit in which the person intends to purchase property.
- The person has not been banned or otherwise excluded by the DNR from participation in the public sale.

Any person unable to attend the sale can be represented at the sale by an agent or other representative with authority to bid and otherwise represent the person. However, any party utilizing an agent to bid on their behalf must still meet the above listed requirements. **The registered bidder is legally and financially responsible for all parcels bid upon whether acting on their own behalf or as the agent of another.**

E. Absentee Bidding

Absentee bids will be accepted in increments up to the amount that you pre-approve. Absentee bids require a \$1,000 pre-authorization on a major credit card or a \$1,000 deposit before the bid will be accepted. Absentee bids must be submitted 48 hours prior to the date of the auction by calling 1-800-259-7470. An absentee bid form is also available on www.tax-sale.info. Additionally, absentee bids may be submitted up until one hour before the sale if submitted online.

F. Online Bidding

On-line bidding will be available on the day of the auction at www.tax-sale.info unless otherwise indicated. An auction may be conducted entirely online as determined by the DNR.

G. Bids are Binding

An oral and/or live bid accepted at public auction or placed online through www.tax-sale.info is a legal and binding contract to purchase. The DNR reserves the right to reject any or all bids.

H. Limitations on Bidding

The DNR and Auctioneer reserve the right to limit the number of bids placed per auction for any bidder or group or bidders for any reason.

I. Attempts to Bypass These Rules and Regulations

The DNR and Auctioneer reserve the right to reject the bids of any bidder who appears to be acting on behalf of another person who is ineligible to bid on their own.

4. Terms of Sale

A. Payment

- **Live On-Site Bidders**
 - **The full purchase price must be paid in full on the day of the sale, within half an hour of the end of the Auction.** No purchases can be made on a time-payment plan.
 - **NO CASH** will be accepted.
 - If the total purchase price is **less than \$1,000.00**, full payment may be made by certified check, personal check, money order, Visa, MasterCard, or Discover.

- If the total purchase price is **greater than \$1,000.00**, a portion of the total purchase price must be paid by **certified funds** as follows:
 - If the total purchase price is **greater than \$1,000.00 but less than \$50,000.00, the first \$1,000.00 must be paid in certified funds.**
 - If the total purchase price is **\$50,000.00 or greater, the first \$5,000.00 must be paid in certified funds.**
- **Any remaining balance** beyond the required certified funds may be paid by certified check, personal check, money order, Visa, MasterCard, or Discover.
- **Online & Absentee Bidders**
 - **The full purchase price must be paid in full WITHIN 5 BUSINESS DAYS OF THE SALE.** Payment may be made by certified funds, money order, Visa, MasterCard, Discover, or wire transfer. No purchases can be made on a time-payment plan.
 - Online and absentee bidding require a \$1,000 pre-authorization on a Visa, MasterCard, or Discover credit card or a \$1,000 deposit before any bids will be accepted. Buyer's failure to consummate an online or absentee purchase will result in the forfeiture of this \$1,000.

The full purchase price consists of the final bid price *plus* a buyer's premium of 10% of the bid price, any outstanding taxes due on the property including associated fees and penalties, and a \$30.00 deed recording fee. **Any portion of the purchase price paid by credit card will be assessed an additional fee of 2.75%.**

B. Refund Checks

In some instances it may be necessary to refund to a buyer some or all of the payment tendered by such buyer. This can occur, for example, when a buyer tenders certified funds in an amount greater than their total obligation or if the sale is cancelled under any provision of these Rules and Regulations. Refund checks will be processed and mailed to buyer within approximately ten days of the time such refund becomes due to buyer. Buyer shall cash such refund check within 90 days of the date listed on such refund check. If buyer fails to cash such refund check within 90 days, such refund check shall become void and buyer shall forfeit any refunded amount.

C. Dishonored Payment

A buyer whose payment is dishonored for any reason will forfeit, as liquidated damages, any purchase price paid as follows:

- A buyer whose total purchase price was less than \$1,000.00 will forfeit any portion of the total purchase price tendered and not dishonored including any credit card chargebacks which are successfully reversed by Seller.
- A buyer whose total purchase price was greater than \$1,000.00 will forfeit that portion of their total purchase price which was required to be tendered in certified funds as required by part 4A above.

Furthermore, the DNR may seek to prosecute any buyer whose payment is dishonored or who fails to consummate a purchase.

Any buyer who fails to consummate a purchase will be banned from bidding at all future land auctions.

The buyer's premium is not subject to any broker fees. There are no co-brokerage or other fees or rebates available.

D. Eligible Buyers

In order to take title to purchased property, each party that will be listed on the deed must meet **ALL of the following requirements at the time their winning bid is accepted:**

- i. The party does not directly or indirectly hold more than a *de minimus* legal interest in any property with delinquent property taxes which is located in the county in which the purchased property is located
- ii. The party is not directly or indirectly responsible for any unpaid civil fines for a violation of any ordinance, including but not limited to any ordinance authorized by section 4I of The Home Rule City Act, 1909 PA 279, as amended, MCL 117.4I, in the local tax collection unit in which the purchased property is located.
- iii. The party is not purchasing, for less than minimum bid, any property in which the party held an interest at the time a judgment of foreclosure was entered against such property nor is the party purchasing property, for less than minimum bid, on behalf of any other party who held such an interest.

At the time payment is tendered after the auction, the buyer will be required to execute an affidavit affirming, **under penalty of perjury**, that each party that the buyer desires to have listed on the deed to purchased property meets the above requirements.

The DNR **will not issue a deed** and the sale will be canceled if the buyer or any party that the buyer seeks to list on the deed does not meet the eligibility requirements outlined in this section at the time the buyer's bid was accepted, the buyer fails to execute this affidavit, or if any affirmations made in this affidavit are untrue. If the DNR is forced to cancel any sale due to the buyer's noncompliance with this provision, the buyer will be banned from participating at all future land auctions and the buyer will **forfeit the first \$350 paid** on each parcel and any buyer's premium paid as liquidated damages for breach of contract by the buyer. If the buyer is an online or absentee purchaser and no payment has yet been tendered at the time noncompliance is discovered and the sale cancelled, the buyer will forfeit \$350 per cancelled parcel from the \$1000 authorization described in Section 4(A) above up to a maximum of \$1000 as liquidated damages for breach of contract by the buyer. Furthermore, the DNR may pursue **CRIMINAL PERJURY CHARGES** against any buyer who makes a false affirmation on the affidavit required under this or any other provision of these Rules and Regulations.

E. Cancellation Policy

At its sole discretion, the DNR reserves the right to cancel any sale at any time up until delivery of the deed.

F. Property Transfer Affidavit

It is the responsibility of the buyer to file a **Property Transfer Affidavit** with the *assessor for the city or township* where the property is located **within 45 days of the transfer**. If it is not timely filed, **a penalty of \$5/day (maximum \$200) applies**. The information on this Property Transfer Affidavit is NOT CONFIDENTIAL.

5. Purchase Receipts

Successful bidders at the sale will be issued a receipt for their purchases upon payment. This receipt does not convey an interest in title to the purchased property unless and until a deed has been issued and recorded. Buyers will be entitled to deeds for the property descriptions identified by the sale unit numbers noted on the receipt unless the sale is cancelled under these Rules and Regulations or other statutory authority.

6. Title Being Conveyed

Quit-claim deeds will be issued conveying **only such title as is possessed by the DNR at the time of sale**. Title insurance companies may or may not issue title insurance on properties purchased at this sale. The DNR makes no representation as to the availability of title insurance and the **unavailability of title insurance is not grounds for reconveyance to the DNR**. The buyer may incur legal costs for Quiet Title Action to satisfy the requirements of title insurance companies in order to obtain title insurance.

7. Special Assessments

Parcels sold are subject to property taxes that become due and payable on or after the day of auction, as well as current and future installments of any outstanding bonded assessments. All bidders should contact the appropriate city, village, or township offices to determine if there are any outstanding bonded assessments for future tax years on the properties being offered.

8. Possession of Property

A. Possession Pending Deed Delivery

It is recommended that the buyer DOES NOT take physical possession of any purchased property until a deed has been executed and delivered to the buyer. The buyer risks financial loss for any improvements or investments made on purchased property *before the delivery of a deed* in the event that the DNR exercises its right to cancel the sale. Until the buyer pays for all purchases in full and receives a deed, no activities should be conducted on the site other than:

I. Securing the Property

Buyer should take steps to protect their equity in purchased property **by securing vacant structures against entry and obtaining (homeowners) insurance for occupied property**. Buyer is responsible for contacting local units of government **to prevent possible demolition of structures situated on purchased property**.

II. Assessing Potential Contamination

Buyer may immediately wish to conduct a Baseline Environmental Assessment (BEA) to assess the condition of potentially contaminated properties. More information about BEAs can be found at http://www.michigan.gov/deq/0,4561,7-135-3311_4109_4212---,00.html

B. Occupied Property

Buyers will be responsible for all procedures and legal requirements for conducting evictions. Occupants of purchased property should be treated as tenants holding over under an expired lease. This means that legal eviction and/or possession proceedings will be necessary to effectuate control over such property if occupants will not otherwise leave voluntarily. You may wish to consult a licensed attorney for additional guidance. Buyers may not commence eviction proceedings until a deed to the applicable occupied property has been issued by the DNR.

9. Additional Conditions

The buyer accepts the premises in its present "as is" condition, and releases the DNR and employees and agents including the Auctioneer from all liability whatsoever arising from any condition of the premises, whether now known or subsequently discovered, including but not limited to all claims based on environmental contamination of the premises.

A person who acquires property that is contaminated (a "facility" pursuant to Section 20201(1)(1) of Natural Resources and Environmental Act (NREPA), 1994 P.A. 451, as amended) as a result of release(s) of a hazardous substance(s) may become liable for all costs of cleaning up the property and any other properties impacted by the release(s). Liability may be imposed upon the person acquiring the property even in the absence of any personal responsibility for, or knowledge of, the release. Protection from such liability may be obtained by conducting a Baseline Environmental Assessment (BEA) as provided for under Section 20126(1) (c) of NREPA. However, the BEA must be conducted prior to or within 45 days of the earliest date of purchase or occupancy of the property. Persons who acquire contaminated property may have "due care" obligations under Section 20107a of NREPA even if they conduct a BEA and are not liable for the contamination.

Pursuant to part 201 of NREPA, the person(s) responsible for an activity causing a release at the property is obligated to pursue response activities at the property. Consequently, the non-labile purchaser may be required to provide access to the liable party to conduct response activities at the property in the future. Section 20116 of the NREPA requires that a person who has knowledge that their property is contaminated provide a written notice to the purchaser or other person to whom the property is transferred which discloses the general nature and extent of the release. Additional disclosure obligations may also apply at the time the property, or an interest in the property, is transferred. Accordingly, the DNR recommends that a person who is interested in acquiring property at this auction contact an attorney or an environmental consultant for advice prior to the acquisition of any property that may be contaminated.

10. Deeds

A. Deed Execution and Delivery

All monies collected will initially be deposited in escrow. Once payment is cleared and verified, funds will be disbursed to the DNR and deeds will be executed and recorded as required by law. The DNR will deliver the deeds to the Register of Deeds for recording and remit them to the buyer after recording is complete. IT CAN TAKE 6 TO 8 WEEKS FOR DEEDS TO ARRIVE. PLEASE BE PATIENT.

11. Property Taxes & Other Fees

All property taxes that become due and payable on or after the day of auction will be the responsibility of the buyer. The buyer **is responsible for all other fees and liens that accrue against the property on or after the day of the auction.** These items include, but are not limited to, municipal utility or ordinance fees and condo or property owner association fees or dues. This can also include demolition and other nuisance abatement costs. These fees and expenses are not collected at the auction and must be paid by the buyer after taking title to any purchased property which is subject to such fees and expenses.

12. Other

A. Personal Property

Personal property (*items not attached to buildings and lands such as furnishings, automobiles, etc.*) located on offered property or within structures situated on offered property was not taxed as part of the real estate, does not belong to the DNR, and is not sold to the buyer of the real estate in this transaction. You are advised to contact former owners of any purchased property and provide them an opportunity to reclaim contents. A certified and first class mail notice to their last known address is strongly advised. It is your responsibility to identify and properly handle items of personal property. The DNR and Auctioneer make no representations or warranties as to the presence of personal property or as to the legal requirements for dispensing with such property.

Mobile Homes may be titled separately and considered *personal property*. It is the buyer's responsibility to determine the legal status of any mobile home located on purchased property. A useful first step could include determining whether an Affidavit of Affixture of Manufactured Home has been executed and recorded as outlined in MCL 125.2330i.

B. Applicability of These Rules and Regulations

All sales are subject to these Rules and Regulations. Furthermore, additional terms and conditions which apply to one or more specific auction lots may be printed in the auction sale booklets and/or online at www.tax-sale.info ("**Additional Terms**"). If such Additional Terms apply, they will be listed under the heading "Additional Terms and Conditions" on the online lot description page and/or in the printed sale book for the lot(s) to which they apply. Such Additional Terms, if existing, shall be considered a part of these Rules and Regulations for the specific auction lots to which they apply. In some cases, the Auctioneer is required to relate certain information orally on the day of sale when it is not possible to include such information in the printed sale booklets or in these Rules and Regulations ("**Oral Terms**"). In such a situation, the Auctioneer will clearly state that they are relating an additional condition of sale which either has not been previously printed or which modifies some portion of these Rules and Regulations. If the Auctioneer makes such a specific announcement, the Oral Terms shall take precedence over these Rules and Regulations where applicable. Finally, additional conditions are included on the printed auction receipt given to the buyer at the time of checkout ("**Terms of Sale**"). All sales are subject to these Terms of Sale as well. These Rules and Regulations, Additional Terms, Oral Terms, and Terms of Sale are intended to be compatible. To the extent that a conflict arises between any of these sources, they shall be interpreted in the following order of priority: Oral Terms, Additional Terms, Terms of Sale, Rules and Regulations.

These Rules and Regulations are subject to change and should be reviewed frequently.

NOTE: Please review the terms at the top of each online catalog and the addendum pages in the printable sale books for sale-specific purchase terms. Failure to follow the specific rules posted for each sale could result in cancellation of sale and/or the assessment of liquidated damages as provided by these Rules and Regulations.

Has been unoccupied for a few years. The steel roofover is solid and the ceilings are okay, but the floors are spongy and weak, and a rear addition has some structural settling issues. The inside needs a resurfacing, but seems merchantable. Steel barn is newer and solid. There is general cast off around the property. This parcel is a little over 2.5 acres, with 174' feet on the road and running 660' feet deep. DISCLOSURE: The last owner of this property expired while in the home, about 2 years ago of natural causes. There is no evidence of that ascertainable. This property is oooooold and could use updating to kitchen, bath and surfaces in general, but it is a straight, strong well built home. The roof on the main portion of the home is newer architectural series shingles. Inside there is some evidence of leaks, but we suspect they are old damage, as the second floor has not been used in some time. The side addition/shed has a steel roof with some serious sagging it needs to be repaired, replaced or removed before that gets worse. Partial basement houses natural has mid-century forced air furnace and water heater. The electric service appears to have been taken out by a tree or ice ...it has been dropped by the utility. It is also old and is a 60 amp service that should be upgraded. In short, this is an older home with much potential. Comments: This is a GREAT parcel. 3+ acres with a raised chalet style house, TWO shop buildings, two storage sheds and a SAUNA! This is a well built home and has a private compound feel to it. Structurally, this is a very very solid property. However the last occupant appears to have been somewhat of a hoarder and all of the buildings are LOADED, wall-to-wall with "stuff". It's not so much garbage as it is just clutter. And there is a LOT of it. To compound that, it looks like someone broke in and rooted through the entire place looking for things of value. It has been pretty thoroughly ransacked and every thing turned inside out. They busted up a few door jambs, so that, and one woodpecker nesting site on the side of the house are the only real issues we could find here. The main house has three bedrooms, one down and two up. One bath. Forced air heat (probably propane). It is solid and mostly just needs to be emptied and cleaned up. The detached two car garage has an attached workshop. Across the way is a shop building ... almost like a small service business or store space, with an attached one car garage, Great spot for a contractor or other self employed person to separate work and home life. There is a double bay storage shed for yard things and extra manstuff, and last but not least a SAUNA for those chilly winter evenings. This is a very very nice set up that any man (or woman!) would love to have. Storage for days, and lots of workspace for projects. Situated on three+ plus nicely wooded acres less than ten miles out Skanee Road from L'Anse. Personal Property;</p> <p>Summer Tax Due: \$948.42</p>	18546 SKANEE RD LANSE;	\$5300

Comments: This is 2/3rds of an acre with waterfrontage on Ruth Lake, off M-28/US-41. It's got THREE problems. First, you can't get to it (except by water) as there are no roads, public or private, that reach it. Second, it's marshland. And third, the assessor has it taxed with a value of \$32,000. Old is a house trailer ... probably 60 years old or more ... the other is a camper of slightly newer vintage. Neighbor says that the former owners are dead and no one has been around in decades. The neighbor is keeping an eye on these, so mind your manners. The trailers have been roofed over and appear to be solid, but we imagine the critters have been inside. Old frame home needs pretty much everything. Despite its outward appearance, this home is structurally pretty straight and solid with a few exceptions: The rear porch floor is very weak (nearing fall through potential) and the rear porch roof has a serious dip in it, tho it isn't leaking at present. The electric service has been ripped off the house (fallen tree or similar event?). This is on a cut stone foundation that seems "generally" solid. It is difficult to assess the condition of homes like this because they're loaded with garbage. There is food garbage, wall to wall, in literally every room including the bedrooms, making navigating and inspecting difficult. Had been vacant a couple of years we believe and may have been student rental housing based on the contents and condition. The house appears to be *generally* solid and straight, bit is VERY dirty and will need to be emptied (good cold weather job) and cleaned before a complete resurfacing. There are at least four bedrooms here with a full bath up and a really, really filthy half bath on the main floor. This house has potential if you're not afraid to get dirty. Comments: This is an incomplete construction project that was halted by the building code official. There is a modular home here that is sitting on a concrete slab (partial) without sufficient footings or perimeter enclosure. Because of that deficiency, the property has been CONDEMNED. That's not a demolition order but it IS a citation that means you CANNOT LIVE HERE until the property is brought into compliance with code. The modulars interior is unfinished and also a work in progress. There is a spartan kitchen setup, and there is speculation that the well and septic may not be operable or to code either. We strongly suggest having a conversation with the local code enforcement folks if you plan to bid on this. Chances are that if you put a proper foundation under this and finish the inside, you'll be fine. Just don't plan on living here soon. The interior floor plan has also been modified, and there are a couple of frame additions to the original design. BONUS: There is a roughly 40x50 steel barn here to be completed. It does not yet have a concrete floor or overhead doors, so this will also require finishing before occupancy. There is a good amount of personal property on site here that is NOT INCLUDED in this sale, and remains the property of the former owner. The electrical service panel is 100A, but the wiring at the panel is romex salad and will need correction before it is safe. It is part-way through what appears to be a poorly executed DIY remodel job. Some of the lath and plaster has been removed and replaced with what appears to be leftover scraps of drywall of different thicknesses. There is a substantial roof leak in the second floor bath, which is in the dormer at the left front side of the building. There is a good amount of frozen plumbing in evidence. To do this one right, it's probably time to strip it down to the studs and start over. It does have a modern hi efficiency furnace and 100A electrical service, so that's bonus points. The roof is older, but does not leak except at that dormer. Freeze Damage; Roof Issues; Incomplete Construction; Summer Tax Due: \$902.55	1720 8TH AVE S ESCANABA;	\$5800

Comments: Wisconsin is right outside your front door from this property at the county line. There are two parcels here with about 350 feet of frontage on busy busy M-95 between Kingsford MI and Aurora WI, which are separated by the Menominee River. The frontage is partly rock outcropping, but has access to the higher ground from a gravel road at the west side of the properties. There is a masonry block structure on the west side of the parcel that was a tavern at one time, as evidenced by the faded "Beer & Lunch - Pasties 10 cents" sign on its side. The front porch addition here has collapsed, but the rest of the building is rock solid and has a decent roof that is not leaking inside appreciably. It needs the front porch torn off, and a resurfacing of the inside along with some soffit work. We presumed this building has been vacant a long time, but it has a hi efficiency furnace, so it has been tended to over time to some degree. It appears that the former restaurant space was converted into a lower living unit, and the original 2 bedroom owners quarters is upstairs. This building, sans the porch, could be rehabbed. Or you could just knock it all down and repurpose this highly visible location for a NEW pastie stand! 2906	<p>Parcel ID: 004-313-011-00; Legal Description: LOT 11 BLK 13 VILLAGE OF CENTRAL VULCAN Comments: Brick home has a European flare to it's design. This is a pretty solid little place that is in need of a fresh roof and cleaning more than anything else. Two bedrooms, one full bath, and two half baths as currently configured. There is something odd about this house, and it may have originally been some sort of small church or hall with cathedral ceilings. In the upper floor are some fairly ornate trusses with hand forged steel plates. Why would someone have gone to that artistic effort to hide them in an attic? Conversely, the main floor has well crafted, coved plaster ceilings a trend of the 1940's and 50's. Is this a conversion from a single story cathedral ceiling to a mid century bungalow? Late occupants began to removate the upper floor into extra space, including a stubbed out bath, but it was never completed. This property could become an amazing cathedral space again or you can keep that mid century coved plaster thing going on. Your call. Modern hi efficiency firnace, 100A electric seervice and municipal water. This property needs 1) A roof 2) some tuck pointing 3) Cleaning and resurfacing. There are hardwood floors through most of the building that can be sanded and brought back to life. Original section of the building is on a crawlspace, with the north addition on a Michigan basement. Two car attached garage, also in need of a roof. Cute place! Comments: This is a one acre parcel, with 208 feet on North Lane, and running 208 feet deep. There is an older, one story residential structure here that is in moderately good condition. This was a "family owned" property with a disagree that led to its foreclosure for taxes. We are unsure if some of the family will be bidding on this or not. It appears to still be under the control and recent use of the former owners, and they still have considerable personal property there including vehicles and other thing. Comments: This home has been very well maintained over the years. Someone took very good care of it. However it has not been occupied in about TEN years and it's time for a new caretaker. Is that you? This home has an older roof that isn't leaking (yet) but that's not far off. It is set up for a duplex use (mother-in-law apartment setup). The Each side of the house has a second floor. The basement is shared. There is a kitchen and bath on each main floor side, One side has three bedrooms, the other two. Full basement has a midcentury natural gas forced air furnace that heats the whole house. There IS a stress crack inn the south side of the foundation (see photos) that is not at critical mass, but should be addressed. 2922	<p>Parcel ID: 051-100-302-00; Legal Description: LOTS 1 & 2 ASSESSOR'S PLAT OF CHAPIN MINING CO'S ADDITION Comments: Classic retail storefront in a neighborhood setting in Iron Mountain. It's the type of building that originally would have been a tavern, cafe or neighborhood grocery, with owners quarters upstairs. This particular building is rock solid (except for an exterior stairway) and ready for you to repurpose. The main floor has some interior framing, non-load bearing, which could be removed to open the space into a single large room. There is an attached garage to the rear that is in need of a roof. The basement is cavernous, and has high ceilings and much space that could be repurposed. The second floor has been stripped of most of its lath and plaster (a really dirty job) and that has been hauled away. With proper engineering of load bearing support, you could make this into a spectacular loft style flat. There is *not* an interior stairway from the upper level down, and at present it relies on a really questionable exterior stair and balcony/porch that is in the process of failing. We have marked it with caution tape, and you'd be well advised to just review our photos and not make that trip yourself. The roof on this building is older, but other than the garage, it is not leaking at present. Foundation looks solid, it has a modern hi-efficiency furnace, and a 200A electric main. The wiring at the panelboard has been cannibalized and will need some review. The plumbing is of low quality workmanship, with a lot of pex just hanging midair without support. This property has much potential for a home operated business. There is a ton of space here.</p> <p>Summer Tax Due: \$1,630.13</p>	620 VULCAN ST IRON MOUNTAIN;	\$14500	
2923	<p>Parcel ID: 051-100-378-00; Legal Description: LOT 79 ASSESSOR'S PLAT OF CHAPIN MINING CO'S ADDITION Comments: This is a very solid, well built older frame construction home. It has a good foundation and is straight and very solid on a walk thru. The roof, especially the soffits and roof edges, are horrifically bad. We expected to find a house engulfed in rot when we entered, but we were pleasantly surprised. There are two interior spots where there are long standing roof leaks that have caused some serious damage, but in very limited areas. Otherwise, the house is dry and clean. Almost move in ready type of clean. This house has been vandalized and has a few broken doors or windows either from departing occupants or thrillseekers. Someone has broken out a half dozen windows, which have been boarded over from inside the building. This really isn't a bad place at all. It just needs some TLC to put it back together and a new roof. The furnace is a mid century natural gas forced air plant. Electrical service is a dated 60A fused panel. There is some evidence of freeze damage to plumbing. The foundation appears to be rock solid. Don't be afraid of this one. We suspect this one is on a wood foundation pier footing system that is failing with and. It's not a dangerous situation, but it will probably amplify over time. The property was difficult to assess because of the amount of clutter here. We could not get to the upper floor (if there is one) or find access to the basement. The exterior is overgrown as well. This house is dry inside, so there are no roof issues, but until it is emptied, you won't really be able to get a good clear view of what is going on with the floor system. House has an old roof, but no substantial leaks. Has a natural gas hot water boiler for heat that likely has some issues. A number of windows are broken and there is general evidence of rough use. Has a roof which has been bad for a while and treated with the blue tarp method. There are two "worst" spots in the overall bad roof. See photos for that detail. There are 4 (very tiny) bedrooms and a bath up ... half bath down. Foundation looks solid, but there is water infiltration from a marginal exterior basement entry that should be closed off. 100A modern electric service and a modern hi efficiency natural gas forced air furnace. Comments: This is a classic turn-of-last-century wood frame retail storefront building in Ramsay. Retail down, owners quarters above would have been the original layout. We're not sure of the most recent use of the property, but the second floor was used for storage of some nature. Curiously, even though the exterior, second floor and attic are square and rock solid, the main floor is caving in to the basement level. We did not venture down below to find out, but our guess is that a load bearing post or other structural member in the basement has failed or been removed unwisely. Now the entire main floor is sinking into the basement. In time this will suck the whole thing in as the entire building is pulled out-of-square. This could likely be saved with fast action. As opposed to many schools we have offered over the year, this one is structurally still pretty solid AND it is small enough that it can be restored at a reasonable cost. The building is roughly 60' across the front and about 45 feet deep, or 2700 square feet. There are two floors. Importantly, it appears that the roof has been maintained all these years, even though it has been unoccupied for decades. With the exception of a couple of small areas (see photos) the plaster ceilings are intact. There is warping of the floors that we are assuming is the result of a period of time where the windows may have been broken and uncovered. Inside, the building was dry during our visit even after several rains. There is one spot in the center hallway where a vent or roof drain or some such leaks and has corrupted floors in the very center of the building. There is also an area near a side back door where the floor has given way, but re-decking should solve that issue. There are two large classrooms on the upper floor that would make magnificent living space, and the lower level could become storage and utility space. It also has an attached garage/workspace that is also in merchantable condition and could be restored. This building has antiquated mechanical systems, but there is three phase electricity here. The boiler was decommissioned years ago in favor of a mid century forced air fuel oil furnace. This building DOES NOT CURRENTLY HAVE A SEPTIC SYSTEM according to a neighbor who owns the property behind the building. (The mowed area is NOT part of this sale) In brief, this property has tremendous potential in the hands of the right, visionary person.</p> <p>Summer Tax Due: \$173.81</p>	5496 JACKSON RD, IRONWOOD;	\$2000

The foundation is giving way on three sides of the home. A cavity in the roof is sprouting a tree, and underneath it inside the home a pretty large area of rot has structurally damaged the bearing system of walls and floor joists. This incomplete, and may or may not be worth salvage. The interior is a shell. The former owner took most of the fixtures (and some of the windows) with them when they left. Newer roof with no leaks, 100A electric. Municipal water and natural gas service. The furnace has been removed ... water heater is ruptured which = frozen plumbing. 1.5 bath and 4 (walk-thru) bedrooms. Some nice wood floors in restorable condition. This could be a really sharp little place without a lot of work. Someone removed some interior walls around the stairway and there is a little amateur temporary electrical patchwork to be tidied up. Our primary concern is the deflection (dip) in the roof. This likely the result of undersized lumber used in the roof system and may have been that way for decades but it is still bothersome. Has a steel roof that is not leaking inside. The house egerally needs a dejunking, deep cleaning and resurfacing. 100A electrical service. The heat system is older and it appears they mostly used wood heat. May need upgrading. The plumbing is antiquated. This has a Michigan basement and the foundation generally looked okay, but it is overgrown and brusky around the outside and difficult to get a real good look at. This is a good rehab project for the budget conscious home buyer. Some elbow grease will go a long way here.</p> <p>Summer Tax Due: \$963.07</p>	1611 S GLYUNA ST, BESSEMER;	\$6400

The opportunity exists here to convert the lower garage area of the original building into more living space or a studio, workshop or home office! We did not venture far inside, as the former owner still has plenty of property here they are coming to get. It appears that the building needs a roof, as we saw one area near the center that had ceiling down. The garage is very new ... can't be 3-4 years old at the most. 3348	<p>Parcel ID: 52-21-426-170; Legal Description: LOT 22 ASSESSORS PLAT NO 4 Comments: Large older 4 square home in Ironwood. Appears to have been perhaps used as a duplex at one time, as it has a kitchen on the second floor and a separate exterior entrance. Foundation and roof are good EXCEPT the the one story rear addiotion (about a 6 foot enclosed porch area) that has bad foundation and probably would be easiest to just remove. The primary foundation appears to be fine. The house was difficult to assess the condition of entirely, because of the amount of garage-sale type stuff piled everywhere. It appears it was being used primarily for storage in recent times. Substantial slope to the back porch floors where the foundation is bad. Second floor is two bedrooms, first floor has one. Older hot water boiler heat, condition unknown ... couldn't get to it to take a good look. Roof is mid life and not leaking. It is occupied by a relative of the former owner. They are aware of the pending sale. This appears to be a straight solid home in generally good repair. Steel roof and older by stable siding. It has a one car attached garage as well as an older detached one car garage. We did notice some deflection of the pier supports under the front porch which should be addressed. 3352	Parcel ID: 52-22-228-030; Legal Description: LOT 7 ASSESSORS PLAT NO 7 Comments: This one is boarded. It has a 2015 building permit in the front window, and a newer electric service is evident on the west side. A few newer windows. Roof is ancient. Foundation *looks* okay from outside the building. There is no piping leading *from* the gas meter, which tells us that it has no operable heating system. We would view this as a shell to be completed. We did speak with a neighbor who told us that the house has food garbage inside, and that the last occupants did not have running water and were doing their #1 and #2 releases inside the house. So the inside is likely a major cleaning project. Sanitation Issues And Garbage; Boarded; Incomplete Construction; Summer Tax Due: \$503.36	710 HEDIN AVE, IRONWOOD;	\$2500	
3353	Parcel ID: 52-22-254-060; Legal Description: LOT 26 BLOCK 4 MANSF. CASE & LONGY. Comments: Narrow, long, two story frame home on a narrow lot in Ironwood. This house seems square and solid, but has a worrisome FOUNDATION ISSUE down in the basement on the south wall that may give you pause. The main and upper floors have been partially gutted to reconfigure the floor plan, so the room count and layout is flexible and not cast in stone. We could not get a good look at the roof because this house is literally too close to the neighboring homes to see it overall, but it is not leaking. The side porch of the home has some rot and should be removed. So that's all the good news. In the basement, there is a very evident foundation issue running along the center portion of the south wall (see photos). This home is very restorable if this issue is addressed first. Incomplete Construction; Foundation Issues; Summer Tax Due: \$625.95	118 N MANSFIELD ST, IRONWOOD;	\$3300	
3354	Parcel ID: 52-22-255-180; Legal Description: LOT 16 BLOCK 3 MANSF. CASE & LONGY. Comments: This home is difficult to really assess well because it is covered in brush. Curiously the roof on this home is not old. The interior is as cluttered as the outside, making that assessment difficult also. The floors have some sway to them, but the foundation is generally solid, tho we can see where some work has been done on the south foundation wall in the crawlspace. Mechanicals are older and could use an upgrade. There is some rot in the front porch entry area that will need work. We could not get to the back end of the house without a brush cutting team, so that's your to assess. It appears this house is worth repurposing if you're willing to clean out the yard and interior and do some resurfacing and mechanical upgrades. The four walls, floors and ceilings are preservable. 3358	Parcel ID: 52-22-260-140; Legal Description: LOT 17 BLOCK 7 MANSF. CASE & LONGY. Comments: The exterior of this older wood frame home has been modernized in the last few years with the exception of the rear porch, which needs attention. It has vinyl siding and a nice, architectural series shingled roof. Not much needs to be done outside at all. Inside, the house is the result of a mid-century "remodeling" with dropped ceilings, paneling and shag carpeting. There is a little sway to the floors but it's not bad. There are two bedrooms plus a walk-thru upstairs, and two baths, one up and one down. The back porch to this house is in tough shape and might need to be removed. It's also got a bunch of raw food garbage and a few hundred flies that hampered our effort to get to the basement to review the mechanicals. However we can tell by the venting that the furnace is a modern high efficiency model and we believe the electric service indicates a 100A panelboard as well. We just didn't "see" them. Overall, this is a solid home worthy of consideration. Sanitation Issues And Garbage; Summer Tax Due: \$716.02	126 S MANSFIELD ST, IRONWOOD;	\$3000	

3360	Parcel ID: 52-22-403-050; Legal Description: LOT 3, BLOCK 34 ORIGINAL PLAT Comments: Wood frame church building. Needs immediate attention to the roof area around the belltower. Water is infiltrating there (see missing siding in photo) and causing distress to that portion of the structure from top to bottom. Needs a couple of windows replaced to get rid of the PIGEONS that have taken the building over. Building has two or three forced air furnaces grouped into a small room in the lower level. Basement is waterlogged and beginning to mildew and mold from the roof leak. Building is roughly 40x50 plus a side addition (about 2500 square feet) per floor. Two floors, plus mezzanines overlooking the sanctuary. Kitchen in the basement. This could be saved with some prompt attention and elbow grease. At present there is a good amount of pigeon dung inside this building, which is not only unsanitary, but very, very unhealthy if breathed in a dust form. Exercise caution. Yard is overgrown and needs to be trimmed up to get a good look at the exterior. Sanitation Issues And Garbage; Summer Tax Due: \$697.18	331 S MARQUETTE ST, IRONWOOD;	\$3400

Overall this is a straight, solid building. The last holders began the process of converting this into 4 units, and gave up the chase without getting too far down the path. Has upgraded power service and several subpanels through out the building. On both levels, walls have been removed to modify the floor plan. We did notice a couple of warning signs in the foundation that may worsen if not acted on. One on the south side near the side entry door, and another at the rear left corner on the back wall. Neither of these is an immediate danger to the building, but we would sure address them as a part of our rehab plans. The roof is ancient, but not leaking (yet). There are no sources of heat, as all the furnaces are gone. This could be a cute project if you have the pockets, vision and end use for the property. Miraculously the roof appears to still be keeping most of the elements at bay, even in its aged and worn condition. Converted into single family in recent years. Newer roof and vinyl siding. The interior is strewn with castoff and food garbage (stinky) but this house is not in bad shape at all. Straight, modern and updated. Five bedrooms (one down, four up). Basement is exterior entrance. There is natural gas here, but we did not see a meter. Municipal water. 3503	<p>Parcel ID: 001-200-259-00; Legal Description: LOT 259 ASSESSOR'S PLAT OF PAINESDALE. Comments: Open air structure at Painesdale just past the Jeffers High School. We suspect that in its earliest days, this may have been a store with attached owners quarters. The front porch features an old safe that someone cut the back open to get to the pile of gold that was inside. The front has two wiiiiide oooooopen holes (that's how they got the safe out!) that should be covered to keep the elements out and prevent damage. This is actually a fairly solid structure and in better shape that exterior appearance would suggest. It will need updated mechanicals. The roof is not in bad shape with the exception of a couple spots where there are localized issues. The siding is weatherbeaten, but performs its chore. Cellar has an exterior entrance. We saw some electric baseboard heat, a woodstove with water boiler rig, and remnants of fuel oil heat. This one could be put back together. 1/2 acre parcel on a paved county road. The power service has been dropped by the utility. We don't think municipal water or natural gas extends to this parcel.</p> <p>Summer Tax Due: \$294.17</p>	42889 GOODELL ST PAINESDALE;	\$3300

Empty it out, clean it, resurface it, and you're on your way. Mechanicals, kitchen and bath could use upgrades, but the basic structure is pretty good as bare bones. This is the half south of the building (the brown section). It has a good steel roof, two bedrooms and is on a crawlspace. We did not see the electric panel, but assume it is an older 60A fusebox. Comments: This is a bit of an odd one. We're used to one-half structure duplex units, but this one seems to be tied into the adjacent (occupied) unit. It has not exterior steps (door is several feet above the ground) and all of the exterior finishes are matching. Because it was occupied, we did not have the opportunity to view it in detail. Comments: Home in Osceola has been stripped to the studs (the dirty part is done) and a little rehabbing started, then POOF. It's been sitting idle for a while, and now it's your turn to finish it. The forward portion of the home is pretty stable (but weather beaten) but there are some issues with the foundation under the addition to the rear. Roof is older but we didn't see leaks. On a crawlspace. This one needs electrical, plumbing, HVAC, insulation and a resurfacing. Ceilings are low on the main floor, some barely over 6' foot. We did not investigate the cellar (exterior entrance) , but we assume that's where the electric service panel is located. No real plumbing fixtures installed. The 4/10ths of an acre that's missing from being a complete 10, is a 98' x 183' parcel cut out of the west property line and occupied by someone else's cabin. If you enter the shared driveway, veer to the right to find the out cabin and outbuildings. The cabin has been unoccupied for a while (20 years?) and has broken windows and is inhabited by well fed raccoons based on the poo we saw. There *might* be a foundation issue on the south side where the cellar entrance is located, but the inside appears to be fairly solid and level. At the rear of the property USGS topo maps indicate there was a "gravel pit" at one time. Roads back to this area are overgrown as we did not investigate this on foot. The "guest house" and other buildings on this parcel have either collapsed or are a good snow or two away from that. The main structure could probably be resurrected. We will let you do that analysis. Propane gas, active power service to meter. Gravel road a half mile or less from F16 Hi-way near Kenton. Could be a great hunt camp or hideaway! This parcel is all uplands. No swamp here. We did not see a well, but there could be one here somewhere. We did spot a two holer.</p> <p>Summer Tax Due: \$589.30</p>	5246 KITCHIE RD KENTON;	\$4000

Comments: Parcel has over 2000 feet of frontage on the East branch of the Ontonagon River, just upstream from Onion Falls. We spent considerable time looking for access to this parcel, and the best (only) physical way in that we think will reach it is a US Forest Service "ATV-only" trail (Trail # 835) coming in from the west, off the curve on Gardener Road. This trail winds around the north side of Duck Lake. We did not find any physical access in to the part of the parcel that is east of the river. There are some two tracks on topo maps, but they cross other privately owned lands. Many have tress and other obstructions. There is a deeded access right in Liber 69, Page 17-18, but it has never been improved. (See attachments for legal description and map of the easement) Short version: you can come in over a Federal ATV trail, or walk in over an unimproved easement, but you can't drive to this at present. The nearest improved road is well over a mile away. The topography rolls downward to the river channel on both sides, with a drop in elevation of over 100 feet. There is no power out in this area. Comments: 6.5+ acre parcel lies south off Boston Location Road. There is no improved public road to this parcel. We are told that it is accessible by two tracks, but as far as we can tell, if there are any, they run across other peoples land. Parcel is roughly square, and USGS maps indicate the southern third or quarter of the parcel is marshlands. Might be a good hunt camp spot if you can figure out a legal way in and out. Comments: 2 acres more or less parcel, at the far NE corner of Paavola on No 9 Road. It is unclear whether or not this property is occupied, so we did not enter to investigate. The exterior indicates deferred maintenance and the roof is going to leak, if it isn't already. The nucleus of the house is a traditional old 2 story frame structure. There are a couple of additions to the building which could be removed to improve its appearance. There are is some debris in the yard, though it is difficult to estimate because of the long grass. Parcel is a corner lot and this structure is at the end of a cul-de-sac in a very quiet area. Could be a great family home if cleaned up and rehabbed. The floors in the entire center of the home are sloping sharply downward, to the degree that the walls are separating from the ceiling. The roofline on the house is still straight. MAYBE you can reengineer the floor system before it it too late. As you can tell by the trajectory of the furniture, this isn't a minor slope. This is clearly about ready to collapse. To the degree that we did not walk across the floor to the other side. Start at the bottom on this one, and work your way up. 2 bedrooms, one bath. They took the furnace last time they left. There are restrictions and association fees associated with this property. Please see the website linked to this listing for more detail. This parcel is rectangular in shape and has 340' along the east side of Blue Road. There are no trails or clearings cut into the property, though there is an overgrown trail at roughly the north property line. There is a small pile of debris back in the woods off that trail (appliances and such) that appears to have been there a while. Can't be sure if it s on this parcel of the neighboring one. Very close to the line. Roughly one half of the property is level from the road heading east, where it drops off into ravines with steeper topography. This property is fully wooded and shows no signs of recent timbering. There are some large, mature trees in a number of specie on this parcel. Mickeys a/k/a Smitty's bar was in the location for eons. In more recent years the lower level was converted into an apartment. The building has been pretty much stripped of fixtures (including the furnace) and the plumbing and electrical systems are realllly sketchy. The electrical system in places is downright dangerous. Much of the plumbing is amateur as well. We would rip it all out and start over to be honest. Structurally this building is solid, and the location is great ... it needs to be gutted and redone. There is also a second floor apartment that has not been occupied in some time. It has a hot water boiler installed, but it is in various forms of disassembly and obviously past its last breath. The location make an investment in a new roof, electrical, plumbing and HVAC a worthy one.</p> <p>Summer Tax Due: \$1,563.44</p>	143 LAKE LINDEN AVE LAURIUM;	\$6700

Comments: This home is occupied, so we did not have the opportunity to view it in detail. It has been modernized and it appears to have been professionally done. Vinyl siding, steel roof and newer windows are evident. We assume this is a remodeled older home, but without closer inspection, that's just a guess. Comments: Two parcels are combined to create 11.27 acres in total. This property is located about a mile or so north of Chassel, on US 41. A paved driveway wraps up to a private secluded setting that has potential lake views of Portage Lake with a little bit of clearing. There is a two bedroom, one bath frame home, mid-century construction, with a masonry fireplace. The property is served by natural gas and has a 100A electric service. To the north of the house is a detached, 2 car garage with a potential guest quarters over the top. It had a new roof and exterior stairway put on in 2017. There is already a guest quarters roughed in from past use, and it is plumbed for a kitchenette and bath, but we don't know anything about its function. Next to the two car garage is a large A-frame storage building. Easily long enough for a large workshop, or tractor storage. The acreage to the rear of the building is a mixture of specie and has a creek/drain that runs through the property. The road to the rear of the property appears to need to be built up to be suitable for regular vehicle use as there are spots that are overgrown and narrow where it crosses the lower lands up here. There is much useful upland here once you develop a way to get to it. Obviously it is very accessible by ATV. The house has natural gas hot water heat which was winterized in 2017, as was the plumbing. We cannot guarantee the work, but there should be no issue with the boiler or systems overall. The roof on the house is steel and isn't leaking. The living room has a nice corner window where there may have been lake views in the past, now grown up (most of these trees are on the property and could be thinned). There is one area in the laundry/utility room where the subfloor has been removed as it was spongy from a leaking washing machine. A sheet of plywood and that's as good as new. Overall, this is a solid, well built home with modern mechanicals that could use decor upgrades and maybe a new kitchen and bath. The master bedroom has one spot in its ceiling where the tiles have come loose and are sagging. It's not a leak ... just a sag. The two bedrooms share the bathroom with a Jack and Jill door setup. The property has an area to the north of the driveway near the road, where you could build a new garage that would minimize the work keeping the driveway open in the winter. This is located between Baraga and Houghton and roughly 10 miles from MTU. Note: This property is owned by the auction house and being sold "as is". Summer 2020 taxes are paid. The utilities at this property are active and can be switched over to the buyer at time of settlement. There is a lockbox at the property. Two bedrooms and a bath up, bedroom and bath on main as well. Front porch is roached and needs to be removed We see indicators of frozen plumbing, which probably took the boiler piping with it. So there will be some plumbing to do. We could not get access to the basement to inspect the foundation in detail, you may wish to do an exterior walkaround to get a feeling for that. The roof is ancient but is not leaking inside the building. There is an abandoned vehicle and some debris in the side yard ... not sure if it goes with this as a bonus, or if it belongs to the neighbors. Overall, this is a good project house. Without attention, the front foundation wall and probably the sidewalk will be in the basement at some point. The building is structurally oooold, but sound. It does not appear to have had any regular occupancy since probably the 1950's or 60's. Even with that absence, the roof has been maintained and the building suitably ventilated that it is very presentable aside from flaking paint and some plaster that has loosened from age more than anything else. If proper attention was paid to this property quickly, it could be saved. All of the mechanicals will need updating. Note that we have a vacant lot next door also available (sale 4038) in case you'd like a larger yard. This is a pretty large place that includes a two story Biltmore addition. The rear portion is on a Michigan cellar, the forward section we *think* is on a crawlspace. All of the foundation seems solid. The condition of this building is difficult to assess because it is loaded with old clothing, food garbage and other accumulation. You'll need to get it emptied out to get a good grasp of its real condition. However our walkthrough seemed to indicate that it has "good bones" and is worthy of rehabilitation. The roof is *ancient* and is leaking in a couple of specific spots upstairs. So far it has not caused significant damage, but it will if left unchecked. The hot water heat boiler is disassembled, indicating some issues there. Newer 100A electric service. The biggest issue with this property is the mess. 4047	<p>Parcel ID: 052-450-011-00; Legal Description: LOT 11 (612 N 6TH ST)</p> <p>Comments: This home is difficult to assess due to the amount of food garbage and general accumulation inside. It is an older, wood frame 1.5 story home with a mid-century addition on the west side that has a wood burning fireplace. The roof is in horrible visual condition, but it's not leaking. The place is wall-to-wall garbage and pretty ripe right now. There were some critters moving around in it when we were visiting, but we didn't look to find out what kind. The second floor has been insulated and blocked off for heating purposes, and we did not inspect it, but it's predictable. The *bonus* here is a really nice 24x24 (or so) steel garage. It too, is crammed with "manstuff" (car parts, garbage, general accumulation) and should be cleaned out to really assess. This property is worthy of rehabilitation, but will need 1) A cleanout 2) Cleaning ... lots of cleaning 3) A roof. Located at the north side of Crystal Falls. Comments: This could be a great place again with just a little work. Job #1, is that it needs a new roof. Yesterday. Shouldn't be a huge task as this is a smaller, one story roof with a fairly low pitch. Maybe even a DIY project. Will need some restoration to the living room ceiling and the back hallway shows a little distress to paint but not plaster (yet). Otherwise, the interior of this home is not in bad shape at all. Hardwood floors, a great period birch kitchen. Two bedrooms and a bath up with another utility bath with shower in the basement. The home has a boiler and hot water heat. We examined the plumbing in some detail looking for freeze damage and did not find any. We can't guarantee there isn't any, but it's not rampant if so. The property is 98' feet wide on Adams Street (aka US-2) and runs roughly 550 feet deep, uphill, into a nicely wooded lot. There are two old outbuildings in rough shape. What this one needs more than anything else is to be emptied and cleaned. Structurally it's pretty solid. Hardwood floors in places. A well fed dog lived here and the place has doggie do-doo all over the main floor, and there is a little bit of ripe food garbage around to deal with. Otherwise its just old clutter, a couple dumpster loads and you've got a pretty decent place. The basement has an issue with infiltration of water (and sand). We're not sure of the source, but it should be investigated and plugged. Foundation that we saw all looked good. Basement has been used as a "grow room". Probably tomatoes. <Cough>. Overall, this is a very solid property well worth your restoration. It is only one story and looks larger from the outside. Needs a new front porch. Newer hi efficiency furnace and 100A electric service. Includes vacant lot behind the house.</p> <p>(2 of 2) Parcel ID: 054-201-009-00; Legal Description: PLAT OF IRON RIVER BUS MEN'S ASSN (LIMITED) ADDITION TO VILLAGE OF IRON RIVER LOT 9 BLK 1. Last occupant appears to have been a well fed dog. Not much debris here, but its pretty grubby with dog poo. Modern hi efficiency furnace. 100A electric service panel. Roof is mid life and not leaking. Decent two car garage. This is a bright and open home with lots of windows. Some hardwood floors. Three bedrooms up, one small. A bath up and one down. The foundation has had some patching done, mostly we think to prevent water infiltration. Doesn't appear to be in danger of failure, but we'd look into waterproofing it. This is generally a good solid property worthy of rehabilitation. Power service has been dropped by the utility provider.</p> <p>Summer Tax Due: \$1,235.26</p>	126 N FIFTH AVE IRON RIVER;	\$6894.10

Comments: Older wood frame Iron River home is structurally sound and has a good roof and foundation. The main floor in this home is wall-to-wall garbage. Food containers, fast food bags, clothing ... dozens of coffee filters (used) in one pile. Strangely there is not much smell in here (probably older and dried out) This is a solid feeling, straight structure that once cleaned out could be a decent home. There are two or three furnaces in the basement ... none fully installed. The roof is older, but not leaking. Two bedrooms and two baths. We could not find the electric panel in the middle of this mess, but we would guess based on service age and wire size that it's a 100A service. Likely breakers, not fuses. The basement, without its sump pump in action (no power), is a water collector. A closed up house with a wet basement = bad news. There isn't a problem here "yet", other than a little warping paneling, but this one needs you to get the power on and get it cleaned up before that comes to fruition. This is a one bedroom home with lower (7') ceilings. Has a modern hi-efficiency furnace, a solid foundation, almost new looking roof, and 100A modern electrical service, all ingreat condition. There is an old building out back that should go, and the two porches both need repair from warping and failing planks. This is a small efficient home and would be a great starter or retirement crib. It is the location of the historic Bengal mine, and roughly 3/4's of it is now flooded and for all purposes a private pond. The property is fenced and there is not an easily accessed gate that we found. In places, the sheer bluff from the land to the water below is over 100 feet of sand. Hence the fence. We believe the water itself is similarly over 100 feet deep. We believe the pit (this was an open pit mine) is more level as to topography at the southern end, but did not breach the fence to find out. Could be an interesting property for the right visionary. But please recognize the potential liability and the responsibility to maintain the security of this property. A couple of trespassers stepping over the edge of that bluff could be a huge legal issue. Pay attention here, folks. Don't look at the water, look at the bluff. The house is solid and has an older, but not leaking roof, and a good foundation. Three bedrooms and a bath up, and a half bath off the kitchen on the main floor. There is evidence is frozen plumbing, including to the hot water boiler heat system. It's difficult to tell the extent of that without pressuring the system, but the kitchen and boiler radiator piping seem to be involved directly. Plat of the Village of Ahmeek Comments: Large building appears to have been used most recently as a retail antique shop type operation, perhaps with living quarters above. There is also an outbuilding to the rear that appears to be in merchantable condition. The main building has a mid-life roof, and the electric is still active to the building, tho the meters have been pulled. There is still personal property of some value here which is not included in the sale. There are two paved parking spaces to the north of the building, offstreet. Fuel oil heat source. Overall condition here is solid and merchantable. We do note one abrupt hole in the ceiling in a front room, which suggests frozen plumbing in that location. It appears that there is a concrete block foundation under this home, and that the foundation is newer than the house. So at some point it was likely raised and placed on better footings. The house is old and we suspect that all of the mechanicals are dated. The power service (60A) has been torn off the house by a tree limb or ice damage, and the feed dropped by the utility. Structurally the house appears to be straight, but we did not have an opportunity to view the interior. The roof is old, but again we'd only be guessing as to interior condition as the blinds are all drawn tight. There are three outbuildings that are also old in vintage and life preservable. We do not know if this property is hooked to municipal water, which runs past the house at the road. It is likely that this property has been vacant for decades. Foundation has a couple of small repairs but seems okay overall without deflection or major failure noticed. Front and rear steps and porches are rotten and need replacement. This portion is a really, really, really nice 80 acre, hilltop wooded parcel just off M-28 on CR 413 (a paved road) near McMillan. This is, to a large degree a maple grove. Mid aged maples are clearly the dominant specie all over this parcel. We found several overgrown two tracks on the county road about half-way along its border that travelled all way into sale unit 6002. We stopped driving on the furthest south trail where we found a deer blind (right past the salt block) because the terrain here drops into a ravine and we weren't certain of being able to get back out! This is beautiful property. THIS PARCEL IS ENROLLED IN THE COMMERCIAL FOREST RESERVE SYSTEM and there is a strict non-development (no construction!) pact that is compensated for with lower taxes. If you want to modify that agreement, you may have to repay some of the back tax amounts that were abated. Be aware of that and research carefully before bidding please! Also ... this parcel is on BOTH SIDES of the road at CR 413. There is a much better road on the portion west of 413 that runs west to the property boundary. Please note: These parcels do *not* have summer taxes, but DO have winter taxes. The buyer will be responsible for paying the winter taxes on their own after purchase.</p> <p><i>(2 of 3) Parcel ID: 002-002-001-1600; Legal Description: SEC 1 T45N R12WSE 1/4 OF SE 1/4. 40 A.*****PROPERTY USE RESTRICTED DUE TO*****PA 94 COMMERCIAL FOREST ACT</i> Comments: Part of a 200 acre combined parcel sale, this is a 40 acre wooded parcel that is several hundred feet east of CR 413 near McMillan. This parcel is 80 acres in size. It does not front on an improved public road but there is inference of access from the curve south of the other two parcels on CR 413. However we would strongly suggest verifying easement or other access. This parcel has a topography that is lower than the other two parcels, and the woodlot is less impressive, with a wider variety of specie represented. To access this parcel, begin at the curve in CR 413 south of parcel 6001, and follow the two track road about 1/4 mile further south. When that road turns left and bears due east, you will almost immediately cross the west boundary of the 80 acres, about half way down that boundary. This parcel is 1320' (east-west) x 2640' (north-south) . As with the other two parcels, this is enrolled in the Commercial Forest Reserve (CFR) program. We noticed an old power pole peering over the tops of the trees and discovered what's left of a structure that may have burned years ago. We think is is on the property next door, but wanted to throw that information out there. It's pretty much just a concrete slab about 20' x 20'.</p> <p>Summer Tax Due: \$21.09</p>	829 CO RD CDA;	\$900

6224	Parcel ID: 52-05-340-041-00; Legal Description: TOWN OF SWANZY LOT 61. Comments: Historically this was at one time the local butcher shop. After that time it was converted into apartments. It is occupied by people related to the former owner, but they're not "renters". There is an accumulation of food garbage outside, and there is other general debris all over the yard. Steel roof appears to be leaking, and we'd estimate that the interior needs a complete cleaning and resurfacing. It is OCCUPIED. The brick exterior is in generally solid condition and does not appear to have any significant issues. There is a rear frame addition that needs attention and a frame garage that also needs attention. Comments: This is a long 40, being 660' feet north-south along the road, x 2640' feet deep to the east. A small portion of this parcel (about 3 acres) is west of County Road FS, and it includes a small hunt camp building. The rest of the property is east of the highway. There are some overgrown logging trails in to it, but nothing you can drive on today. It appears this was timbered, select cut leaving evergreens only for the most part. The BLACK RIVER runs across this parcel, which is covered mostly in evergreen and faster growing softwoods like poplar and birch. The camp shack is primitive with no well or septic, but there is an electric service. Some evidence of critters having been inside. There is also an accumulation of junk vehicles, boats and the like near the south property line on the west side of the road. These appear to be on the property, but we can't be sure. This is a classic retail storefront from the turn of the (last) century, with display space on the main floor and owners quarters above. This building probably can tell some stories from Ishpeming's early days. In recent years it has been combined into a single family residence. Two baths, one up, one down. Three Bedrooms upstairs plus what we assumed was a kitchen at one time. Could easily be converted back into retail and owners quarters. The roof on the rear of the building looks horrible outside, but inside there is a very localized leak. We'd still get it put back together ASAP to prevent damage. How water natural gas heat with apparent freeze damage to radiators as well as plumbing in general. "Pet odors" as well. Modern upgraded electric service. Has one car detached garage for storage. The plumbing in this home has frozen. causing damage to the main floor kitchen ceiling, and some flooring, mostly on the main floor. It appears the boiler hot water heat lines have broken in at least two or three spots, which probably flooded the basement for some time. There does not appear to be any long term damage from this event to the foundation, though it is very possible the boiler could be cracked. At a minimum it will need distribution lines repaired. The upper level unit has almost no damage except to a spot in the flooring. Two bedrooms up, two bedrooms down. Fuel oil hot water heater (in obvious disrepair). Ancient 60A electric service. Decent looking roof. Aluminum siding in great shape. Multiple Family Use; Freeze Damage; Summer Tax Due: \$1,127.64	420 E DIVISION ST;	\$56000

It appears also that it may have been winterized, but we can't be sure or guarantee the work. Two bedrooms up (one is a walk-thru_ and one down. One bath, a really sharp kitchen. Comments: This building is in need of a costly demolition that includes asbestos removal. Therefore, the county has place a performance bond requirement for anyone wishing to purchase this property to ensure proper demolition takes place. Purchaser will be required to furnish a personal guarantee and cash surety in the amount of \$100,000.00 (the "Surety") to ensure the demolition and remediation of the offered property to a safe and debris-free condition. Certified funds in the amount of the Surety shall be deposited with seller or its designee within 5 days of the auction. If the Surety is not presented within 5 days of the auction, the sale shall be canceled for non-performance without refund. Purchaser must present a plan to seller within 60 days of the auction which includes a cost estimate and timeline for the demolition of all structures located on the offered property by a licensed and insured contractor. Such plan must be approved by seller at seller's sole discretion prior to the commencement of demolition and remediation activities. Such demolition and remediation shall be completed within 180 days of the date of the auction. Demolition shall be considered complete upon certification of seller and at seller's sole discretion. The Surety shall be applied to the costs of demolition and remediation in accordance with the approved plan. Any costs incurred over and above the Surety are the sole responsibility of purchaser. Any Surety which remains after seller certifies the satisfactory completion of all demolition and remediation activities shall be returned to purchaser. If purchaser fails to comply with any of the terms and restrictions stated herein, they shall forfeit the Surety to seller. Seller has the unilateral right to accept, reject or require modification to the Surety prior to its acceptance by seller. Purchaser has NO RIGHT TO POSSESSION or entry upon the offered property until seller executes and records a deed conveying the offered property to purchaser. 6280	Parcel ID: 52-51-370-042-00; Legal Description: BARNUM ADDITION LOT 42. Comments: Appears to have been vacant about 5 years. Two bedroom frame home ... midcentury aluminum siding over older asphalt panel. Roof is older but not leaking inside. We could not get a good look at the foundation as it is covered with plywood, but there is some sway to the floors here. Home has a hot water boiler and we saw no obvious signs of freeze damage, but we did not pressurize it to really be sure. There is no panelboard or fuse box inside the house that we could find, and the electric service is inside the GARAGE (which is very unusual). The overhead service drop has been disconnected by the utility at the pole. Overall this is a modest home with potential. Great starter or retirement crib. Three bedrooms up, which includes one walk-thru room as well as a bath. This house is heated with hot water boiler heat. It MAY have been winterized (the toilet was) and we examined the boiler piping and did not see any obvious signs of damage. Cross your fingers! Comments: The "village" at White Pine sprang up quickly with the expansion of a nearby copper mine, and became quiet just as quickly. Many of the housing units here resemble military tract housing ... prefabricated or carbon copy designs built rapidly by a small number of contractors. Today, White Pine is a quiet community with many retirees / snowbirds here. This house will need to be gutted, cleaned and resurfaced. The whole inside has been used as a litterbox, and there is pet hair, feces (and fleas) everywhere. There are three bedrooms, one of which has substantial damage from a leaking roof that has been ongoing for some time. This one isn't a paint-n-flip, but it could be saved. There is an abandoned car in the one car attached garage. The shed out in back is being "claimed" by a relative and could disappear This home is slab-on-grade, so no crawlspace. It has been closed for some time (calendar on the wall says 2013). It has a commercial kitchen that is grubby, but still contains most of its fixtures. There is a commercial vent hood with make-up air (MUA) still in place as well as an Ansul system. These *should* still meet current health department code if one wanted to reopen the kitchen for public use. This would also make a great large home or private lodge. The roof is steel and we did not see evidence of leaks, however we DID see a lot of suggestion that plumbing has frozen and water may have run for a while before being shut off. There is some warping to floors in the dining room, and some walls and ceilings have issues where there is no sign of a "roof leak". This is a sold, modern building. It could easily be rehabbed to be used for many different purposes. Has two ADA compliant restrooms. On well travelled M-26. The north parcel is 13.96 acres and has paved frontage on Rousseau Road. This parcel is open, brushy land and is very level except for a small ravine area about two-thirds of the way to the south. The south parcel is a 20 acre woodlot that has more roll and ravine to it. See the images for topographical and aerial information. The "road" for access to the rear parcel is a private two track that runs along the east side of the parcels, and is somewhat overgrown and definitely 4WD territory. BEWARE: At the point where the road reaches the south parcel (the tree line), there is a rather narrow but DEEP RAVINE that you will not get out of if you just drive headlong into it. We've sold this one before, and it's back on the list again. This is a solid building, maintained for decades at great taxpayer expense. It has been sitting for more than two decades without much maintenance. Most windows are boarded. The roof is leaking in every part of the building. The building is not (yet) structurally beyond help, but this is easily several hundred thousand dollars in a roof, cleanout and repair before you even start counting the mechanical, surface and windows needed to make it useful for just about any purpose. This could be an exciting housing or communal arts retreat but you will need vision and deep pockets. The electrical, plumbing and heating/boiler systems here are all junk. 8228	<p>Parcel ID: 08 353 006 00; Legal Description: LOT 6 BLK 3 OF SECOND ADD TO TOWN OF EWEN. Comments: This is a really well built, solid old wood frame building, that started it's life as church, before becoming a "grow house". Who would look there? The stained glass windows were harvested, and OSB slapped over the window openings without framing them in or insulating them. This will be a drafty place in the winter without correction. The roof is older, mid-life but isn't leaking. What little plumbing there is may have been winterized. It is essentially one large room upstairs with a side room/office space, and several small rooms in the basement. The building is suffering from moisture in the basement from being closed up, and mold is starting to form. This one can (and should) be saved, but she needs some ventilation and tightening up of the windows soon. Could be a great living, work or commercial space. Speculators: please study the market. Comments: 1320' of road frontage on the LP Walsh Road. This parcel is southwest of Ontonagon about 5 miles. This is level uplands with a mixed variety of specie populating the forestry. The gated trail about 300 feet from the north line on the paved road is the only improved access to this site, and it appears to be overgrown. There is a good deal of low brush on this parcel. The land is fairly level, with a small ravine and unnamed creek toward the west boundary. The vegetation is more dense as you travel west in the parcel also. Parcel is roughly a square 40, subject to road right-of-way. We did not see any other trails into this parcel, which has been in the same family for many many years. 8246	Parcel ID: 10 417 006 00; Legal Description: LOTS 6 & 7 BLK 17 OF VILLAGE OF ROSENDALE. Comments: Corner lot in Rockland. There is a collapsing old frame structure here on a foundation that has given way. So it's a reverse collapse ... from the bottom up! There is an addition on the west side of the house, and the foundation under that side has caved into the basement, the entire porch and about a third of the two story portion of the house has shifted and there is a large hump in the living room floor that is weak. Numerous doors are now out of square and won't close. It's just a matter of time with this one. It is conceivable that you could remove the addition and replace the west foundation wall, but the expense would likely outweigh the value of the finished product. Old roof. Old wiring. Old plumbing. Comments: Older weather beaten one story home in Bruce Crossing. Walking distance to the co-op store and other local amenities. Home is better inside than out. Two bedrooms (one up, one down) one bath. There is a slope to the floor to the center of the house. We suspect this is a wood pier footing system underneath and its common for them to rot and start shifting with time. Could likely be corrected with a little engineering, concrete and cribbing There is some debris here to remove. Creative side shed on the north and greenhouse project on the south are incomplete. Old, but has potential with resurfacing and finishing. There are some boarded windows and other damage from interior vandalism. Handyman special. Curiously the house has a natural gas service, but we saw no furnace, registers or any evidence of a heat source other than portable kerosene heaters. Comments: This is a "long 40", being 660' feet along the road x 2640' feet (1/2 mile) deep to the west. It on the west side of Baltimore Road a couple miles west of Bruce Crossing. The parcel is rolling and is higher at the north and south lines with a roll downward to the valley running east-to-west at the center. We have put orange flags by the side of the road at the approximate north and south boundaries. There is an older single wide mobile home and a very old house in the valley that are in tough shape, tho the ancient house has a decent looking steel roof on it.. We did not view them in detail because of general condition. USGS maps indicate the land is mostly open and fairly level going west, tapering toward the raving. Visual observation is that there is low brush on much of the forward, visible portions of the land. There are few indicators of any sort of wetlands here. Comments: This house is generally sound structurally, but it needs to be completely gutted, right down to the studs, cleaned, sealed and resurfaced with replacement of all mechanical systems. The roof has been leaking for years, and the rear portion and basement of the house are being swallowed by black mold. It is wall to wall food garbage and soaked, stinking castoffs and very unsanitary. It teeters on the edge of a ravine to the rear, and teeters on the edge of economic value to rehab. This one needs pretty much everything. It "could" be rehabbed. But should it? That's your decision. Comments: Property would make an excellent antique store, studio, office location, home or many other creative uses! This property is presently occupied and we did not have the opportunity to view the interior, but it appears as though is is deconstructed and being used as warehousing for rummage sale grade "stuff". Former owner appears to be living in a motor home tethered to the building. The exterior needs paint but is sound. Roof is older but does not appear to have decay. Comments: Update: The county has cleaned out most of the stuff inside this home and updated interior pictures can be seen on this listing. This is an older home with a small, more recent addition on its north side. The original home apparently has some issues with floor support, and there is a hole opened in the floor to access the crawlspace. More of a bracing or post issue ... not a "foundation" problem. The living room ceiling is also dropping and is covered with plastic, but this does not seem to be a structural roof issue ... more a cosmetic one with the tile coming looswe. Neither are major issues for any competent handyman (or woman). The addition to the house is late century, and the floors seem a little "bouncy" in the living room. Not unsafe, but it's noticeable. Overall, this is a modest home that needs some rehabilitation. Appears to be generally solid other than noted here. The roof has some issues at the edges but is not leaking inside at this tiome. There is an outbuilding that is collapsed and should be removed. Incomplete Construction; Personal Property; Summer Tax Due: \$1,394.29	349 N MAPLE ST MANISTIQUE;	\$8400

Excerpts from Michigan Compiled Laws (MCL), Chapter 211

****Section 211.27a(7)(d):** Beginning December 31, 2014, a transfer of that portion of residential real property that had been subject to a life estate or life lease retained by the transferor resulting from expiration or termination of that life estate or life lease, if the transferee is the transferor's or transferor's spouse's mother, father, brother, sister, son, daughter, adopted son, adopted daughter, grandson, or granddaughter and the residential real property is not used for any commercial purpose following the transfer. Upon request by the department of treasury or the assessor, the transferee shall furnish proof within 30 days that the transferee meets the requirements of this subdivision. If a transferee fails to comply with a request by the department of treasury or assessor under this subdivision, that transferee is subject to a fine of \$200.00.

***Section 211.27a(7)(u):** Beginning December 31, 2014, a transfer of residential real property if the transferee is the transferor's or the transferor's spouse's mother, father, brother, sister, son, daughter, adopted son, adopted daughter, grandson, or granddaughter and the residential real property is not used for any commercial purpose following the conveyance. Upon request by the department of treasury or the assessor, the transferee shall furnish proof within 30 days that the transferee meets the requirements of this subparagraph. If a transferee fails to comply with a request by the department of treasury or assessor under this subparagraph, that transferee is subject to a fine of \$200.00.

Section 211.27a(10): "... the buyer, grantee, or other transferee of the property shall notify the appropriate assessing office in the local unit of government in which the property is located of the transfer of ownership of the property within 45 days of the transfer of ownership, on a form prescribed by the state tax commission that states the parties to the transfer, the date of the transfer, the actual consideration for the transfer, and the property's parcel identification number or legal description."

Section 211.27(5): "Except as otherwise provided in subsection (6), the purchase price paid in a transfer of property is not the presumptive true cash value of the property transferred. In determining the true cash value of transferred property, an assessing officer shall assess that property using the same valuation method used to value all other property of that same classification in the assessing jurisdiction."

Penalties:

Section 211.27b(1): "If the buyer, grantee, or other transferee in the immediately preceding transfer of ownership of property does not notify the appropriate assessing office as required by section 27a(10), the property's taxable value shall be adjusted under section 27a(3) and all of the following shall be levied:

- (a) Any additional taxes that would have been levied if the transfer of ownership had been recorded as required under this act from the date of transfer.
- (b) Interest and penalty from the date the tax would have been originally levied.
- (c) For property classified under section 34c as either industrial real property or commercial real property, a penalty in the following amount:
 - (i) Except as otherwise provided in subparagraph (ii), if the sale price of the property transferred is \$100,000,000.00 or less, \$20.00 per day for each separate failure beginning after the 45 days have elapsed, up to a maximum of \$1,000.00.
